HP recommends Windows® XP Professional

Ideal Productivity And Enhanced Security – AMD Turion 64 X2 Mobile Technology, 15-inch displays, and 7-in-1 digital media reader

The HP Compaq nx6325 Notebook PC with the latest AMD processors provides the ideal balance of mobility and enhanced security to maximize productivity.

Productivity on the move

The tools you need to accomplish more in less time.

- AMD Turion™ 64 X2 Mobile Technology^{9,10} and AMD Mobile Sempron™ processors.
 - AMD Turion™ 64 X2 Mobile Technology -- Smart 64-bit performance allows multiple processor-intensive applications to run simultaneously so you have the ability to multi-task allowing you to do more in less time.
 - AMD Mobile Sempron™ -- The smart choice for everyday performance and value, compatible with all the applications you need with the reliability of AMD processors.
- 7-in-1 media reader supports the most popular media card formats allowing you to quickly share data.¹¹
- The optional double-layer DVD+/-RW with LightScribe technology gives you twice the storage of single layer disc and lets you burn a custom label directly to your disc.^{1,2,5}

Power and connectivity on the go

The connectivity and power that keeps you going.

- A variety of wired and wireless³ communication solutions help you stay connected.
- With HP's selection of extended-life batteries,⁵ you'll get power that goes with you.

HP Professional Innovations

A suite of value-added security, ease-of-use, and reliability features that helps differentiate HP Business Notebooks from all the rest.

- Security – Solutions to help protect your notebook, data, and network connections.
 - HP ProtectTools is a portfolio of security features designed to address critical aspects of IT security and includes the TPM Embedded Security Chip, optional Smart Card Reader, and HP Biometric Fingerprint Sensor.⁵
- Ease-of-use – Intuitive and power-saving features that boost productivity.
 - Compatible with all of the common notebook accessories⁵ shared across HP's Business Notebook line.
 - HP Fast Charge Technology charges the primary battery 90% in 90 minutes then charges secondary battery to 90% to keep you running.¹³
- Reliability -- Built to perform and proven to last.
 - In-mold Lamination offers a scratch-resistant surface that helps protect the keyboard deck.

Warranty	Three-year or one-year limited parts and labor warranty, (upgrades available ⁵); one-year limited warranty on primary battery			

¹ LightScribe creates a grayscale image similar to black and white photography. LightScribe media required and sold separately.

² Double Layer discs can store more data than single layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players.

³ Wireless access point required and is not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract.

⁴ The term "10/100/1000" or "Gigabit" Ethernet indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/sec. For high speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.

⁵ Sold separately or purchased as an optional feature

⁶ Dual Channel is only supported when the system is configured with DDR2 symmetric memory (i.e. 2x256).

⁷ Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media.

⁸ For hard drives, GB = 1 billion bytes. Actual available capacity is less. Up to 8GB of memory is reserved for system recovery software.

⁹ Dual Core is a new technology designed to improve performance of certain software products.

Check with software provider to determine suitability. Not all customers or software applications will necessarily benefit from use of this technology.

¹⁰ This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of the AMD Turion 64 processor. Given the wide range of software applications available, performance of a system including a 64-bit operating system will vary

¹¹ Memory Stick Duo Adapters are required and sold separately. Inserting a Memory Stick Duo Cards directly into your notebook can damage the memory card and/or notebook

¹² Above 3-GB, all memory may not be available due to system resource requirements.

¹³ Fast Charge Technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge Technology does not apply to 9 cell primary and 12 cell Ultra Capacity batteries.

¹⁴ The new HP Smart A/C Adapters will not be backwards compatible to prior generation notebooks. However, a dongle will be available to support existing notebooks in the field. Older HP adapters will not be forward compatible to the 2006 HP Business Notebooks

¹⁵ 24X Max DVD/CD-RW Combo Drive data transfer rates may vary as follows: for recording to CD-R media, for reading CD media, the max transfer rate may be up to 3600 Kbps; for reading DVD media, the max transfer rate may be up to 10,800 Kbps.
