

COMPUTER NETWORKING

Ready to turn your passion for computer networking into a well-paid career? The Computer Networking course sequence provides you with state-of-the-art, hands-on training in designing, configuring, and maintaining basic networks using Cisco

routers and switches. The program also prepares you for the Cisco Certified Networking Associate (CCNA) exam, an important early step toward network certification.

COURSES REQUIRED

COURSE NUMBER	COURSE TITLE	UNITS
CO SCI 181	Computer Networking I – CISCO	3
