Professor Sharon Hendricks

Department of Speech

"How to Improve your Voice and Articulation"

Whether you are staff or faculty, communicating effectively is a big part of being successful in relationships with students, friends and colleagues. We'll discuss how to take care of your voice, how to improve your articulation and if you're a non-native English speaker, you'll improve on the pronunciation of American English speech sounds. Come join us and learn strategies to help keep your voice healthy and effective.
