

## Denture Lab Technician

### Bellingham Denture Clinic ~ Bellingham, WA

Consider moving to one of the most desirable areas of Washington in the beautiful Pacific Northwest.

We are seeking a **Dental Lab Technician** for our Denture Clinic.

We are a Full Service Denture Clinic and pride ourselves on quality work and developing long-term relationships with our patients. We are not a traditional lab; we see patients from start to finish in our office with the lab in the same building. Our lab only services our in-house Denturists and patients.

We have a brand new office, new equipment, and a constant flow of patients that come through our doors. We get to fabricate their dentures, partials and dentures on implants right in our building and deliver them directly to the patient.

As a highly valued team member, your professional attitude and organizational skills will be essential to the operations of the lab. You will be one of the key people responsible for the tracking and smooth running of the lab from starts to finished cases. If this describes your abilities and you want a challenging job that is different every day, then apply and let's see where it takes us.

Job Type: Full-time non-exempt

Salary: Competitive compensation package, dependent on experience (Relocation costs will be negotiable for out of town candidate).

Job Location: Bellingham, WA [www.bellinghamdentureclinic.com](http://www.bellinghamdentureclinic.com)

Requirements:

- . High school or equivalent education
- . Previous denture/dental lab experience preferred
- . Denture lab certification or education

To Apply: Send Resume and Cover Letter to [TomWDorr@gmail.com](mailto:TomWDorr@gmail.com)
