

PRODUCTION ALERT – February 13, 2009

New Appointment System in Place for Student Filmmakers

Continuing our efforts to improve our services by streamlining the film permit process, FilmL.A. has introduced a time-saving appointment system to help student filmmakers with their film production needs.

To apply for a film permit, students must first make an appointment for an in-person consultation at our office, during which time they can apply for their film permit and get answers to any questions regarding their project.

Appointments need to be scheduled four working days prior to the first date of filming. In order to ensure the appointment can begin and end on time, students should make sure to bring a completed student film permit application, which can be obtained through their film school office, along with a letter from the school certifying student status. Unprepared applicants will be asked to reschedule their appointments and return with completed documents, possibly causing their productions to be delayed.

We encourage students to familiarize themselves with the entire film permit process by reviewing our "For Students Only Guide" on our website at: http://www.filmla.com/getting_started.php
