

WEBVTT

26

07:54:55.740 --> 07:55:06.810

Presenter: Good afternoon, students this is President Gallagher and I just wanted to do a zoom call with you so that I can

27

07:55:07.290 --> 07:55:24.900

Presenter: Update you on some things right now. Hopefully we'll do one or two more of these before we resume. On March 30 so I wanted an opportunity to do this, we will message out to you, probably a message. Each day just to give you an update on anything that's new.

28

07:55:26.520 --> 07:55:35.910

Presenter: So we're in something that's unprecedented. This is new territory for us. We've not done this before. And so

29

07:55:36.600 --> 07:55:46.410

Presenter: We are working through this and we feel confident that we can work through this. We've been working on this for about four weeks on the campus so

30

07:55:47.280 --> 07:56:00.360

Presenter: We've got headway happening here, but I wanted to give you some updates and I want to give you an opportunity to ask questions at the end, we'll take your questions and

31

07:56:00.450 --> 07:56:01.080

ani: And

32

07:56:01.590 --> 07:56:03.300

Presenter: fill you in on what we're doing now.

33

07:56:03.690 --> 07:56:04.350

ani: Now we're

34

07:56:04.680 --> 07:56:04.980

Presenter: Going to

35

07:56:06.900 --> 07:56:07.830

Presenter: Go for this weekend.

36

07:56:08.730 --> 07:56:21.270

Presenter: No instruction on the campus. This week is a non instructional week so you may recall that we had indicated to you that just Monday and Tuesday of this week would be non instructional

37

07:56:21.660 --> 07:56:29.460

Presenter: But we've decided to make it all of this week. So Monday through Saturday is non instructional

38

07:56:30.420 --> 07:56:46.830

Presenter: Next week is actually going to be our spring break. So our spring break was originally supposed to be the week of April 6 but we've decided to move it up two weeks and have it be the week of March 23

39

07:56:47.520 --> 07:57:04.800

Presenter: The reason we did this is because that's actually going to provide us more time to get everything situated for classes that are going to be online to be fully online and ready for you. On March 30

40

07:57:05.610 --> 07:57:15.540

Presenter: So what you can expect on March 30 is still every class that we can teach fully online will be online.

41

07:57:16.020 --> 07:57:29.280

Presenter: Those classes that needs some on campus work will be a combination of online and on campus. So we will certainly message out to you as things develop here.

42

07:57:29.970 --> 07:57:44.610

Presenter: What is happening. But the purpose for what we're doing right now is to give us more time to be as best prepared as we can for your classes that will restart on Monday, March 30

43

07:57:46.080 --> 07:57:51.000

Presenter: Let me give you a little bit more information now about some things that we're putting together for you.

44

07:57:51.990 --> 07:58:08.670

Presenter: We know that some of you have challenges with internet and

computer devices in your possession at home. So what we're going to do is we're going to have a computer lab, that's going to be open for you with the expected

45

07:58:11.760 --> 07:58:26.640

Presenter: social distancing to maintain your health and safety in the computer lab will have staff there who will help work through any of the challenges that you have, or any of the questions that you have.

46

07:58:27.090 --> 07:58:34.590

Presenter: So if you're new to taking an online class or you're new to Canvas and you feel very unsure about that.

47

07:58:34.920 --> 07:58:45.630

Presenter: Will let you know when our computer lab will be open so that you can come in and get the help that you need will also have resources available to you online.

48

07:58:46.020 --> 07:58:54.120

Presenter: So if you already have a computer or device at home with the internet you can get in touch with us via email.

49

07:58:54.570 --> 07:59:11.340

Presenter: Or via chat function that we're going to put in place to give you the help you need so that you can get through these classes will be available to you as long as we do this, some of your classes will go all the way through the rest of this term online.

50

07:59:13.170 --> 07:59:23.820

Presenter: We have a special email hotline that we're putting together so that you have a hotline just for you. The students that will go to one central place.

51

07:59:24.090 --> 07:59:40.770

Presenter: And be answered and dispatched out where it needs to be to get your questions answered to help resolve any problems that you have or any issues that you may be experiencing. So we'll have that up and ready to go before March 30

52

07:59:42.960 --> 07:59:49.110

Presenter: The other thing that we're doing is we're going to publish for you. Our eight eight number that's a toll free number

53

07:59:49.320 --> 08:00:03.090

Presenter: That goes to a centralized place. So if you have any questions or any problems or any issues and you want to call us on the phone, you'll be able to do that. And we'll have staff who will be able to respond to you.

54

08:00:04.170 --> 08:00:10.110

Presenter: One of the things I want you to know is that we're going to make sure that we maintain our services.

55

08:00:10.410 --> 08:00:21.120

Presenter: So for the next two weeks, our services will not be available to you face to face on campus, but we'll be able to deliver those services to you remotely.

56

08:00:21.900 --> 08:00:28.680

Presenter: So all you need to do is contact us by phone or via email or in the chat room that we're setting up

57

08:00:29.190 --> 08:00:37.890

Presenter: will notify you of how to do that. So that anything that you need help with over the next two weeks you'll be able to get help with

58

08:00:38.220 --> 08:00:53.130

Presenter: And will maintain those functions for you beyond two weeks. So we anticipate that will be reopening to you for face to face services on March 30 if anything changes, we will keep you informed.

59

08:00:54.330 --> 08:00:59.220

Presenter: I want to let you know a couple of other things that we think are really important for you to know.

60

08:01:00.030 --> 08:01:05.100

Presenter: For any of you students who are unsure about continuing with this term.

61

08:01:05.610 --> 08:01:17.190

Presenter: You can do a couple of things. Number one, you can go on to Canvas and start getting used to it, start practicing some things with

it. Get some help in this meantime

62

08:01:17.520 --> 08:01:27.630

Presenter: And go ahead and start your class will have people who will be available to help you work through the technology of taking a class online.

63

08:01:28.140 --> 08:01:33.510

Presenter: And we will also have tutoring resources available for your classes, too.

64

08:01:34.290 --> 08:01:41.550

Presenter: So we want to provide you with the help you need in order for you to successfully complete your classes.

65

08:01:41.820 --> 08:01:51.930

Presenter: So we would encourage even if you're a little unsure about taking an online class and you're not sure that you will be successful in it, or even that you may want to do it.

66

08:01:52.440 --> 08:01:59.370

Presenter: We're going to encourage you to go ahead and start that class. Let us help you through the first couple of weeks.

67

08:01:59.760 --> 08:02:11.910

Presenter: If you decide that that's not the right thing for you to continue, then you'll be able to withdraw at that point there's a special withdrawal code called an E. W.

68

08:02:12.510 --> 08:02:21.240

Presenter: And that means that you have a special withdrawal during an unusual time like this and that withdrawal won't account.

69

08:02:21.720 --> 08:02:31.260

Presenter: Against you as an attempt on the class you'll be able to have a new attempt on the class without this class counting against you.

70

08:02:31.950 --> 08:02:37.530

Presenter: The E W also has no impact on your financial aid.

71

08:02:38.220 --> 08:02:57.300

Presenter: The only possible impact RIGHT NOW IS ON REFUNDS but we're working on that right now to try to resolve that. So I just want to let you know that there is an option to go ahead and do an E. W. And you would want to get in touch with admissions and records and they can help you out.

72

08:02:58.620 --> 08:03:12.480

Presenter: Also financial aid is fully available to you right now. Again, it's not available face to face this week or next week. But go ahead and email them and they'll be glad to help you.

73

08:03:12.960 --> 08:03:22.560

Presenter: Once we resume our services on the 30th. You can come in and meet with them or you can contact them via email, and they'll be glad to help you.

74

08:03:25.050 --> 08:03:39.330

Presenter: Until we have a chat function setup which we're working on right now for you. We want you to work with us to contact us via email so that we can get the help to you that you need, as soon as possible.

75

08:03:39.690 --> 08:03:51.390

Presenter: Answer Your Questions resolve any issues that you're having. So be sure to reach out to us via email or eight eight phone number that will be sending to you after this call.

76

08:03:52.740 --> 08:03:58.740

Presenter: I also want to let you know that our Student Health Center is open this week it's open until Thursday.

77

08:03:59.460 --> 08:04:09.990

Presenter: Available in the health center or the normal services that are available. So if you're feeling unsure if you're feeling nervous. If you're feeling stressed. If you're not feeling well.

78

08:04:10.440 --> 08:04:25.620

Presenter: Be sure to access our health center it's open its normal hours through Thursday. They're also giving free flu shots in the health center so be sure to stop by. If you haven't gotten your flu shot and get your flu shot this week.

79

08:04:26.250 --> 08:04:36.780

Presenter: After the health center is closed for spring break after Thursday. If you haven't received your flu shot by then you can go to the Westlake clinic across the street.

80

08:04:37.200 --> 08:04:55.380

Presenter: Be sure to have your student ID so that you can get your fleet free flu shot. We want to make sure you maintain your health and a flu shot is really important. I just want to mention the flu shot is not a shot that will prevent the Nobel coronavirus the covert

81

08:04:56.580 --> 08:05:14.460

Presenter: But it'll prevent any other flu that's out there right now so we strongly encourage for you to keep healthy for you to go get one of the free flu shots that we have available through our health center this week through Thursday and at the Wesley clinic across the street after that.

82

08:05:16.500 --> 08:05:25.290

Presenter: The last day that we could have the food pantry on campus. This week was today. So it was open today and students were able to get food.

83

08:05:25.770 --> 08:05:34.410

Presenter: I do want to let you know, though, that there are several food pantries in the area that are open for you to be able to go get food if you need it.

84

08:05:34.830 --> 08:05:55.110

Presenter: We send out information to you about that. And again, if you're not sure where to go get food, please either call us or email us and we'll get back to you. We're also on social media. So be sure to connect with us. If you need any help. We're here to help.

85

08:05:56.610 --> 08:06:14.220

Presenter: Our counseling department is going to be reaching out to you to see if there's anything you need to connect with you on how you're feeling to make sure that you have everything to be successful in the coming weeks. So expect a contact from our counseling department.

86

08:06:15.300 --> 08:06:19.860

Presenter: If you're a student that utilizes the office of special services.

87

08:06:20.220 --> 08:06:32.910

Presenter: Those counselors and staff will also be reaching out to each of you to make sure everything's okay with you and that you're set and ready to go. As we go forward in the next couple of weeks.

88

08:06:33.720 --> 08:06:50.010

Presenter: Finally, as G elections were going to be happening with some due dates coming up. We're actually resetting that calendar and we'll send you the updated timeline momentarily might be a day or two, but it'll be soon.

89

08:06:51.780 --> 08:06:55.620

Presenter: I'm going to go ahead and take any questions that you may have right now.

90

08:06:58.140 --> 08:07:00.030

Presenter: So one of the questions is about

91

08:07:01.320 --> 08:07:15.480

Presenter: The actual term and what still end the date of June. That's a great question, thank you. Yes, we plan at this point for the term to end right on time. On June eight,

92

08:07:16.140 --> 08:07:31.950

Presenter: So we're with the information that we have at this point with these two weeks off this week of non instruction and next week of spring break, we can complete the spring term on the scheduled time of June 8

93

08:07:33.810 --> 08:07:44.310

Presenter: Which classes are going online. We will be publishing the classes that will be going online before the end of I believe this week.

94

08:07:48.600 --> 08:07:49.860

Presenter: Trying to scroll through here.

95

08:07:53.760 --> 08:07:56.220

Presenter: We're taking questions through the chat function.

96

08:07:58.530 --> 08:08:01.380

Presenter: In zoom. So if you have any questions post them.

97

08:08:02.490 --> 08:08:09.210

Presenter: So my press my professors told me that that he liked to continue to do classes. This week and next week.

98

08:08:10.320 --> 08:08:11.130

Presenter: Is that okay

99

08:08:15.480 --> 08:08:35.310

Presenter: Well, most of the classes have gone on instruction. I'm going to what I'd like to do is take that question and we'll put an FAQ together and send that back out because I need to check with the academic affairs area to to confirm what we're doing. So we'll get back to you on that answer.

100

08:08:41.310 --> 08:09:01.980

Presenter: So there's no online classes tomorrow. Correct, correct. There are no online classes going now this week is a non instructional week next week is spring break classes will resume on Monday, March 30

101

08:09:07.920 --> 08:09:18.810

Presenter: Certain professors do not return emails and some have even express that's a new sense what can be done to make sure all professors return emails and are held of the standards that the CDC recommends

102

08:09:19.890 --> 08:09:36.750

Presenter: Thank you for that question, it's critical for us that we have communication with our students. If you have a professor. That's that you're finding challenges with the email that we're going to give you the hotline. You can let us know there

103

08:09:39.960 --> 08:09:56.610

Presenter: What's going to happen with classes that have traditional labs like theater art sciences those courses on the 30th. That's a very good question. The classes that we're going to be have labs and have the need to have onsite.

104

08:09:57.780 --> 08:10:16.380

Presenter: Classes here. Those are slape slated to resume on Monday, March 30 so you can plan on if that was what was going to happen for your class that you needed to be on campus for your labs or direct instruction on campus.

105

08:10:16.860 --> 08:10:36.150

Presenter: That will resume on Monday, March 30. Is there anything different for international students there is nothing different for international students and what will happen to the second eight week classes. The second eight week classes will be scheduled to begin on

106

08:10:38.220 --> 08:10:44.250

Presenter: Let me check my date on April 6 correct Dr Lancaster to know

107

08:10:45.810 --> 08:10:55.650

Presenter: The 14th correction. The second eight week classes were scheduled to start on Tuesday, April 14 and they will begin on Tuesday, April 14

108

08:10:56.940 --> 08:10:58.710

Presenter: As our graduation been impacted

109

08:11:00.570 --> 08:11:11.580

Presenter: Our graduation has not been impacted we expect to complete the term by Monday, June 8 and our graduation is scheduled for Tuesday, June night.

110

08:11:18.150 --> 08:11:31.950

Presenter: Still questions about what, what about Kinesiology biology, chemistry, have to be taken in person, the classes that need to be on campus are scheduled to resume on Monday, March 30

111

08:11:33.480 --> 08:11:36.660

Presenter: Are all classes now on canvas.

112

08:11:38.010 --> 08:11:54.840

Presenter: All classes are on campus. Now they have Canvas shells. I don't know that the classes are fully completed with all of the instructional materials yet but all of our classes have a canvas

website connected with it.

113

08:11:56.160 --> 08:12:07.440

Presenter: Are we still getting financial aid that was awarded to us. Yes, nothing has changed with financial aid. So if you were scheduled to get an award, you will get it at the scheduled time

114

08:12:08.820 --> 08:12:13.110

Presenter: If I have a teacher that wants to turn something in physically tomorrow is should I do that.

115

08:12:14.160 --> 08:12:20.400

Presenter: That's a good question. What I would ask you to do is to please send an email, you can send it to me.

116

08:12:21.780 --> 08:12:33.630

Presenter: You can just go on the President's website, send me that question because we don't have the hotline email situated yet so you can send it to my attention and I'll make sure it gets to where it needs to go to answer your question.

117

08:12:34.440 --> 08:12:40.200

Presenter: Well campus buildings be open. I'm a student living out of my band. And I use the Wi Fi and bathrooms daily

118

08:12:41.730 --> 08:12:54.600

Presenter: None of the facility is really open to students right now, we will have a computer lab that will be open. We're hoping by Wednesday. So that would be available to you to use

119

08:13:11.280 --> 08:13:15.240

Presenter: Our labs going to be cancelled or will they be part of the campus curriculum.

120

08:13:16.770 --> 08:13:31.050

Presenter: Labs will not be canceled. We plan to go forward with everything in the classes that people have it will be a combination of probably online and on ground or at the campus is is what it's turned

121

08:13:31.560 --> 08:13:41.910

Presenter: And some of the classes that can go fully online will be

fully online for the rest of the term. So if you had a class scheduled to meet on campus because it's a lab.

122

08:13:42.270 --> 08:13:58.950

Presenter: We plan to have that happen on Monday, March 30 I have a professor that says that all assignments in classes are pushed back two weeks. Are we required to come to school, after school officially ends.

123

08:14:00.480 --> 08:14:10.320

Presenter: That's a good question. But just to confirm for you the classes have been pushed back, but we were scheduled to have a spring break.

124

08:14:10.770 --> 08:14:22.290

Presenter: On a the week of April six, so that we will be having classes so classes will be completed by Monday, June 8 which is the last day of the term.

125

08:14:23.280 --> 08:14:36.270

Presenter: Should we expect to hear from our professor directly. And so through which method of communication. That's a good question. And I'm going to get back to you because I want to have my academic affairs Dean's weigh in on this.

126

08:14:37.620 --> 08:14:55.350

Presenter: What will happen with my LPS appointment, which is on Thursday, March 19 well that service be available in person. No services are available in person right now, but we will reach out to you and reschedule a time to talk with you.

127

08:14:56.550 --> 08:15:05.640

Presenter: Will students be allowed on campus after March 30 in general areas like the quad or outside the library with social distancing policy still in mind.

128

08:15:06.780 --> 08:15:19.320

Presenter: At this point in time, all services will resume. On March 30 so everything that we had going before this week will be in place on March 30

129

08:15:20.430 --> 08:15:23.460

Presenter: Will they be a time extension for a graduation petition.

130

08:15:24.630 --> 08:15:28.440

Presenter: Yes, there will be a time extension for the graduation petition.

131

08:15:29.970 --> 08:15:46.980

Presenter: What about non credit classes GED non credit classes, we're working through what we can do with non credit classes. Right now, there may not be much that we can do these next two weeks. So we would resume the on ground non credit classes on Monday, March 30

132

08:15:48.780 --> 08:15:56.520

Presenter: Our professor wants us to submit our papers this week, or to take an exam. This week, should he extend that due date.

133

08:15:57.390 --> 08:16:14.670

Presenter: What I would like you to do is send me an email, please. Again, if you go on the President's web page on our website. My email address is there please email me and I'll forward it to the appropriate person. Is there anything different for dual enrollment students

134

08:16:16.200 --> 08:16:36.360

Presenter: That's a very good question, what's happened with dual enrollment, since we were in LA USD schools for dual enrollment and those classes were cancelled. We're working with the each of the classes to see if we can resume those classes either online or on ground on March 30

135

08:16:39.000 --> 08:16:54.210

Presenter: What about refunding our money we're working through the district right now regarding refunds, so stay tuned, we're hoping that that won't be an issue, but we're working with our district right now to resolve that question.

136

08:16:55.140 --> 08:17:01.620

Presenter: As an international student, we cannot take all classes online. So is it now okay to take my classes go online.

137

08:17:02.280 --> 08:17:14.280

Presenter: This is a special circumstance. Obviously this is a very,

very different situation. This is something that is, as I said at the very beginning unchartered territory, so

138

08:17:14.760 --> 08:17:22.380

Presenter: If we need to offer that class through the rest of the term online, it would be a waiver for you so that you could do your classes online.

139

08:17:33.930 --> 08:17:36.210

Presenter: Is the Writers Lab going to be online.

140

08:17:38.670 --> 08:17:47.160

Presenter: That's a very good question. And I'm sorry I don't know the answer to that, but I will find out for you and we'll put it in the communication to you that will send out

141

08:17:51.450 --> 08:17:59.100

Presenter: In the event of a city wide quarantine similar to San Francisco where there be a plan to transition to online for for all courses.

142

08:18:00.600 --> 08:18:10.050

Presenter: We are working on, formulating a plan in the event that that happens. We have had conversations about that because we do not know where this is going.

143

08:18:10.380 --> 08:18:15.870

Presenter: Right now we're planning to resume classes as planned on Monday, March 30

144

08:18:16.230 --> 08:18:32.400

Presenter: If things develop in Los Angeles County and we're asked to close the college, then that would mean that we would need to do something more specific with online. We will absolutely let you know if that is going to happen.

145

08:18:35.550 --> 08:18:47.220

Presenter: Will we continue to receive email updates through the coming weeks, you will definitely receive email updates in the coming weeks. I expect that we will have communication to you.

146

08:18:48.810 --> 08:18:56.520

Presenter: Perhaps, every day I will not inundate you with more than one communication will try to hold it to one communication, but

147

08:18:57.120 --> 08:19:12.000

Presenter: Some of it may be zoom meetings like this that will make available online for you if you're not able to participate and or will send email communication out to you, I expect. I'll be doing some of that every day.

148

08:19:13.050 --> 08:19:15.990

Presenter: How will testing be handled in person or online only

149

08:19:17.580 --> 08:19:33.300

Presenter: Well, right now, when we resume. On March 30 if your class can be offered online and the testing can be done online, it will be done online if it needs to be on Graham, for example, a lab or something like that, then it will happen.

150

08:19:33.810 --> 08:19:46.320

Presenter: here on campus. What about the nursing program or other programs where the clinical sites are being closed down. That's a very good question, though, the nursing program is

151

08:19:47.070 --> 08:19:57.900

Presenter: Trying to work with the board of Registered Nursing to see what we can do with regard to students. There's a certain amount of clinical that needs to be completed for nursing students

152

08:19:58.140 --> 08:20:08.790

Presenter: And I don't have an exact answer for you right now, but hopefully we'll have some information for the nursing students that we can message out to you separately as soon as we have it available.

153

08:20:10.740 --> 08:20:15.090

Presenter: Does the ew appear on the official transcript. I'd like a clean drop

154

08:20:16.530 --> 08:20:29.700

Presenter: I believe the ew does show on the transcript, but the description is clearly that it happened in an emergency and it does not have any negative impact on you as a transfer student

155

08:20:36.990 --> 08:20:41.310

Presenter: How will classes that resume. On March 30 maintain social distancing

156

08:20:43.500 --> 08:20:55.290

Presenter: If we may, if we are required to maintain social distancing to a certain level, then we'll have to, once we receive that information will have to take a look at how

157

08:20:55.590 --> 08:21:08.160

Presenter: Our classes are situated and see what we might be able to do to that, if that's a requirement then we'll have to follow that. And we'll have to let you know about that. If that happens, and that becomes a requirement.

158

08:21:09.150 --> 08:21:16.230

Presenter: Is there a possibility that the whole semester but be canceled like a couple of universities have done.

159

08:21:17.850 --> 08:21:23.490

Presenter: Well, I guess, at this point, I would have to say anything is possible because we don't know this is

160

08:21:23.880 --> 08:21:33.780

Presenter: uncharted territory and and this is something new for us. I've been in education for a number of years and I've not experienced anything like this before.

161

08:21:34.170 --> 08:21:47.250

Presenter: So this is unprecedented. And I don't know exactly what would happen if Los Angeles had an outbreak, the likes of which was experienced in other parts of the world.

162

08:21:47.730 --> 08:22:03.030

Presenter: I'm not sure what would happen, it's difficult to speculate. I will say this will make sure our number one priority is that we maintain an environment that's healthy and safe for all of our students and our staff.

163

08:22:04.050 --> 08:22:05.850

Presenter: Will class times change.

164

08:22:07.290 --> 08:22:10.590

Presenter: I do not anticipate class TIMES CHANGING when we resume.

165

08:22:11.760 --> 08:22:14.190

Presenter: Are all online classes canceled this week.

166

08:22:16.980 --> 08:22:30.120

Presenter: On there. This is a non instructional week. And so no instruction was supposed to take place this week if you have some instruction taking place again please email me so that I can notify academic affairs.

167

08:22:39.210 --> 08:22:40.470

Presenter: Looking through here.

168

08:22:42.150 --> 08:22:45.060

Presenter: We just want to make sure we don't miss any of your questions.

169

08:22:46.290 --> 08:22:51.330

Presenter: Can we still do grad petitions in person. If so, when can we do that.

170

08:22:52.620 --> 08:22:58.350

Presenter: We're not having any services in person, this week or next week, you can

171

08:23:00.510 --> 08:23:10.680

Presenter: I need to check to see if you can do it online. I'm not positive. But I will get that information out to all of you in the message that we send out

172

08:23:20.280 --> 08:23:25.020

Presenter: Hopefully we got all of your questions. Something happen on our end

173

08:23:27.150 --> 08:23:29.130

Presenter: We're trying to see if we can get it back.

174

08:23:31.740 --> 08:23:40.440

Presenter: All right, let me find the questions. Okay. We're, we're resuming as we start to do that. I'm hoping that all of you out there are doing all right.

175

08:23:40.830 --> 08:23:48.210

Presenter: I want to make sure that if you're having some challenges experiencing any anxiety any stress. If you're not feeling well.

176

08:23:48.630 --> 08:24:04.530

Presenter: Please be sure to reach out to us if you're not feeling well, or you're really anxious or you're feeling very stressed, please visit the Wesley please fit this health center here on campus that the Westlake clinic is

177

08:24:05.700 --> 08:24:12.090

Presenter: Providing for us. Now the services so that we can help you. This is a very challenging time

178

08:24:12.390 --> 08:24:24.450

Presenter: And we all are experienced different levels. So, let us be a resource for you and help you. I'm going to see if we still have some more questions. There's a few more. What about financial aid emergency loans.

179

08:24:25.230 --> 08:24:35.760

Presenter: Still available. Yes, you can go ahead and contact financial aid through their email and make a request and will help to facilitate that.

180

08:24:36.570 --> 08:24:46.470

Presenter: If we have a first year experience and we were on our second year and we drop a class with an E. W. Well, first year experience cover us the following semester.

181

08:24:48.720 --> 08:25:07.080

Presenter: Yes, it definitely will. The W will not have any negative impact on you at all. Ew means it's an emergency withdrawal for an unusual circumstance, such as what's happening right now. Okay, international students. Students return to our home countries now and take classes online from home.

182

08:25:08.850 --> 08:25:13.800

Presenter: We will not be able to continue to certify your

183

08:25:14.850 --> 08:25:17.190

Presenter: student visa if you return home.

184

08:25:32.820 --> 08:25:37.170

Presenter: Just checking to see if we have any more questions. We don't want to miss your questions.

185

08:25:43.740 --> 08:25:58.470

Presenter: What about math tutoring ours will definitely have math tutoring will message out to you when math tutoring will be available will have extended math tutoring, particularly for the math that will be online and

186

08:25:59.100 --> 08:26:13.050

Presenter: Will message that out to you, what will be available in all tutoring, will there be child development center services. We plan to resume Child Development Services on Monday, March 30 so yes those services will be available.

187

08:26:23.520 --> 08:26:31.740

Presenter: I want to mention to you also that the Career Center is online. If you have any questions about that or you're experiencing any challenges we've got that online as well.

188

08:26:32.820 --> 08:26:37.800

Presenter: So, so is it corrected Professor shouldn't give us assignments for this week and next week.

189

08:26:38.760 --> 08:26:49.500

Presenter: I, I don't want to speak for Academic Affairs right now. So please forgive me. But again, if you will, email me, I'll make sure that gets answered for you.

190

08:26:50.070 --> 08:27:05.280

Presenter: It's currently my third attempt at taking a mandatory class for general education would do in an. Ew. Well that count as a third attempt, or they still be able to take the class again the ew will not

count as a third attempt, you will be able to take the class again.

191

08:27:12.000 --> 08:27:17.100

Presenter: Or if I already withdrew from a class and took a W, can I now change it to an E. W.

192

08:27:19.170 --> 08:27:22.470

Presenter: please email me, I will have to check into that. I'm not sure.

193

08:27:24.210 --> 08:27:25.830

Presenter: We'll have to get back to you on that.

194

08:27:28.830 --> 08:27:31.560

Presenter: Are we returning to campus. On March 30 physically

195

08:27:32.730 --> 08:27:37.230

Presenter: On March 30 physically everything will be open on the campus. Again, yes.

196

08:27:46.170 --> 08:27:48.900

Presenter: Our facilities and classroom been sanitized

197

08:27:49.710 --> 08:27:57.750

Presenter: Currently our facility staff are sanitizing our facility their plan. One of the reasons that we want to

198

08:27:58.020 --> 08:28:10.470

Presenter: Make sure that we don't have a lot of activity on campus is so that they can get in and sanitize every room on every floor in every building across campus seal it off and make sure it's ready for our return

199

08:28:12.120 --> 08:28:17.730

Presenter: Since social distancing is required. How would it work with film projects, since it requires actors and crew members.

200

08:28:18.570 --> 08:28:24.480

Presenter: What we'll have to do is take a look at the requirement for social distancing and figure out how we can do that.

201

08:28:24.870 --> 08:28:34.260

Presenter: There's some things that we hope to be able to incorporate in classes. But obviously this has given us a heightened sense of awareness of this and taking

202

08:28:34.650 --> 08:28:52.470

Presenter: measures and steps to do this. One of the reasons why this was called out as a non instructional week and the spring break was moved up a week is for us to consider all of those aspects of social distancing and what we need to do when we resume. On March 30

203

08:28:54.090 --> 08:29:08.160

Presenter: Can you tell us again how to get to your email and send you something about a class still making us turn in homework this week. Yes, if you go on the LA City college.edu website you can go to where the

204

08:29:08.910 --> 08:29:14.700

Presenter: President's pages. There's a president's message and there's a link with my email there.

205

08:29:19.020 --> 08:29:21.210

Presenter: Will there still be Spanish tutoring online.

206

08:29:23.130 --> 08:29:28.650

Presenter: If there was Spanish tutoring online before they will continue to be Spanish tutoring online. Yes.

207

08:29:30.090 --> 08:29:38.970

Presenter: As a student with the SPS accommodations. I sometimes need extra time on tests. I know. Oftentimes testing is set for specific. A lot of times

208

08:29:39.450 --> 08:29:52.650

Presenter: Will that affect anyone with accommodations whatever accommodations. A students need that will all be worked out with the student our OSS department will reach out to all of the students and work with you.

209

08:29:53.220 --> 08:30:06.510

Presenter: Excuse me individually to make sure everything's a smooth transition for you and that you're accommodated. The way you need to be. Is there some place where we can read the policy regarding dropping classes during the crisis.

210

08:30:09.420 --> 08:30:18.600

Presenter: I do not know what is available with that at this point. But we'll make that available as soon as we can. We'll put that information out as soon as we can obtain it.

211

08:30:32.400 --> 08:30:55.980

Presenter: Through these okay that may be we may be coming to the end of the questions just doing a quick check on that. Will the library, be open on or after March 30 yes the library, which is scheduled to reopen on Monday, March 30

212

08:31:00.000 --> 08:31:01.620

Presenter: Duplicates going through these

213

08:31:05.520 --> 08:31:11.670

Presenter: All right, at this point, we're gonna we're gonna go ahead and call through the questions and see if there's any

214

08:31:12.030 --> 08:31:24.360

Presenter: Unique questions before we sign off here, but I just wanted to let you all know that we are planning to resume all of our on campus activities starting on March 30

215

08:31:24.840 --> 08:31:38.940

Presenter: We will keep in contact with you and notify you so be sure you're checking your email regularly because if there are any new developments will let you know through social media and through emailing to you.

216

08:31:39.720 --> 08:31:46.410

Presenter: Expect for us to get in touch with you so that we can see how things are going and if there's anything that you need help with

217

08:31:47.100 --> 08:32:01.560

Presenter: I really appreciate the fact that we're able to work with you through this a very challenging time if there's anything that we can do to help you, please let us know. I hope you all are safe and

well take care of yourselves.
