

April 25, 2012

Dear LACC Students and Staff:

As most of you know the college has faced tremendous budgetary challenges and is currently facing a projected \$4 million deficit. Over the past three weeks, the LACC Budget Committee and the Shared Governance Council has engaged in discussions on ways to address the budget deficit. Given the fact that the college is on track to reach its FTES objectives for the 2011-2012 fiscal year (which ends June 30, 2012) and the college is preparing to address the 2012-2013 fiscal year, with an on-going deficit, the college does not have the funds to offer a summer 2012 session. The college is required to hold courses for year-round accredited programs, like that of the Allied Health fields (Dental Technology, and Radiologic Technology) and Nursing.

We deeply apologize to the students who will be impacted by this decision but, it was out of our control. While, this is not information we were hoping for, the college has a fiduciary responsibility to balance its budget and stay true to the directive of State Chancellor Jack Scott by ensuring that we can offer as many sections as possible, during the main semesters (fall and spring). We encourage all students to seek out access to the other eight campuses in the Los Angeles Community College District who may be offering a summer session. We look forward to seeing students, faculty and staff in Fall, 2012. If you have questions regarding this information please contact your Dean or Vice President.

Jamillah Moore, Ed.D.  
President
