## Los Angeles Community College District Administration

### **Board of Trustees**

Mike Fong, President  
Andra Hoffman, Vice President  
Steven F. Veres, 2nd Vice President  
Dr. Gabriel Buelna  
Ernest H. Moreno  
Scott J. Svonkin  
David Vela  
Kellie N. Williams, Student Trustee

### **District Administration**

Dr. Francisco C. Rodriguez, Chancellor  
Dr. Melinda Nish, Interim Deputy Chancellor  
Dr. Robert B. Miller, Vice Chancellor of Finance and Resource Development  
Dr. Ryan M. Cornner, Vice Chancellor for Educational Programs and Institutional Effectiveness  
Dr. Albert J. Roman, Vice Chancellor for Human Resources  
Jeffrey M. Prieto, General Counsel  
David Salazar, Chief Facilities Executive

### **Los Angeles City College Administration**

Dr. Mary Gallagher, President  
Dr. Daniel Walden, V.P. Academic Affairs  
Dr. Regina Smith, V.P. Student Services  
Anil Jain, Associate V.P. Administrative Services  
Fabiola Mora, Assistant Dean of Academic and Career Pathways  
Dr. Thelma Day, Dean: Academic Affairs  
Dr. Vi Ly, Dean of Performing and Visual Arts & CTE  
Carol Kozeracki, Dean of Liberal Arts  
Dr. Anna Badalyan, Dean: Institutional Advancement  
Angelica Ramirez, Dean of Non-Credit Programs  
Alen R. Andriassian, Dean of Student Life  
Drew Yamanishi, Dean of Student Services & Retention  
Dr. Jeremy Villar, Dean of Student Services, Student Access

## Introduction

Thank you for your interest in the Radiologic Technology Program. This document aims to provide you with information about the Los Angeles City College Radiologic Technology Program.

The Los Angeles City College Radiologic Technology Program Is Celebrating 60 Years Of Competency Based Quality Education.

Radiologic Technology classes began in 1958.

## Mission Statement

The mission of the Radiologic Technology Program at Los Angeles City College is to instruct students with the technical and interpersonal skills necessary for success as a professional diagnostic medical radiographer.

## Program Goals

1. Prepare clinically competent entry-level Radiologic Technologists.
2. Cultivate Radiologic Technologists who utilize exceptional communication skills with patients and coworkers.
3. Train Radiologic Technologists to use critical thinking and problem solving skills to perform job related functions.
4. Produce Radiologic Technologists who will grow, develop, and become members of professional organizations that foster career growth.

## A Career in Radiologic Technology

Radiologic Technology is a health care profession whose practitioners work in hospitals, clinics, free standing imaging centers, and private offices. The Radiologic Technologist (Radiographer) is a member of the health care team who works directly with the patient and the physician performing a wide variety of diagnostic x-ray procedures including Computed Tomography, Magnetic Resonance Imaging, and Positron Emission Tomography (PET/CT).

The Radiographer must be proficient in the knowledge of radiographic exposure, human anatomy and positioning the patient to demonstrate the desired anatomy, the operation of specialized equipment, and the assessment, care and management of the patient.

The rapid expansion of medical diagnostic imaging has greatly increased the diversity and utility of medical diagnosis. A career in Radiologic Technology offers vast opportunities for advancement.

## Accreditation

The Radiologic Technology curriculum is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) 20 N Wacker Drive Suite 2850 Chicago, IL 60606 Phone (312) 704-5300 and the State of California Department of Health Services.

The Joint Review Committee on Education in Radiologic Technology Standards can be found at the following website <http://bit.ly/2BLbwut>

Additionally, students can report allegations that an accredited program is not in compliance with JRCERT accreditation standards by going to the following website:

<http://bit.ly/2GWjqR2>

The clinical educational centers are accredited by the Joint Commission for the Accreditation of Health Care Organizations (JCAHO). Los Angeles City College is accredited by the Western Association of Schools and Colleges.

## Certification

Students who complete the associate degree requirements including the clinical education requirements will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists (ARRT) and the State of California, Department of Public Health, Radiologic Health Branch (CRT).

## Admission to the program

The college accepts a limited number of students into the program, which is based on the number of clinical education positions available.

- ✓ Students are admitted to the Program once per year in the fall semester.
- ✓ Online applications to the RT department must be submitted between February 1 and March 31 for admittance to the RT Program beginning the fall semester of the same year.
- ✓ It is applicant's responsibility to make sure all necessary steps are followed.
- ✓ Students are required to graduate with an Associate in Science degree in Radiologic Technology

For detailed information about our selection process please review our Student Application Handbook here: <https://bit.ly/2wPX404>

## Background, Drug & Health Requirements

**Upon acceptance** into the Radiologic Technology Program, the student must have a physical examination performed by a licensed physician at the student's expense. Documentation must be submitted to prove the student is free from communicable diseases, infection, psychological disorders or other conditions that prevent the successful performance of the responsibilities and tasks required in the Program.

Additionally, students **must pass a background and drug test (at their cost)** prior to officially being accepted into the program.

## Prerequisite Courses

- ✓ RT 200 (Required to completed at LACC)
- ✓ RT 201 (3 unit college level; Medical Terminology Course can utilized to substitute for this course via general petition)
- ✓ RT 202 (Required to completed at LACC)
- ✓ Anatomy 1 (4 units each required)
- ✓ Physiology 1 (4 units each required)
- ✓ Math 125 or higher
- ✓ English 101
- ✓ Completion of all General Education Requirements for an Associate Degree by the end of the spring semester of the application year.

To schedule an appointment with an Academic Counselor to verify general education completion please go here: <https://bit.ly/2MRdhfu>

## Technical Standards

Radiography requires proficiency in the application of technical knowledge, operation of specialized equipment in a competent and safe manner, and the ability to provide physical care and emotional support to patients during radiographic procedures. Therefore, in order to be admitted to the Program, or to be retained in the program after admission, all applicants should possess:

1. Visual acuity, such as needed in the accurate preparation and administration of contrast media and for the observation necessary for patient assessment, care and management.
2. Auditory perception to receive verbal communication from patients needing assistance and from members of the health care team.
3. Communication skills (speech, reading, writing) to interact effectively and sensitively with patients in order to elicit information; describe changes in patient's condition; assess non-verbal communications; and be able to effectively and efficiently transmit information to patients, fellow students, faculty, staff and all members of the health care team.

4. Gross and fine motor coordination- to carry out diagnostic procedures including reaching, lifting, and moving radiographic equipment. Applicants should be able to execute motor movements reasonably required to provide general and emergency care to patients.
5. Intellectual ability to be able to measure, calculate, reason, analyze and evaluate as required for direct patient care. The applicant must be able to comprehend three-dimensional and spatial relationships.
6. Emotional stability to enable use of intellectual abilities, exercise good judgment, promptly complete all responsibilities attendant to care of the patients.
7. Social attributes to allow the development of mature, effective relationships with patients, faculty, co-workers and administrators.

The "Technical Standards for Admission" have been established as a guidance tool for use in realistically informing the student of minimum standards needed to satisfactorily function in the Program and ultimately in the profession.

The assessment of an applicant's compliance to these Standards will be accomplished in the following manner:

1. Faculty counseling to determine applicant's goals and expectations.
2. A physical examination performed by a licensed physician.
3. Program Admissions Committee meeting to identify deficiencies that may become barriers to the professional success of the student.

Applicants who may be deficient in one or more of the areas mentioned above should contact the Program Director. The Program Admissions Committee will seriously consider applicants who are deficient in any of these categories, providing the deficiency can be remedied with reasonable accommodation.

## Patient Care Skills Certificate

A one semester training program that provides students with work based learning opportunities in a patient care environment. One semester and three classes later and a student's earns a patient care skills certificate. This certificate helps students with application to the RT Program and find entry level patient care work.

[Patient Care Skills Certificate Presentation](#)

## Curriculum

The program requires a full time, two-year commitment. Classroom and laboratory courses are held at the College and are scheduled Monday through Friday between the hours of 5 a.m. and 7 p.m. A late afternoon, early evening, or an occasional Saturday class may be necessary.

Clinical education is offered at the following medical facilities:

1. Good Samaritan Medical Center
2. Kaiser Permanente Medical Center-Sunset
3. Kaiser Permanente Medical Center-West Los Angeles

The clinical education schedule is full time, 36-hours per week for 12 months, the student meets regularly with the Program Director and or his/her designee at the College at prearranged times.

The following courses are taken after the student has been formally accepted into the Radiologic Technology Program:

<b>Fall Semester</b>	<b>Units</b>
Radiologic Technology 103- Radiographic Anatomy and Positioning- Skeletal System	4
Radiologic Technology 205- Fundamentals of X-Ray Physics	4
Radiologic Technology 207- Patient Care and Management	4
Radiologic Technology 208- Cross Sectional Anatomy and Pathology	3
<b>Winter Semester</b>	
Radiologic Technology 210- Quality Management	3

<b>Spring Semester</b>	<b>Units</b>
Radiologic Technology 104- Radiographic Anatomy and Positioning -Cranium and Visceral Organs	4
Radiologic Technology 206- Radiographic Exposure	4
Radiologic Technology 209- Pharmacology and Venipuncture with Basic Life Support (BLS)	3
Radiologic Technology 240- Radiation Protection and Biology	4
Radiologic Technology 260- Introduction to Clinical Education	4
<b>Summer Semester</b>	
Radiologic Technology 280- Clinical Education in Radiologic Technology I	4
<b>Fall Semester</b>	
Radiologic Technology 211- Computed Tomography	4
Radiologic Technology 281- Clinical Education in Radiologic Technology II	12
<b>Winter Semester</b>	
Radiologic Technology 282- Clinical Education in Radiologic Technology III	4
<b>Spring Semester</b>	
Radiologic Technology 243- Principles and Practices of Fluoroscopy	4
Radiologic Technology 283- Clinical Education in Radiologic Technology IV	12

## Estimated Financial Cost

Legal residents of the State of California are required to pay nominal enrollment fees. Non-resident students are required by State law to pay non-resident tuition fees. Consult Los Angeles City College Admissions and Records for current fees. (Fees are subject to change per the State Legislature.) In addition, students may expect other fees and expenses during the length of the program.

1. Enrollment Fee		\$ 46.00 per unit
2. Associated Student Body Membership (optional)		\$ 7.00
3. Health Fee		\$ 11.00
4. Parking Fee (optional)		\$ 20.00
1. Certification Examinations		\$600.00 (Approx)
ARRT Radiography- \$200 CRT Radiography- \$88		
ARRT Fluoroscopy-\$200 CRT Fluoroscopy-\$88		
2. Graduation expenses	(one time)	\$165.00
3. Identification Badge	(one time)	\$8.00
4. Liability/Malpractice insurance	(annually)	\$68.00
5. Pre-entrance medical examination	(one time)	\$200.00
6. Professional organizations	(annually)	\$75.00
7. Program Pin	(one time)	\$20.00
8. Textbooks and supplies	(entire program)	\$800.00
9. Uniforms	(entire program)	\$200.00
10. Drug Testing and Background Check	(prior to start of program)	\$100.00
11. Immunizations	(one time)	\$200.00
12. Film Badges	(entire program)	\$80.00
13. Total Cost	(Approximate Total Cost)	\$6500

## Financial Aid

The Financial Aid Office administers federal, state, and institutional programs designed to expand college access. The available financial assistance comes in the form of grants, work-study, loans, and scholarships. The assistance makes it possible for individuals to continue their education beyond high school, even if they and/or their families cannot meet the full cost of post-secondary education.

For more information visit the website here: <https://bit.ly/2M6HrpM>

## ARRT Ethics Committee

An individual who has been involved in a criminal proceeding or who has been charged with or convicted of a crime may file a pre-application with the ARRT in order to obtain a ruling on the impact of the situation on their eligibility for certification and registration. A charge or conviction of, a plea of guilty to, or a plea of nolo contendere (no contest) to an offense which is classified as a misdemeanor or felony constitutes a conviction for ARRT purposes. This includes situations in which the result is deferred or withheld adjudication, or suspended or withheld sentence.

This procedure may enable the individual who has been involved in a criminal proceeding or has a criminal conviction to avoid any delays or possible ineligibility in processing an Application for Examination that is made at the time of graduation from an approved program. If a student thinks they may need to file a pre-application they will need to contact a faculty member of the Radiologic Technology Department for more information.

For more information visit the website here: <https://bit.ly/2MX0bO8>

## Contact Information

If you have questions we have answers:

Program Director: Israel Fonseca  
[fonseci@lacitycollege.edu](mailto:fonseci@lacitycollege.edu)

Clinical Coordinator: Richard Sayer  
[Sayerrs@lacitycollege.edu](mailto:Sayers@lacitycollege.edu)

Thank you for your interest in the Los Angeles City College Radiologic Technology Program!
