ACCU RAC Y STATEMENT

The LACC Catalog contains the academic and administrative policies and regulations that govern enrollment of students at Los Angeles City College. The Catalog is not an offer to enter into a contract. LACC reserves the right to make changes to degree program requirements, academic and administrative policies and regulations, financial charges, and course offerings published in the Catalog at any time without prior notice. The College strives to assure the accuracy of the information in the Catalog. However, the College and LACCD reserve the right to make corrections as necessary to the Catalog.

ASSESSMENT OF STUDENT LEARNING OUTCOMES

A student learning outcome (SLO) is a statement that describes specifically what students should be able to do after completing any set of college experiences, a course, an instructional program, or an interaction with a student support service. Students are advised to become familiar with the learning outcomes for each of their courses, their chosen program of study, and for the student services they utilize. Course SLOs can be found on the course syllabus that students receive in each class section. Program SLOs are listed in this catalog.

Students participate in outcomes assessments by completing assignments, portfolios, projects, and exams that are already part of the course requirements. LACC then engages in a systematic assessment process to evaluate how well students are achieving our defined outcomes. Results are used to modify programs and courses to improve student learning. Learn more about outcomes assessment at the SLO Guide for Students website, http://tinyurl.com/laccsloforstudents

WELCOME TO LOS ANGELES CITY COLLEGE!

Dear LACC Students

Los Angeles City College (LACC) has had some exciting times and we are pleased that you have decided to take the next step on your educational pathway.

LACC has been serving the Los Angeles community since 1929 and as our 80th anniversary approaches we are happy to still be a part of providing quality education to our community. We enroll more than 20,000 students every semester and offer a wide variety of classes and programs to assist with a career and/or transferring to a four year University.

Los Angeles City College continues to work hard to ensure that students have state-of-the-arts buildings, latest technology and other educational resources to help with completing their education. As you walk around the campus, you will see several new complexes and renovations that house many support resources for our students and community.

Holmes Halls which holds classes such as Administration of Justice, Psychology and Community Services classes has been renovated and given a new look, with newly designed classrooms and computers to help students with research projects.

The new Student Services building is our one-stop shop for our students providing services such as Financial Aid, OSS, Counseling, Admissions & Records, Business Office, and much, much, more. The Welcome Center is also located in the new Student Services building; the staff is knowledgeable and professional and can assist students with questions and all their enrollment needs. Our counselors will help you meet the necessary requirements for degree and certificate attainment, or to transfer.

Other programs such as the FYE “First Year Experience” program allows eligible new students to enroll full time at the college, complete most or all of their math and English classes in one year, and begin enrolling in the general education and career classes that fulfill their major requirements.

Our EOPS/CARE program is a state-funded retention and support program designed to facilitate the success of the financially and educationally disadvantaged student. Services provided by EOPS include registration assistance, EOPS specific mandatory orientations, academic counseling, book services, tutoring and transfer information. The CARE program is an extension of EOPS for single parents/heads of household receiving CalWORKS/TANF, who have at least one child under the age of 14. The services provided are: transportation passes/parking permits, books, supplies and meal tickets.

Other student support programs such as STEM (Science, Technology, Engineering, and Mathematics)/HSI (Hispanic Serving Institutions) grant consist of several educational components to assist students in Math Preparation, Peer-Led Team Learning, Science, providing Faculty Mentoring, and other resourceful projects.

Los Angeles City College is proud to serve our student veterans. We offer a full support staff who works hard to help veterans transition to the academic paths and careers that their experience and service warrant.

At LACC you will receive professional and quality services from our faculty, staff and administrators while completing your education. We work harder each day to improve your experiences here at LACC and we are fully committed to you and your success.

Again, welcome to Los Angeles City College! Go City!

Yours in Student Success,

Reneé D. Martinez

GENERAL INFORMATION

About LACC

Set on an attractive 49 acres, Los Angeles City College was the original location for UCLA before it moved to Westwood, CA. The college facilities include more than a dozen multistory classroom buildings including a library, computer labs, fitness centers, theater, and TV/film studios.

Through a $147 million bond award, the college is further enhancing itself with a new and advanced technology learning facility, increased parking, and expanded athletic/fitness and child development centers. (Note: LACC does not provide campus housing. However, inexpensive rentals are available in the surrounding community.)

Our student body is one of the most diverse in the country. Students range in age from late teens to seniors and come from every ethnic group, culture and country in the world. We are proud to have ranked 35th among all community colleges across the country in awarding 2-year certificates to students; 33rd in awarding Associate Degrees to minority students; and 23rd in awarding Associate Degrees to Hispanic students. (Community College Week, June 24, 2002, Online Edition.)

We also offer distance learning (taking classes via computer and/or video) through Instructional Television and online courses.

History

Los Angeles Junior College was established on September 9, 1929, by the Los Angeles Board of Education. Dr. William H. Snyder served as the institution’s first director. During its first year, we offered only first-semester courses. The “semi-professional courses” were for students who wanted to limit their college education to two years, and the “certificate courses” were for those looking to continue toward university work. There were more than 1,300 students taught by some 54 faculty. The first Associate in Arts degrees were conferred June 19, 1931.

Governance of LACC has changed through the years. Until 1931, it was a division of the Los Angeles Secondary School District. In 1931, the electorate voted to establish a separate Los Angeles Junior College District. In 1938, the Board of Education changed the name to Los Angeles City College. In July 1969, the California State Legislature enacted legislation allowing the separation of the nine-campus Los Angeles Community College District from the Los Angeles Unified School District. District Philosophy

The Los Angeles Community College District (LACCD) affirms the principle that individuals should have opportunities to develop to their full potential. To that end, our main responsibility is to students and to providing an education that benefits students and enables them to contribute to society. The LACCD colleges, therefore, should be accessible to all individuals who have the capacity and motivation to profit from higher education. Curricula and services of our colleges should provide means for fulfilling the promise of open access.

We recognize the necessity to adapt to the changing educational needs of the LACCD communities and to the growing diversity among students. The quality of the educational experience is judged by its value to students and communities, not merely by quantitative appeal. We further recognize that academic freedom is essential to excellence in education. Los Angeles City College empowers students from the diverse communities it serves to achieve their educational and career goals by providing learner-centered pathways to success through transfer, career and technical education, and foundational skills programs.

Fee Refund Policies

Full-Term Course Fees

A student will receive a full refund of the enrollment fee if they drop by the refund deadline. Thereafter, no refund is authorized, except when college action to cancel or reschedule a class necessitates the drop. After the refund deadline, a student may drop a course and apply the fee previously paid towards the cost of the fee of a course to be added during the same semester. Please note that after the refund deadline there will be absolutely no refunds even when an added course has fewer units than a course that was dropped. For example, a student who enrolls in 3 units, then after the refund deadline drops those 3 units and adds another 3 units, will not be charged an additional fee. A student who enrolls in 3 units, then after the refund deadline drops the 3 units and adds 2 units, will not be charged for the 2 units and will not receive a refund for the difference between 3 and 2 units. SEE SCHEDULE OF CLASSES FOR DATES ON REFUNDS.

Short-Term Course Fee

A student will receive a full refund up to the end of a period of time equal to approximately 10% of the total class time. There will be no refunds after that time, unless a student must drop a class because it was canceled or rescheduled by the college administration.

Non-Resident Tuition Fee

Refunds of non-resident tuition for full-term or short-term courses are governed by the same policies as indicated above. Once the class is dropped prior to the deadline date, the non-resident student must request a refund in writing (a form is provided in the Business Office). All refunds for non-resident tuition will be by check and mailed to the student.

Audited Course Fee

Audited classes are not taken for college credit and cannot be dropped. No refund is given for audit courses no longer attended.

Parking Fee

Parking permits may be returned and refunded within the first four weeks of school at the Business Office.

Student Prerequisite or Co-Requisite Challenge Policy

STUDENTS WITHOUT PREREQUISITES MAY BE DROPPED FROM A COURSE BY THE INSTRUCTOR OR THE DEAN OF ADMISSIONS.

It is the student’s responsibility to know and to meet any and all course prerequisites and co-requisites. These requirements are indicated in the individual course description sections of this catalog or the accompanying catalog update. Students who are currently enrolled in the prerequisite course will be allowed to conditionally enroll in the next sequence-level course. Failure to successfully pass the prerequisite course with a “C” or better may result in exclusion from the sequential course. Students challenging prerequisites or co-requisites will be required to file proof of meeting these course requirements along with an appropriate "Challenge Form".

In keeping with requirements and provisions of Section 55003 of Title 5 and Section 1.B. 1-3 of the Los Angeles Community College District Model Policy, Los Angeles City College has an established procedure by which any student who provides satisfactory evidence, may seek entry into a class according to the college’s challenge process.

ADvisory: An advisory is a course that a student is advised, but not required to take in conjunction with or prior to a course or program.

SATISFACTORY GRADE: Academic record with the symbol A, B, C, or “P”.

Procedures For Challenging Pre/Co-Requisites and Limitations On Enrollment

If a student believes a course taken at another college or university meets the prerequisite for a course in which he/she wishes to enroll, the student may submit a prerequisite clearance request.

If a student has not met a prerequisite at either City or another college/university and qualifies for an exemption from the pre-requisite requirement, a prerequisite challenge form should be submitted to the department chair.

Registration Appointments

Students continuing from the prior semester will automatically receive registration notification through the district email. New and returning students are issued a Registration Appointment Card when the application for admission is approved.

Dropping Classes and Withdrawing From College

The student is asked to consult with a counselor when considering withdrawing from the College. Clearance of the record in courses where equipment has been issued is required when the student separates from such classes. Individual classes may be dropped by presenting a drop card at the Admissions Office information window. Students who cease attending class or classes officially or unofficially are subject to the following regulations:

1. Dropping officially from a class or withdrawing from the College by the end of 20% of the term will prevent classes from appearing on the student’s permanent record.

2. Dropping a class after 20% of the term is completed will result in a “W” being recorded by the Admissions Office. IT IS THE STUDENT’S RESPONSIBILITY TO DROP BEFORE THE DEADLINE DATES. Excessive “W” grades may lead to progress dismissal.

3. Students are not permitted to drop a class after 20% of the term. Grades shall be recorded by the instructor based on the grade-point average of the student during the period of attendance. Students may receive a failing grade in any course when they stop attending class and do not officially drop the class.

4. Students seeking withdrawal from a class after the “W” deadline for extenuating circumstances must submit a petition to Admissions clearly stating the circumstances and providing documentation of such circumstances. Petitions are to be available in the Admissions Office after the “W” deadline. Petitions will not be accepted without documentation.

The Dean of Admissions will review petitions. The following criteria will be applied:

Students wishing to appeal the final decision should be referred to the Student Grievance Procedures, Administrative Regulation E-55.

IT IS THE STUDENT’S RESPONSIBILITY TO DROP CLASSES HE/SHE NO LONGER WISHES TO ATTEND. FAILURE TO DROP A CLASS, MAY RESULT IN FEE CHARGES, AND/OR HAVING GRADES OF “W” OR “F” LISTED ON OFFICIAL TRANSCRIPTS.

“W” records count as attempted enrollment. Students are currently limited to three attempt in the same course.
STUDENT SUCCESS AND SUPPORT PROGRAM

Senate Bill 1456 revised and renamed the Matriculation Act of 1986 as the Seymour-Campbell Student Success Act of 2012. Signed by Governor Brown on September 27, 2012, the program began on January 1, 2013 and will be implemented through stages over a five year period.

The Student Success and Support Program (formerly Matriculation) supports the transition of new students into the college by providing services that promote academic achievement and successful completion of degrees, transfer preparation, career technical education certificates, or career advancement.

Effective Fall 2014, based on student responses to the Los Angeles City College application for admission, students will be identified as matriculating or non-matriculating. Students identified as matriculating are referred to core matriculation services: assessment placement, orientation, and counseling. Students must complete the assessment placement, orientation, and counseling (abbreviated student educational plan) prior to their priority registration date and time. The abbreviated student educational plan is provided during the in-person orientations. After registration and sometime during the semester, a comprehensive student educational plan must be completed within a reasonable time period by making an appointment to meet with a counselor. Non-matriculating students are exempt from participating in the core matriculation services, but are advised to access these services if they plan to pursue a degree or certificate.

All new non-exempt students are required to complete the Student Success and Support Program mandated core services:

**Admissions**

Students can complete an admissions application online at [www.lacitycollege.edu](http://www.lacitycollege.edu). Students can also speak to a staff member at the Welcome Center (located on the 1st floor of the Student Services building) for assistance in completing the admissions application and to receive general campus information.

**Assessment**

The Assessment Center provides English, English as a Second Language (ESL) and mathematics assessments for placement in an appropriate course based on the students’ skill levels. Assessment is required for all new non-exempt students who have not received a waiver. Assessment is also available for continuing students who are eligible to re-assess and returning students who need to retake the placement test. Students can “drop in” and take the assessment test the same day or make an appointment to take the test when they feel they are prepared to do their best.

**Orientation**

All new, non-exempt students should complete the LACC college orientation prior to taking the assessment test. Students can complete the orientation online or schedule an appointment to do the orientation in person with a counselor. The Online Orientation is available via the LACC webpage. The Online Orientation introduces students to the campus policies, procedures, resources, support services and college programs which are available to help you make better, more informed educational and career choices. Failure to complete orientation will impact your priority enrollment.

**Counseling/Student Educational Planning**

Provides academic advisement and assistance in course selection, development of a Student Educational Plan, career planning, referral to appropriate student services, and Counseling Classes which are taught by counseling faculty.

**First Semester Student Educational Planning (SEP)**

Once students have completed the online orientation and have assessment results, they are required to make a Counseling appointment for an abbreviated student educational plan (SEP).

In-person orientations are counselor-led advisement sessions where students review: Assessment results, educational goals, the registration process, important dates and deadlines and develop an abbreviated student education plan (SEP).

**Comprehensive Student Educational Plan (SEP)**

Before completing 15 units, or their third semester, students must declare a course of study and complete a Comprehensive Student Educational Plan (SEP). Students must meet with an academic counselor to develop a Comprehensive SEP. Counselors are also available by appointment for: academic counseling, career assessment and exploration and transfer information. Counselors are also available for Online Chat and Online Advising.

Failure to complete the Abbreviated or Comprehensive Student Educational Plan will impact your priority enrollment.

*EXEMPTION CRITERIA - Students may be exempt from SSSP core services if they:*

1. Have earned an Associate Degree or higher
2. Enrolled at the college for a reason other than career development, advancement, transfer, attainment of degree or certificate of achievement, completion of basic skills English or English as a Second Language course sequences
3. Are taking classes to maintain a license.
4. Are concurrently enrolled K-12 students.
5. Students who completed assessment or taken English and math classes at another California community college in the past two years may submit an Assessment Exemption Request available in the Admissions & Records Office or see an academic counselor for pre-requisite clearance.

### Appeal
SSSP is a campus-wide effort of faculty, administrators, staff and students. However, if for any reason, you feel that matriculation interferes with your rights as a student, forms for appeal are available in the Admission Office (located on the 1st floor of the Student Services building).

### Follow-Up
Provides regular evaluation of student’s progress through the Early Alert program. Will monitoring probation students (year-round) and provide services including group counseling sessions, group workshops and one-on-one counseling.

1. Express at least a broad educational intent upon admission.

3. Meet with a College Counselor to establish a Student Educational Plan within one semester after declaring an educational goal and to review the Educational Plan at least once each semester.
4. Attend classes regularly and complete assigned course work.
5. Maintain satisfactory progress toward an educational goal according to standards established by the Los Angeles Community College District and the State of California.
6. Be familiar with the information in the college catalog and schedule of classes, and know and observe all policies and procedures related to the program of study being pursued.
FINANCIAL AID

Financial Aid Office
Student Services Building
(323) 953-4000 ext. 2010
http://www.lacitycollege.edu/stusvcs/finaid/

For more information, see the Financial Aid section at the beginning of this catalog.

What is Financial Aid?
Financial Aid is monies made available by federal and state governments and by private sources in the form of grants, scholarships, loans, and employment. This assistance makes it possible for students to continue their education beyond high school, even if they and/or their family cannot meet the full cost of the postsecondary school they choose to attend.

Eligibility for Financial Aid
To be considered for financial aid, students must generally meet the following minimum requirements:

• Be a U.S. citizen or an eligible non-citizen. An eligible non-citizen is a U.S. permanent resident who has documentation from the Department of Homeland Security verifying that his/her stay in the U.S. is for other than a temporary purpose.
• Show financial need.
• Be making satisfactory academic progress in a course of study leading to an AA or AS degree, certificate, or transfer to a baccalaureate degree program.
• Not be in default on any loans such as Federal Perkins Loans, Federal Stafford Loans (subsidized and unsubsidized), Federal Direct Loans (subsidized and unsubsidized, or FPLUS Loans (Parental Loans for Undergraduate Students) at any school attended.
• Not owe a refund on a Federal Pell Grant, Federal Supplemental Educational Grant (FSEOG), or Cal Grant programs.
• Be registered with the Selective Service, if male between the ages of 18 and 26 years old.
• Be enrolled as a regular student in an eligible program.
• Have a valid social security number.
• Demonstrate an Ability to Benefit (as defined in this section)

Ability to Benefit (ATB):
Students who meet one of the qualifications listed below have demonstrated the ability to benefit from a college education in accordance with applicable federal regulations.

• Received a high school diploma; or Passed a high school proficiency examination; OR
• Successfully completed a two-year program (minimum 48 credit towards a bachelor’s degree)

Education Status
Students requesting a change in education status must submit a general petition with explanation. This is consistent with our office policy that, like residency changes, the burden of proof lies with the student.

The general petition may be evaluated for change by the Dean, registrar, and supervisor. Changes can only be made if the petition supports the claim that the student did not earn the equivalent of an Associate degree or higher in the United States. Acceptable forms of documentation include but are not limited to a college transcript from the institution in question or a student record evaluation from a credential agency. Since the Department of Education and the Financial Aid Office use the information collected on the admissions application to determine a student’s financial aid eligibility, it is important that any changes made must be supported with documentation.

Admissions and Records assistants who process paper applications are responsible for reviewing the application for consistency of information before entering the application into the Student Information System. If the change is being made at the time of application, the student must date and initial to indicate they are making a change to verify they have not completed a college or university degree.

Apply for Financial Aid
US Citizens, and aliens that hold eligible immigration documents apply for all federal and state financial aid programs by completing a Free Application for Federal Student Aid (FAFSA). The application is available online at www.fafsa.gov. Students that are classified AB540 by the college’s Admissions Department may apply for state of California financial aid programs by completing a CA Dream Act Application. It is available online at https://dream.csac.ca.gov. The process is free.

Never pay for federal or state financial aid. You’ll need an FSA User ID and password to “sign” your application, make corrections to the application, and more. If you are a dependent student, your parent will also need an FSA User ID and password. The option to create your FSA User ID and password will be presented to you when you first begin your FAFSA. If you choose not to create your FSA User ID and password at the beginning of the application the option will be presented to you again when you get ready to submit it.

Students applying for Federal Direct Loans, Emergency Loans, or scholarships must complete additional applications and/or forms that may be requested from the Financial Aid Office.
Note: Financial Aid applicants must use their own social security number on all college records.

Priority Dates & Deadlines
In general, the institution must have on file a valid Institutional Student Information Record (ISIR) by the last day of enrollment for a term.

To receive a Pell Grant, financial aid applications and all required documents must be submitted to the Financial Aid Office prior to the end of the enrollment period.

To receive a Cal Grant, the FAFSA must be submitted no later than March 2, 2017 for the 2017-2018 award year. Students planning to attend a community college have a secondary deadline of September 2, 2017 to apply for Cal Grant.

The priority processing date May 1, 2017 for the 2017-2018 academic year. Students who have missed the priority processing date are encouraged to apply as Pell Grant funds may be available.

Consult the LACC Financial Aid Office for more information regarding priority and deadline dates.

Verification
For students selected for verification by the Department of Education, the Financial Aid Office will request additional documents, such as Federal Tax Transcripts, to process the application.

Federal Refund Requirements
Students who receive federal financial aid and withdraw from ALL classes at the institution in the first 60% of the term may have to repay the “unearned” federal funds received prior to withdrawal. The Financial Aid Office will calculate the amount of federal funds earned up to the point of withdrawal and students will be billed and must repay any federal grant funds received but not earned. Failure to repay these funds will result in the denial of future federal financial aid.

Post-Withdrawal Disbursements
Students who have completed their financial aid files but withdrew from all of their courses before receiving any disbursements form federal aid may be eligible for a post-withdrawal disbursements. Students that are eligible for such a disbursement will be notified by email.

Students are advised to contact the Financial Aid Office before withdrawing from all of their classes.

Federal Recalculation Requirements
Federal Pell Grant and Federal Supplemental Educational Opportunity Grant (FSEOG) awards must be recalculated if the student’s information changes after the initial calculation or disbursement. The three factors that are most likely to change are enrollment status, expected family contribution (EFC), and cost of attendance.

Awards will be calculated during each term, based on the student’s enrollment status for that term. If the student’s enrollment status changes up to the date of the second disbursement run date, the Financial Aid Office will recalculate the student’s federal financial aid grants. A recalculation may result in a decreased or increased award.

Federal Financial Aid

Federal Pell Grants
The Federal Pell Grant is a federally funded program. To be eligible, an applicant must be an undergraduate student and demonstrate financial need. The maximum for 2017-2018 is $5,920. During his or her lifetime a student's eligibility is limited to the full-time equivalent of 12 semesters.

- The applicant’s previous delinquent or defaulted loan history.

Federal Direct Subsidized Loan
A low interest loans for students that demonstrate financial need. Students are not charged interest as long as they are enrolled at least half-time. The amount that a student may borrow is based upon unmet need and the student’s progress in an academic program. Also, loan amounts are constrained by federally mandated annual and aggregate limits.
In general, a student's eligibility for subsidized loans is limited to 150% of the student's published program length.

**Federal Direct Unsubsidized Loan**

A low interest loan for which a student isn't required to demonstrate financial need. Students are responsible for the interest charges while they are in school. **State Financial Aid**

**Board of Governor's Fee Waiver Program (BOGFW):**

Under this program enrollment fees are waived for students who meet qualification criteria. Applicants do not have to be enrolled in a specific number of units or courses to receive the waiver and no repayment of funds is required. California residents who are enrolled in at least one (1) unit may apply for a fee waiver. There are three ways to qualify:

**Method A**

At the time of enrollment you are a recipient of benefits under the TANF/CalWORKS Program (formerly AFDC), SSI (Supplemental Security Income), General Assistance (also known as General Relief).

**Method B**

You meet the following 2017-2018 income standards:

<table>
<thead>
<tr>

The Financial Aid Department determines that the student has a financial need that's at least $1,104. This can be only be determined if the student has submitted a FAFSA or CA Dream Act Application.
In addition to the income standards, students may also demonstrate BOGFW B eligibility by having a zero EFC (Expected Family Contribution) under federal methodology.

Note: Under the provisions of AB 131, students who are exempt from paying nonresident tuition under Education Code Section 68130.5 (AB 540) are eligible to participate in the BOG Fee Waiver.

If you qualify after you have paid your enrollment fees, you should complete a “Request for Refund” form available in the college Business Office.

Cal Grant Programs

Cal Grant A

Although Cal Grant A is only for use at a four-year college, students should apply while attending Los Angeles City College. The California Student Aid Commission (CSAC) will reserve grants for students who qualify until they transfer to a four-year college, but will not hold them for more than two years.

Cal Grant B

Cal Grant B provides a living allowance for entering college freshman. At a community college, students receive up to $1,551 per academic year. Students must be enrolled in a minimum of six (6) units to be eligible.

Cal Grant C

Cal Grant C is intended for students who desire to train for specific occupations, vocations, or technical careers, but who do not have the financial resources to enter training programs because they are from low income families. Grants are limited to $576 per year at community colleges for programs ranging in length from four months to two years. Students must be enrolled in at least six (6) units and demonstrate occupation achievement or aptitude in the chosen field.

Full-time Student Services Grant

Cal Grant B and Cal Grant C recipients may receive up to $600 per year. The actual amount received is constrained by the student’s unmet need.

Gainful Employment Program

For thousands of dollars less than you’d pay at private career colleges, you can receive outstanding training in Dental and Radiologic Technology, Nursing, Psychology/Human Services, Photography, Journalism, Child Development, Food Services/Dietetics, Cinema/TV Production, Acting/Stage-Craft, Art/Graphic Arts, Music, Computer Technology, Business, Law/Law enforcement and more.

The link below provides information about the careers for which each Career and Technical Education Certificate prepares you, the costs associated with the program and the average expected debt.

http://www.lacitycollege.edu/services/finaid/eligible-programs.html

In order to be eligible for Federal Student Aid, a student MUST be enrolled in an educational program that leads to an associate’s degree, or prepares a student for gainful employment in a recognized occupation. Students must declare an associate’s major, select a transfer goal, or be enrolled in an eligible program in order to receive Federal Student Aid at LACC.

Chafee Grant Program

The California Chafee Grant Program gives up to $5,000 annually of free money to foster youth and former foster youth to use for college courses or vocational school training. The student must be enrolled in an eligible college or vocational school, enrolled at least half-time and an eligible course of study that is at least one year long. To get additional information, please contact the California Chafee Grant Program at 1-888-224-7268 or write to California Student Aid Commission, Specialized Programs, Attn: California Chafee Grant Program P.O. Box 419029 Rancho Cordova, CA 95741-9029.

Law Enforcement Personnel Dependent Scholarship

This grant program provides educational benefits to the dependents of California police and other law enforcement officers (Chief of Police, Police Officers, Sheriffs, Marshals, Deputy Marshals, etc.) who have been killed or totally disabled in the line of duty. For more information and application materials, write directly to: California Student Aid Commission, 1515 S. Street, Suite 500, P.O. Box 510624, Sacramento, California 94245 – Attention: LEPD Program.

Determining Financial Need

The type of financial aid and amount received will be determined by the LACC Financial Aid Office. Financial aid awards are based on demonstrated financial need which is the difference between allowable educational expenses and the expected family contribution (EFC) and/or the student’s resources. Resources may include, but are not limited to employment earnings, veteran benefits, Social Security benefits, TANF/CalWORKS benefits, JTPA benefits, and CARE benefits. Expected family contribution and resources are then measured against the institutional student Cost of Attendance to determine financial need.

Satisfactory Academic Progress Policy

1. GENERAL INFORMATION

Effective July 1, 2011, Los Angeles Community College District has adopted a new Satisfactory Academic Progress (SAP). In accordance with the Higher Education Act of 1965, as amended, the Los Angeles Community College District (hereinafter referred to as LACCD) established the following Standards of Academic Progress. These Standards apply to all students who apply for and receive financial aid from the programs listed below.

FEDERAL PELL GRANT
Federal Supplemental Educational Opportunity Grant (FSEOG)
Federal Work Study (FWS)
Federal Perkins Loan
Federal Nursing Loan
Federal Parent Loan for Undergraduate Students (PLUS) Family Educational Loan (FFEL)
Federal Direct Student Loan (FDSL)
Cal Grant B and C Child Development Grant

Professional Judgment may be exercised in applying these standards in accordance with Section 479A of the Higher Education Act of 1965 as Amended Through June 1994.

Satisfactory Academic Progress Standards are reasonable if they are the same as or stricter than the institution's standards for a student enrolled in the same educational program who is not receiving assistance under Title IV Federal Financial Aid Programs.

Current and previous coursework earned at any college within the LACCD will be reviewed for compliance with the standards put forth in this policy.

CONSORTIUM CLASSES

All classes throughout the LACCD will be included when reviewing satisfactory academic progress.

For students aided under a consortium agreement with colleges outside the LACCD, consortium classes will be included during satisfactory academic progress review by the home school (the college that processes the student's aid).

2. GENERAL REQUIREMENTS

Students receiving financial aid must be enrolled in an eligible program. An eligible program is defined as:

- An educational program that leads to an associate degree, or
- An educational program which is at least a two-year academic transfer program that is acceptable for full credit toward a bachelor's degree, or
- An educational program which is at least a one-academic-year training program that leads to a certificate, degree, or other recognized educational credential and that prepares a student for gainful employment in a recognized occupation.

3. SATISFACTORY ACADEMIC PROGRESS STANDARDS

- Maintenance of a 2.0 cumulative GPA.
- Fewer than ninety (90) attempted units for students who indicated AA degree or Transfer as their educational goal.
- ESL and Basic Skills/Remedial classes are excluded from the ninety (90) unit limit when determining units attempted.
- Students who have already earned an Associate or higher degree outside of the LACCD will need to follow the appeal procedure.
- In Progress (IP) grades count as attempted units in the maximum time frame only. It does not affect cumulative grade point average in the qualitative measure nor is it included as completed units in the quantitative measure.
- Completion of 67% cumulative units attempted.
- Entries recorded in the students' academic record as Incomplete (INC), No Credit (NCR), No Pass (NP), and/or Withdrawal (W) are considered non-grades and must be 33% or less than the cumulative units attempted.

APPLICATION OF STANDARDS

Satisfactory academic progress for financial aid students will be determined at the end of each payment period/semester.

Students who are disqualified from financial aid will be notified by mail and receive the procedure for appeal.

A student who has been disqualified at any college in the LACCD, is disqualified at all colleges within the LACCD.

A change of one (1) educational goal or major course of study will be permitted. Students are eligible to receive financial aid for one educational goal at the institution of attendance.

Disqualification - Students will be disqualified if they have one or more of the following academic deficiencies at the end of Spring semester:

- Total units attempted (excluding ESL and Basic Skill/Remedial classes) are equal to or greater than ninety (90) - Associate or higher degree has been earned.
- Cumulative GPA is less than 2.0;
• Cumulative Non-Grades are more than 33%;
• Warning Probation Letter - Students will receive a Warning Probation Letter at the end of the Fall semester if they have one or more of the following academic deficiencies:
  • Cumulative GPA is less than 2.0; Cumulative non-grades are greater than 33%; Advisory Letter
  Number of units attempted reaches forty-five (45).

4. MAXIMUM TIME LENGTH
Students attending for the purpose of obtaining an Associate of Arts Degree (AA), an Associate of Science Degree (AS), or completion of requirements for transfer to a four year college, are allowed 90 attempted units in which to complete their objective.

Exceptions will be made only when the requirements of a student’s objective cause the student to exceed the maximum time limit

SHORT LENGTH CERTIFICATE PROGRAMS
Some certificate objectives at the Los Angeles Community Colleges may be completed in less time than that required for the Associate of Arts, Associate of Science and Transfer objectives. The following table shows the normal completion time and maximum time for certificate programs of varying length:

<table>
<thead>
<tr>
<th>REQUIRED CERTIFICATE UNITS</th>

<td>25 to 36</td>
<td>3 semesters</td>
<td>5 semesters</td>
</tr>
<tr>
<td>37 to 48</td>
<td>4 semesters</td>
<td>6 semesters</td>
</tr>
</tbody>
</table>

To be eligible for financial aid, a program must be at least six (6) months in length with a minimum of sixteen (16) units. Students enrolled in a certificate program may continue to qualify for financial aid up to ninety (90) attempted units, six (6) full-time semesters, or the equivalent, if they are planning to obtain an A.A. or A.S degree or to transfer to a four-year school in addition to obtaining the certificate.

SUMMER AND WINTER FINANCIAL AID
Summer and winter terms are included in the evaluation of Satisfactory Academic Progress standards.

Fraud
Any student who attempts to obtain financial aid by fraud will be suspended from financial aid for unsatisfactory conduct. The college will report such instances to local law enforcement agencies, to the California Student Aid Commission, and/or to the Federal government. Restitution of any financial aid received in such a manner will be required.

Scholarships
Many scholarships are available to Los Angeles City College students. Criteria may include evidence of leadership in various academic departments and/or student activities, citizenship, need, and scholastic ability.

Additional information about scholarships is available through the Financial Aid Office, academic department chairpersons or through the LACC Foundation.

Foundation
LACC Foundation located on the 3rd floor of the Student Union building.

(323) 953-4000 ext. 2490 • www.laccfoundation.org.

Each year, the LACC Foundation provides students with scholarships and awards to allow them to continue to excel in their educational endeavors. These scholarships vary in their fields, award amounts, and application requirements, including evidence of leadership in various academic departments and/or student activities, citizenship, need, and scholastic ability. Scholarships are the result of the generosity of private donors, LACC alumni and the campus community. Students are encouraged to visit individual department websites and the LACC Foundation site for detailed information regarding available scholarships and awards. All award and scholarship applications normally become available during the beginning of the Spring semester, and are awarded to students towards the end of the Spring semester.

Policies: Academic

Attendance

The student is expected to attend every meeting of all classes for which he or she is registered. Attending a class without being registered is contrary to the Los Angeles Community College District rules and cannot be used as the basis for a petition to add a class.

Students who have enrolled for a class and who do not attend or who are late or absent from the first meeting of the class may be excluded by the instructor.

Student Responsibilities

Students will only be able to enroll in or attempt a course three times. Students who stay in a course past the “no penalty” withdrawal date and then drop it or are excluded, will receive a grade of “W” and have used one of their three attempts.

Any student who has three attempts at any given class, with any combination of W, D, or F grades, will not be able to register for the class again, and will need to take the class again at a college outside the Los Angeles Community College District.

Students may petition for one more attempt by citing “extenuating circumstances,” however, for the most part the only extenuating circumstances that are allowed are military deployment or natural disaster.

It is the responsibility of the student to notify the instructor of circumstances which will prevent attendance at any meeting of the class. Students may notify instructors by e-mail or by phone using the number listed on the course syllabus. If the number is not listed, use the number for the department chair listed in the class schedule and ask that the message be forwarded.

Whenever absences in hours exceed the number of hours the class meets per week, the student may be excluded from class by the instructor.

IT IS THE STUDENT’S RESPONSIBILITY TO DROP FROM A COURSE. Any drops or exclusions that occur between 20% and 75% of the term will result in a “W” on the student’s record, which will be included in the determination of progress probation. Drops are not permitted beyond 75% of the term. An evaluative grade (“A”, “B”, “C”, “D”, “F”, “P”, or “NP”) will be assigned to students who are enrolled past 75% of the term even if they stop attending class, except in cases of extenuating circumstances. After 75% of the time the class is scheduled, the student may petition to the Dean of Admissions to withdraw from class demonstrating extenuating circumstances.

For further details, refer to “W” section of ‘Grading Symbols and Definitions’.

Tardies

Three tardies will be considered the equivalent of one hour of absence. A tardy is defined as coming in to class after the class officially begins.

Final Examinations

Final examinations are given in all courses according to the schedule which is printed in the Schedule of Classes.

Grading Symbols and Definitions and Conditions For Use

Only the symbols in the grading scale given in this section shall be used to grade all courses.

Grades shall be averaged on the basis of the point equivalences to determine a student’s grade-point average, using the following evaluative symbols:

<table>

<tr>
<td>NP</td>
<td>No-Pass (less than satisfactory - units awarded but not counted in GPA. NP has the same meaning as “NC” as that symbol was defined prior to June 30, 2007.) Applied to credit and noncredit courses.</td>

<td></td>
</tr>
<tr>
<td>WM</td>
<td>Military Withdrawal (the “MW” symbol may be used to denote Military Withdrawal in accordance with section 55024)</td>
<td></td>
</tr>
</tbody>
</table>

(P and NP grades may be given only in courses authorized by the District Pass/No-Pass Option and Credit by Examination Policies).

The following non-evaluative symbols may be entered on a student’s record, but are not part of the GPA calculation.

INC Incomplete

Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an “I” symbol being entered in the student’s record. The condition for removal of the “I” and the grade which is assigned in lieu of shall be stated by the instructor in an Incomplete Grade Record. This record shall be given to the student, with a copy on file in the college Admissions Office until the “I” is made up and a final grade assigned, or when on year has passed. The “I” symbol shall not be used in calculating units attempted nor for grade points. The “I” may be made up no later than one...
year following the end of the term in which it was assigned. The student may petition for a time extension due to unusual circumstances.

**IP In Progress**

The “IP” (In Progress) symbol shall be used only in those courses which extend beyond the normal end of an academic term. It indicates that work is “in progress,” but that assignment of a grade must await the course completion. The “IP” symbol shall remain on the student’s permanent record in order to satisfy enrollment documentation. The appropriate evaluative grade and unit credit shall be assigned and appear on the student’s record for the term in which the required work of the course is completed. The “IP” shall not be used in calculating grade point averages.

**RD Report Delayed**

The “RD” symbol may be assigned when there is a delay in reporting the grade beyond the control of the student. The “RD” may be assigned by the Dean of Student Services only. It is a temporary notation to be replaced by a permanent symbol as soon as possible.

**W Withdrawal**

Withdrawal from a class or classes shall be authorized through the last day of the fourteenth week of instruction or 75% of the time the class is scheduled to meet whichever is less.

No notation (“W” or other) shall be made on the record of a student who withdraws before the census date of the course.

Withdrawal between the end of the fourth week (or 30% of the time the class is scheduled to meet, whichever is less) and the last day of the fourteenth week of instruction (or 75% of the time the class is scheduled to meet, whichever is less) shall be authorized after informing the appropriate faculty. A student who remains in class beyond the fourteenth week of 75% of the time the class is scheduled shall be given a grade other than a “W”, except in cases of extenuating circumstances.

After the last day of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) the student may withdraw from class upon petition demonstrating extenuating circumstances and after consultation with the appropriate faculty.

Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student. Withdrawal after the end of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) which has been authorized in extenuating circumstances shall be recorded as a “W”.

For purposes of withdrawal policies, the term “appropriate faculty” means the Instructor of Record for each course in question or, in the event the instructor cannot be contacted, the department chair or equivalent faculty officer.

The “W” shall not be used in calculating units attempted nor for the student’s grade point average.

“W’s” will be used as factors in progress probation and dismissal.

A “W” shall not be assigned, or if assigned shall be removed from a student’s academic record, if a determination is made that the student withdrew from the course due to discrimination, treatment or due to retaliation for alleging discriminatory treatment or that the student withdrew because he or she
reasonably believed that remaining in the course would subject him or her to discriminatory treatment or retaliation for alleging discriminatory treatment.

A student may not withdraw and receive a “W” symbol on his or her record more than three times for enrollment in the same course. A student may enroll again in the same course after having previously received the authorized number of “W” symbols in the same course, if a designated college official approves such enrollment after review of a petition filed by a student.

**MW Military Withdrawal**

“Military Withdrawal” occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a withdrawal symbol may be assigned at any time after the period established by the governing board during which no notation is made for withdrawals. The withdrawal symbol so assigned shall be a “MW”.

1. Military withdrawals shall not be counted in progress probation and dismissal calculations.

2. MW shall not be counted towards the permitted number of withdrawals.

The District shall refund the entire enrollment fee unless academic credit has been awarded.

**RD Report Delayed**

A notation of RD shall be entered on a student’s transcript when an instructor fails to turn grades in on time. The notation on the student’s transcript shall be changed to the grade earned by the student following receipt of the grades from the instructor.

**Pass/No-Pass Option**

The College President may designate courses in the college catalog wherein all students are graded on a “pass-no pass” basis or wherein each student may elect on registration or no later than the end of the first 30% of the term, whether the basis of evaluation is to be “Pass/No-Pass” or a letter grade. These courses will be noted in the college catalog as being eligible for the “pass-no-pass” option.

The pass-no pass grading system shall be used in any course in which there is a single satisfactory standard of performance for which unit credit is assigned. A grade of Pass shall be assigned for meeting that standard (earning 70% or higher), and a grade of No Pass shall be assigned (earning a grade below 70%) for failure to do so.

The student who is enrolled in a course on a “pass-no-pass” basis will be held responsible for all assignments and examinations required in the course and must meet the same standards of evaluation as required for all students.

NOTE THAT UC AND CSU POLICIES ON ACCEPTING P/NP VERSUS GRADES VARY BY CAMPUS. SEE YOUR COUNSELOR FOR CURRENT INFORMATION.

**B. OPTIONAL**

The College President may designate courses in the College Catalog wherein each student may elect, no later than the end of the first 30 percent of the term, whether the basis of evaluation is to be “Pass/No-Pass” or a letter grade. Pass/No-Pass petition forms listing all approved courses are available in admissions.

**Acceptance of Pass Credits**

All courses and units (including those units earned on a “Pass/No-Pass” basis) used to satisfy requirements, including graduation requirements, educational program requirements and transfer core curriculum requirements, shall be from accredited institutions, unless otherwise specified in this Board Rule.

“Accredited institution” shall mean a postsecondary institution accredited by an accreditation agency recognized by either the U.S. Department of Education or the Council on Postsecondary Accreditation. It shall not mean an institution “approved” by the California Department of Education or by the California Council for Private Postsecondary and Vocational Education.

**Recording of Grade**

A student who is enrolled in a course on the “Pass/No-Pass” basis shall receive both course and unit credit upon satisfactory completion of the course. Satisfactory completion (earned 70% or higher) is equivalent to the grade of “C” or better. A student with unsatisfactorily performance (earned 70%) will be assigned a “No-Pass” (NP) grade.

**Grade Point Calculation**

Units earned on a “Pass/No-Pass” basis shall not be used to calculate grade point averages. However, units attempted for which “NP” (No-Pass) symbol is recorded shall be considered in probationary and dismissal procedures.
Standards of Evaluation

The student who is enrolled in a course on a “Pass/No-Pass” basis will be held responsible for all assignments and examinations required in the course and the standards of evaluation are identical for all students in the course.

Conversion to Letter Grade

A student who has received credit for a course taken on a “Pass/No-Pass” basis may not convert this credit to a letter grade.

Grade Changes

Grade Change Petition

The instructor of the course shall determine the grade to be awarded to each student in accordance with Board Rule 6702. The determination of the student's grade by the instructor is final in the absence of mistake, fraud, bad faith, or incompetence. The removal or change of an incorrect grade from a student's record shall only be done upon authorization by the instructor of the course, and concurrence of the office of Academic Affairs. The Grade Challenge policy is contained in Administrative Regulation E-55. The Ombudsperson is able to facilitate the process.

The changing of a grade is a serious matter that must be supported with documentation provided by the student of the course. To request a grade change, students may submit a petition for review to the Admissions Office.

NO GRADE MAY BE CHALLENGED BY A STUDENT AFTER ONE YEAR FROM THE END OF THE TERM IN WHICH THE COURSE WAS TAKEN.

Transcripts

Requests for transcripts or verifications may be obtained in the Admissions Office. Transcripts from another institution are not available for copying.

Upon written request of the student, a copy of the student’s academic record shall be forwarded by the Admissions Office to a designated addressee promptly by U.S. mail.

A student or former student shall be entitled to two free copies of the transcript of his or her record or two free verifications of student records. Additional copies shall be made available to the student, or to an addressee designated by the student, at a cost of $3.00. Students may request special processing to expedite their request for an additional fee of $7. This option is Subject to the college's ability to provide this service.

The student's transcript may be withheld if there are any unpaid fees or charges due to the College or other restrictive hold.

Academic Renewal

(See an Academic Counselor for advisement)

Students may submit a petition to the Office of Admissions and Records to have their academic record reviewed for Academic Renewal action of substandard academic performance under the following conditions:

1. Students must have achieved a grade-point-average of 2.5 in their last 15 semester units, or 2.0 in their last 30 semester units completed at any accredited college or university, and
2. At least one calendar years must have elapsed from the time the course work to be removed was completed.

If the student meets the above conditions, the College shall grant academic renewal, consisting of:

Academic renewal actions are irreversible. Students should meet with a College Counselor before taking such an action.

Course Repetition

(See an Academic Counselor for advisement)

Repetition of courses for which substandard work has not been recorded shall be permitted only upon advance petition of the student and with permission of the College President or designee based on a finding that circumstances exist which justify such repetition. In such repetition under special circumstances, the student's permanent academic record shall be annotated in such a manner that all work remains legible. Grades awarded for repetition under special circumstances shall not be counted in calculating a student's grade-point-average.

Students may petition for approval to repeat courses up to a total of 15 units in which substandard grades (less than “C”) were awarded. Students may repeat the same course only once for this purpose. Upon completion of a course repetition, the best grade earned will be computed in the cumulative grade-point-average and the student academic record so annotated.

No specific course or categories of courses shall be exempt from course repetition. This policy is adopted for use in the Los Angeles Community College District only. Other institutions may differ. Students planning to transfer to another college or university should contact that institution regarding its policy.

Student may also repeat certain activity, performance, and skills courses as stated below:

Legally mandated training requirement: Courses necessary to meet legally mandated training requirements as a condition of continued paid or volunteer employment may be repeated for credit any number of times.

Content differs each time the course is offered: the course outline of record must clearly differentiate how the content changes each time. Applied courses, such as production and studio courses, may also qualify as activity courses (see below). Courses where students apply theory may also fall under the category of content changing each time. Examples of these types of courses are poetry writing creative writing or conversational Spanish. Other examples of courses where content changes each time are: directed study, field work, special topics, or current events. Theory courses should not be repeatable.

Activity courses: are defined as those where the students meets course objectives by repeating a similar primary educational activity and gains an expanded educational experience each time the course is repeated, provided: (A) skills
Graded, Academic Renewal Shall Result In:

a. Eliminating up to 30 semester units of coursework taken within the Los Angeles Community College District from consideration in the student's cumulative grade-point average, and

b. Annotating the student academic record to note which courses have been removed through academic renewal. Academic renewal actions are irreversible.

Granting of Academic Renewal does not mean the course can be repeated beyond the maximum repeatability listed for the course.

Graduation honors and awards are to be based on the student's cumulating grade-point average for all college work attempted.

This Administrative Regulation, as authorized by Board Rule 6700, Chapter VI, Article VII, is adopted for use in the Los Angeles Community College District only. Other institutions may differ, and students planning to transfer to another college should contact that institution regarding its policy.

Course Repetition to Remove a Substandard Grade

Students may repeat courses in which substandard grades (“D”, “F”, or ‘NC’, or “NP”) were awarded provided they have not already attempted the same course three times.

When course repetition under this section occurs, the student's permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

For the first and second repetitions of a course where a substandard grade was awarded, the highest grade earned shall be used when computing the student's cumulative grade point average.

a. Students who have received three substandard grades for the same course may repeat it one more time upon approval of a filed petition documenting extenuating circumstances. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student.

Course Repetition: Fourth Attempt or More

FOURTH ATTEMPT

A student may enroll and receive an evaluative symbol of “D, F, NCR and NP” and/or a non-evaluative symbol of “W” in the same credit course a maximum of three times. Title 5 Regulation 55024 allows a district to establish a petition process for students attempting this same course a fourth time due to extenuating circumstances.

Repetition of Courses In Which A Satisfactory Grade Was Recorded

a. Repetition of courses for which a satisfactory grade of “A”, “B”, “C”, “CR” or “P” has been recorded shall be permitted only upon an advanced petition of the student and with the written permission from the college president, or designee, based on a understanding that extenuating circumstances exist which justify such repetition or that there has been a significant lapse of time since the student previously took the course. Significant lapse of time is defined as no less than 36 months since the most recent grade was awarded.

b. When course repetition under the section occurs, the student's permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

c. Grades awarded for courses repeated under the provisions of sub- section “a” and “b” of this section shall not be counted in calculating a student's grade point average.

d. When such repetition is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, such courses may be repeated for credit any number of times, and the grade received each time shall be included for purposes of calculating the student's grade point average. The college shall establish policies and procedures requiring students to certify or document that course repetition is necessary to complete legally mandated training pursuant to this subsection.

Repeatable Courses

Certain courses in the Catalog may be repeated for additional unit credit. These courses, marked “RPT” in the Course Section of the Catalog, allow the student to build on skills and proficiencies by supervised repetition and practice within class periods. Enrollment in these courses is limited in any similar course to a maximum of three repeats for a total of four (4) enrollments, regardless of the repeatability of individual courses.

Extenuating Circumstances. According to Board Rule 6701.10, "Extenuating circumstances may include, but are not limited to, verified cases of accidents, illness, military service, significant lapses of time, changes in program or major, or other circumstances beyond the control of the student."
Duplicative Credit
Duplicative credit in non-repeatable courses should not be used towards the 60 units required for graduation regardless of whether or not the student petitioned to have the transcript annotated.

Awarding Credit
The colleges within the LACCD will accept upper division coursework completed at other colleges for the purpose of fulfilling Associate Degree requirements using the following guidelines:

1. Coursework must be completed at a United States regionally accredited institution.
2. A student must submit official transcripts from the originating institution.
3. Upper division courses may be applied to an LACCD general education area or major and/or elective requirements based on content equivalency to a general education, major or elective course offered at an LACCD campus.
4. Upper division courses in Math or English composition may be used to satisfy competency requirements for the Associate Degree.

Use of Upper Division Courses to Satisfy IGETC or CSU GE Breadth

Policy on the use of upper-division coursework on the IGETC and CSU GE is governed by the University of California and California State University systems. Consult the IGETC Standards and CSU Executive Order 1100 for complete details.

Previously Earned College Units
College credits earned at any accredited institutions of higher education. Credits are posted to transcripts upon completion of all other graduation requirements. Students must request copies of official sealed transcripts be mailed to the Office of Admissions and Records from each college attended.

Acceptance of Course to Meet Associate Degree and General Education Requirements:
The college within the LACCD will accept degree-applicable coursework completed at other colleges for the purpose of Associate degree general education using the following guidelines:

1. Coursework must be completed at an institution accredited by a recognized regional accrediting body.
2. Coursework must be Associate Degree applicable.
3. A student must submit official transcripts from the originating institution consistent with current Board policy.
4. The college will honor each course in the same general education area in which the originating institution placed each course. Equivalency to an LACCD course is not required.
and does not prohibit application of the course to an alternative general education area, if deemed beneficial to the student.

5. Courses taken at the origination institution that do not appear on that college’s general education pattern will be applied to an LACCD general education pattern based on course content equivalency to a general education course offered at an LACCD campus.

6. A minimum grade of “C” (2.0) is required in each course used to fulfill the English and Mathematics competency requirement.

### Advanced Placement Credit

1. **Course Equivalency**

   Course equivalency for Advanced Placement exams, for purposes other than meeting General Education and graduation competency requirements for the Associate Degree, shall be determined by the college, using policies developed in consultation with the college’s Academic Senate, in accordance with the provisions of LACCD Board Rules, Chapter XVIII, Article I.

   Course equivalency does not award unit credit. For unit credit policy, see item 3 below.

2. **USE OF ADVANCED PLACEMENT**

   Use of Advanced Placement exams for meeting General Education Requirements and graduation competency requirements for the Associate of Arts and Associate of Science Degrees

   Advanced Placement (AP) Exams shall be used toward meeting General Education requirements and Graduation Competency for the Associate of Arts and Associate of Science Degrees, as defined in Board Rule Chapter VI, Article II.

   Students must receive a passing score (3, 4, or 5) on an AP exam to receive the credit indicated in Appendix A.

3. **Advanced Placement Unit Credit**

   For the purpose of granting unit credit towards meeting General Education and graduation competency requirements, the LACCD shall follow the guidelines for Advanced Placement credit set by the American Council on Education:

   In general, the recommended minimum number of semester hours from ACE corresponds to the status of the corresponding high school AP course:

   - 3 semester hours are recommended in the case of a half-year course
   - 6 semester hours for most full-year courses
   - 8 semester hours for some of the mathematics, sciences, and foreign languages

4. **CSU GE Breadth and IGETC**

   The placement of courses in the California State University General Education Breadth (CSU GE Breadth) and the Intersegmental General Education Transfer Curriculum (IGETC) Plans is determined by the University of California and California State University systems respectively; therefore it is not necessary for the college to grant course equivalency for this to occur. Appendix A indicates how AP tests are used to meet these requirements.

The Los Angeles Community College District does not discriminate on the basis of disability in the admissions or access to, or treatment of or employment in, its programs or activities. Requests for alternate formats can be made by contacting the ADA Compliance Administrator, 770 Wilshire Boulevard, Los Angeles, CA 90017, (213) 891-2213 voice, (213)891-2408 TTY, (213) 891-2295 fax.

### College Level Examination Program (CLEP) Credit

1. **Course Equivalency**

   Course equivalency for CLEP (College-Level Examination Program) exams, for purposes other than meeting General Education and Graduation Competency requirements for the Associate Degree, shall be determined by the college, using policies developed in consultation with the college’s Academic Senate, in accordance with the provisions of LACCD Board Rules, Chapter XVIII, Article I.

   Course equivalency does not award unit credit. For unit credit policy, see item 3 below.

2. **USE OF CLEP EXAMS**

   Use of CLEP exams for meeting General Education requirements and Graduation Competency requirements for the Associate in Arts and Associate in Science Degrees.

   CLEP Exams shall be used toward meeting General Education requirements and Graduation Competency for the Associate in Arts and Associate in Science Degrees, as defined in Board Rule Chapter VI, Article II.

   Students must receive a passing score (50) on most CLEP exams, except Foreign Language level 2 exams which require a higher score.

   Students who take an Advanced Placement (AP) exam, an International Baccalaureate (IB) exam or College-Level Examination Program (CLEP) exam in the same topic area will receive credit for only one exam (for example, if a student takes both the CLEP exam in Biology and the AP exam in Biology, they will only be awarded credit for one exam because the topics are duplicative). The college should award credit for the exam that most benefits the student.

3. **CLEP Unit Credit**

   For the purpose of granting unit credit towards meeting General Education and Graduation Competency requirements, the LACCD shall follow the guidelines for CLEP credit set by the American Council on Education:

   - 3 semester hours are recommended in the case of a half-year course
   - 6 semester hours for most full-year courses.
   - 12 semester hours for Level 2 Foreign Language exams equivalent to four semesters of college-level foreign language course work.

Probation & Dismissal

The following standards for academic and progress probation shall be applied as required by regulations adopted by the Board of Governors of the California Community Colleges.

A student shall be placed on probation if any one of the following conditions prevail:

Academic Probation: the student has attempted a minimum of 12 semester units of work and has a grade-point-average less than a "C" (2.0).

Progress probation: the student has enrolled in a total of at least 12 semester units and the percentage of all units in which a student has enrolled and for which entries of W (Withdrawal), I (Incomplete), and NP (No Pass) are recorded reaches or exceeds fifty percent (50%).

Units Attempted: "Units Attempted," for purposes of determining probation status only, means all units of credit in the current community college of attendance in which the student is enrolled.
Students shall be subject to dismissal and subsequently be dismissed under the conditions set forth within this section. Dismissal from Los Angeles City College shall disqualify students from admission to any college in the Los Angeles Community College District (LACCD).

Academic Dismissal: Students who are on academic probation shall be subject to dismissal if they have earned a cumulative grade-point-average of less than 2.0 in all units attempted in each of three consecutive semesters.

Students who are on academic probation and who earn a semester grade-point-average of 2.0 or better shall not be dismissed as long as this minimum semester grade-point-average is maintained.

Progress Dismissal: Students who are on progress probation shall be subject to dismissal if the cumulative percentage of units in which they have been enrolled for which entries of W (Withdrawal), I (Incomplete), and NP (No Pass) are recorded in at least three (3) consecutive semesters reaches or exceeds fifty percent (50%).

Students who are on progress probation shall not be dismissed after a semester in which the percentage of units in which they have been enrolled for which entries of W, I and NP are recorded is less than fifty percent (50%).

Students who are subject to dismissal may appeal to the Vice President of Student Services. Dismissal may be postponed and the student continued on probation if the student shows significant improvement in academic achievement but has not been able to achieve a level that would meet the requirements for removal from probation.

Students who have been dismissed may request reinstatement after two (2) semesters have elapsed. They shall submit a written petition requesting readmission to the College in compliance with College procedures. Readmission may be granted, denied, or postponed subject to fulfillment of conditions prescribed by the College. Students must file a petition to return prior to the day for new and returning students to register in person. Refer to the College Calendar in the current Schedule of Classes for effective dates.

Conditions of Enrollment

Unless specifically exempted by law, every course for which State aid is claimed is fully open to any person who has been admitted to the College and who meets the appropriate academic prerequisites.

Concurrent Enrollment

Concurrent enrollment in more than one section of the same course during a semester is not permitted, except for certain Kinesiology classes on a limited basis. Concurrent enrollment in courses which are cross-referenced to each other is not permitted. Violation of this regulation will result in exclusion from class and denial of course credit in both courses. Enrolling in classes scheduled or conducted during overlapping times is not permitted. In addition to exclusion from both classes and denial of credits, violators will be subject to disciplinary action.

Auditing

Students may be permitted to audit a class under the following conditions:

1. Payment of a fee of $15 per unit. Fees are not refundable and they are not covered by a fee waiver. Students enrolled in classes to receive credit for ten or more semester units shall not be charged a fee to audit three or fewer semester units per semester. This fee structure is subject to change.

2. Students auditing a course shall not be permitted to change their enrollment in that course to receive credit for the course.

3. Priority in class enrollment shall be given to students wanting to take the course for credit.

4. Permission to enroll in a class on an audit basis is at the instructor's discretion.

5. Participation in class activities by student auditors will be solely at the discretion of the instructor, who may provide a written statement of how much participation is allowed beyond observation.

6. Students must be added as an auditor by the last day of the term to add classes.

Dual Enrollment

The Dual Enrollment Program is an accelerated program that allows qualified students to fulfill high school graduation requirements while simultaneously gaining college or vocational credits toward a certificate, diploma or college degree. Los Angeles City College offers a variety of college courses that are conveniently offered at our local high schools. Students and counselors should note these classes should be taken by students ready for college level work. Our goal is to allow high school students exposure to college level curriculum and prepare them for post secondary education. Research has shown us that Dual Enrollment classes can be used effectively to promote post secondary education and success, expand rigor and breadth of high school curriculum, and provide access to challenging, college preparatory curriculum to students who might otherwise have been shut out of such curriculum through the traditional high school system.

Dual Enrollment classes are open to LACC students who are willing to travel to the local high school.

Dual Enrollment classes are scheduled through the LACC administration by request of the high school principal or college counselor. Applications are available for high school staff by contacting Harley Hass at haasht2@lacitycollege.edu.

Deans’ & President’s Honors

Students with outstanding scholastic achievement are given public recognition through the Los Angeles City College Dean’s List. Full-time students (a student enrolled in 12 or more graded units the qualifying semester) must earn a 3.5 or higher GPA. Part-time students (a student enrolled in 6 through 11 graded units) must have completed 12 units and earn a 3.5 or higher GPA in the qualifying semester. Only the grades from courses completed at LACC, during the qualifying
semester, will be used in calculating the grade point average (GPA). Grades of “Credit” will not be counted in meeting the unit requirement for the Dean’s or President’s Honor List.

Students who have appeared on the college’s full-time or part-time Dean’s Honor list for three (3) consecutive semesters will be placed on the President’s Distinguished Honor List. Students who think they qualify for either of these honors can go to the Admissions Office and request an unofficial transcript of their records, or use an electronic kiosk, or access the college’s website and print out their transcript. Bring the unofficial transcript to the Office of Student Life & Leadership Development, located in the Student Union for verification.

The Dean’s Honor Program is held annually each spring semester to acknowledge the students who earned their honors the prior spring and fall semesters.

For graduation with honors (Summa Cum Laude, Magna Cum Laude, Cum Laude), see “Graduation With Honors” in the Graduation Requirements section of this catalog.

Educational Environment Policy
Due to requirements set forth by the Occupational Safety and Health Administration, proper attire, including shoes, eye ware, and other articles, should be worn during all class hours.

Directed Study Courses
Directed Study courses are offered by several academic and vocational departments. They are designed for students who are capable of independent work and who demonstrate the need or desire for additional study beyond the regular curriculum. Enrollment allows students to pursue activities such as directed field experience, research, or the development of skills and competencies under faculty advisement and supervision. Directed Study courses are available in a wide variety of disciplines. Students wishing to enroll in a Directed Study course should contact the appropriate department chair.

Units are awarded depending upon satisfactory performance and the amount of time committed by the student to the course. Allowable units vary according to discipline and are based on the following formula:

- Directed Study 185 (1-unit) = 48 hours per semester
- Directed Study 285 (2-unit) = 96 hours per semester
- Directed Study 385 (3-unit) = 144 hours per semester

Students should note that there are limitations as to the allowable maximum number of Directed Study units. For all Directed Study Courses transferring to the University of California, the maximum credit allowed is 3 semester units per term or six units total in any and all appropriate subject areas combined. The granting of transfer credit for Directed Study courses is contingent upon review of the course outline by the appropriate UC campus.

It is recommended that students consult with a College Counselor and with the appropriate instructor and/or department chairperson before enrolling in Directed Study courses. Please refer to the current Schedule of Classes for information regarding specific Directed Study classes being offered.

During the first two weeks of the term, available classes are posted by section number in an area near the Office of Admissions in the Administration building. As with other LACC classes, the available classes listed at the Add Card Center are available to add by telephone.

Distance Education Learning
LACC’s Distance Education (DE) courses include lectures, discussion, assignments, and tests delivered via the Internet with regular opportunities for electronic interaction with instructors and other students. To enroll in DE classes you must have access to a computer, the Internet, and an e-mail account. LACC guarantees instructor initiated contact via the learning management system and email that is commiserate with the type of instruction found in the traditional classroom. Contact with the instructor may include weekly chat rooms, discussion forums, personalized assignments, and digital office hours.

LACC may be required to receive state authorization to enroll students who do not reside in California. Many states have either given the college this authorization or do not require authorization. However, some states require significant fees to receive state authorization. Due to the significant and/or recurring fees for state authorization, LACC no longer permits a student to enroll if he/she resides in one of the following states: Alabama, Arkansas, Maryland, Minnesota, Utah, or Wisconsin. For more information, including an online learning readiness assessment and a list of current DE courses, visit lacitycollege.edu/offsite/distance-ed/

Policies: Student

Classroom Conduct
Instructors are responsible for presenting appropriate material in courses, and students are responsible for learning this material. Although it is a student’s academic performance that is evaluated in determining grades, student conduct is important in the academic setting. Enrollment in a class may be terminated due to unsatisfactory student conduct, undue disrespect toward an instructor or administrator, or academic dishonesty. Each student is responsible for maintaining standards of academic performance established for each course in which he or she is enrolled.

Student Discipline Procedures
Community college districts are required by law to adopt standards of student conduct along with applicable penalties for violation (Education Code Section 66300). The Los Angeles Community College District has complied with this requirement by adopting Board Rules 9803 and 9804-9806, Standards of Student Conduct.

The LACCD has adopted Board Rule 91101, “Student Discipline Procedures,” to provide uniform procedures to assure due process when a student is charged with a violation of the Standards of Student Conduct. All proceedings held in accordance with these procedures shall relate specifically to an alleged violation of the established Standards of Student Conduct. These provisions do not apply to grievance procedures,
student organization councils and courts, or residence determination and other academic and legal requirements for admission and retention. Disciplinary measures may be taken by the College independently of any charges filed through civil or criminal authorities, or both.

Copies of the Student Discipline Procedures are available in the Office of Vice President of Student Services.

**Academic Freedom**

The Board of Trustees reaffirms its commitment to academic freedom, but recognizes that academic freedom does not allow Prohibited Discrimination. The discussion of ideas, taboos, behavior or language which is an intrinsic part of the course content shall in no event constitute Prohibited Discrimination. It is recognized that an essential function of education is a probing of received opinions and an exploration of ideas which may cause some students discomfort.

It is further recognized that academic freedom.

**Student Grievance Procedures (E-55 Regulation)**

The purpose of the E-55 regulation is to provide a prompt and equitable means for resolving student(s) grievances. In the pursuit of academic goals, the student should be free of unfair or improper action by any member of the academic community. The grievance procedure may be initiated by one or more students who reasonably believe to have been subject to unjust action or denied rights involving their status or privileges as students.

It is the responsibility of the student(s) to submit proof of alleged unfair or improper action. Grievances pertaining to grades are subject to the California Education Code Section 76224(a) which states: When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith or incompetency, shall be final.

The role of the Ombudsperson is that of a facilitator of the grievance process, and not that of an advocate for either the grievant(s) or respondent(s). During the informal resolution stage of the grievance process, the ombudsperson will facilitate informal meetings and discussions that may lead to a resolution of the grievance.

This grievance procedure does not apply to the challenge process for prerequisites, co-requisites, advisories and limitations on enrollment; alleged violations of sexual harassment; actions involving student discipline; alleged discrimination on the basis of the ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; or an appeal for residency decision; or the eligibility, disqualification or reinstatement of Financial Aid.

Information about the grievance procedures and a copy of the regulation are available to grievant(s) and/or respondent(s) upon request from Mr. Edward Bird Song, at (323) 953-4000 ext. 1256 or Dr. Jeremy Villar (323) 953-4000 ext. 2011, both serving as campus ombudspersons.

http://aso.lacitycollege.edu/

The LACC Associated Student Government (ASG) is the officially designated student organization that represents students' needs and concerns. The ASG is a significant component of LACC's shared governance process. The governing body of the ASG is the Student Senate, composed of officers elected annually by the student body at large, following requirements of LACCD Administrative Regulation S-9.

The ASG represents students on college, district and statewide issues. It provides students with leadership opportunities through involvement on the Student Senate and Club Council, and by appointment to various LACC, ASG, regional and state committees. It provides funding support for a variety of campus activities including Dean's Honor Ceremony, Commencement, Welcome Days, Health Fair, English Writing Contest, Forensics Team, Latino Heritage Festival, Foreign Language Day, African-American History Month, blood drives, social events, speakers, and other events. Student clubs provide a rich and exciting multi-cultural dimension to college life. Information on joining or starting a club is available in the Office of Student Life. All student clubs must be chartered by the ASO in order to be recognized and officially function on campus.

www.lacitycollege.edu/services/counsel/index.html
Academic counseling services are available for all students in the Counseling Department. Students are encouraged to
make an appointment to consult with a college counselor. If students need to review their records, appointments should be made in person several days in advance.

No appointments are available the first week of the semester. Walk-in counselors are available to answer quick questions or to provide emergency help for students.

The services available include counseling and guidance on educational, career, and personal goals as well as problems that may interfere with a successful adjustment to college life. The experienced and professionally trained counseling faculty works with students concerning transfer, educational goals, career planning, choice of college or universities, and other decisions involving a direction in life. Counselors also help students select and plan their academic majors, explore future college or other educational choices, and develop specific plans to meet their transfer and graduation goals. Students should consult with a college counselor as soon as possible to make these plans.

Counselors will work with students who feel the need for greater self-understanding, who need to know more clearly what their abilities and interests are, and where these abilities and interests may lead.

Personal Development courses offered through the department have been structured to prepare and help students complete their college education in a timely manner. The courses are highly recommended for new and returning students.

Students who meet Mathematics and/or Reading and Written Expression competencies through assessment must still complete the LACCD Associate Degree Area D General Education course and unit requirements.

4. Residence Requirement – as defined in Board Rule 6201.13

1. Curriculum Alignment:
   a. In order to ensure that local requirements are aligned with the California State University General Education Breadth (CSUGE Breadth) and Intersegmental General Education Transfer Curriculum (IGETC) patterns, all courses meeting the following requirements will be honored as satisfying the competency requirements for the Associate Degree.
   b. Completion of a course that meets the California State University General Education Breadth (CSUGE Breadth) requirement in Area A2: Written Communication and/or the Intersegmental General Education Transfer Curriculum (IGETC) in Area 1A: English Composition shall meet the reading and written expression competency.

   a. Students must complete no fewer than 12 units at the college conferring the degree.
   b. When the same major is offered at multiple colleges in the LACCD, the degree shall be conferred by the college where the student has taken the majority (greater than 50.0%) of units in the major.
   c. Exceptions to residence requirements for the associate degree may be made by the governing board when it determines that an injustice or undue hardship would be placed on the student.

6. Major requirements: A minimum of eighteen (18) semester units of study taken in a single discipline or related disciplines.

7. General requirements: Successful completion of a minimum of twenty-one (21) semester units in General Education which shall include not less than the minimum number of units indicated.

Course Equivalency
Advanced Placement (AP), International Baccalaureate (IB), and College-Level External Examinations CLEP, for purposes to meet General Education and graduation competency requirements for the Associates Degree, please refer to the LACCD AP, IB, and/or the CLEP credit chart.

Double-Counting of Coursework
A course may only be counted once for General Education purposes. However, a course may be used to simultaneously satisfy both a General Education requirement and a major/area of emphasis requirement.

There is no limit on the number of courses that may be used simultaneously in this manner. Students may also simultaneously apply the same course toward satisfaction of the LACCD General Education Plan, the CSU GE Breadth Certification requirements and the Intersegmental General Education Transfer Curriculum (IGETC) requirements.

Second and Concurrent Associates Degree Requirements

Additional Associate Degrees
Students who have previously earned an associate degree from a United States regionally accredited institution will be granted an additional associate degree when the following requirements have been met:

1. Pursuant to catalog rights, described in Board Rule 6202, completion of all current degree requirements – i.e., scholarship, residency, competency, general education and major requirements.
2. Completion of a minimum of six (6) new units in a major. Major course requirements completed in previous degrees awarded can be used again for additional degrees.

3. All courses that count towards the associate degree major or area of emphasis must be satisfactorily completed with a grade of “C” or higher or “P” (pass).

4. There is no limit to the number of additional associate degrees that can be awarded provided that all the above requirements have been met.

5. Completion of any additional requirements, including new units, as determined by the college through collegial consultation with the college Academic Senate in accordance with the provisions of Chapter XVII of the Board Rules – Academic Senate and the Board of Trustees Shared Governance Policy

**Concurrent degrees**

Concurrent degrees are degrees awarded in the same semester. Students may petition and be awarded concurrent associate degrees in different majors if the following criteria are met:

1. Pursuant to catalog rights, described in Board Rule 6202, completion of all current degree requirements: scholarship, residency, competency, general education and major requirements.

2. There is no maximum number of concurrent degrees that a student may be awarded.

3. If a course is a major requirement for each concurrent degree, it may be applied toward satisfaction of each major degree requirement.

4. Completion of the General Education requirements for one associate degree will fulfill the general education requirements for concurrent degrees, if the same general education pattern applies to the additional degree. If each degree requires the completion of different general education patterns, the general education pattern of each degree must be fulfilled. Courses may be applied toward the general education requirements for each concurrent degree.

5. All courses that count towards the associate degree major or area of emphasis must be satisfactorily completed with a grade of “C” or higher or “P” (pass).

6. The LACCD does not offer double majors.

**Continuous Attendance**

“Continuous attendance” means no more than one semester absence within a school year, excluding Summer Sessions and Winter Intersession.

Students granted a “military withdrawal” under the provisions of Board Rule 6701.10, will be considered to be in “continuous attendance” for their required period of military service.

**Graduation Petitions for Degree**

Students who are eligible for graduation from Los Angeles City College must file a Graduation Petition with the Admissions Office. Please contact Admissions Office for deadlines.

**Graduation With Honors**

Students who qualify may graduate with honors from Los Angeles City College. There are three categories under which such students may graduate:

1. Summa Cum Laude is granted to students who have maintained a 3.9+ grade point average in all work taken at Los Angeles City College.

2. Magna Cum Laude is granted to students who have maintained a 3.7+ grade point average in all work taken at Los Angeles City College.

3. Cum Laude is granted to students who have maintained a 3.5+ grade point average in all work taken at Los Angeles City College.

**Certificate of Achievement Requirements**

A “Certificate of Achievement” is issued in State approved programs designed for students who are looking for instruction with a high degree of specialization. Certificate programs vary in length, but must have 18 or more semester units, and may be pursued on a full-time or part-time basis. Career and Technical Career Education (CTE) certificate programs are usually one-year educational programs that offer courses needed to prepare students for immediate employment. A Certificate program is specific, and no course substitution will be permitted unless approved by the department. A grade of “C” or better is required in each course required for the major.

A “Skill Certificate” is issued by the department offering the certificate for programs requiring 17 semester units or less. Skill Certificates are designed for those students who have limited time, or who wish to limit their commitment to a particular field of study. Students may seek increased job-related specialization, job advancement, or preparation for new employment. Courses that make up a Skill Certificate may apply toward a Certificate Program or Associate Degree. A grade of “C” or better is required in each course required for the major. Always consult a counselor for verification.

Transfer Requirements

Students who plan to earn a bachelor's degree should take a pattern of courses designed to complete the lower-division preparation for their major and the general education pattern of the college to which they will transfer.

Students also have the option of choosing to follow the Intersegmental General Education Transfer Curriculum (IGETC) for UC or CSU campuses, or the CSU G.E. breadth requirements which will enable them to complete their lower-division general education courses at Los Angeles City College. Los Angeles City College can provide lower-division preparation for various majors at most California public and private four-year institutions.

For the purposes of classification, students who are paralleling the work of four-year colleges and universities are deemed to be “transfer students.”

Two principal kinds of requirements must be met in order to attain full junior standing at the University of California or other institutions maintaining equivalent standards to which students expect to transfer:

1. Completion of the specific requirement for junior standing in the proposed college or university; or
2. Completion of the lower-division prerequisites for upper division majors and minors. Prerequisites vary according to the institution of higher education in which students expect to enroll.

NOTE: Students are strongly advised to gather as much information as possible about their chosen transfer college or university. Counselors will assist students with the transfer process, including appropriate course selection and information regarding the admissions process and requirements. However, it is up to each individual student—working with a counselor—to decide upon an educational goal, to take responsibility for devising a long-range educational plan to achieve this goal, to read the catalog of his or her chosen transfer institution, and then to choose the appropriate Los Angeles City College courses to satisfy the requirements for transfer to that college or university. We also recommend students to visit the University Transfer Center for guidance on transfer requirements (AD 109).

Courses Which May Be Used in CSU or IGETC patterns:

1. Courses that are required for the major may also be used for general education.
2. A course found in more than one area may be counted only once.
3. Courses taken at other California Community Colleges are counted only in the area(s) where they are listed for that college.
4. Courses taken at a foreign institution may not be used on the UC/CSU Certified Plan.
5. Courses required for the major must be completed with a grade of “C” or higher.

California State University (CSU) Admission

Students intending to transfer to a California State University campus should plan a program to meet the graduation requirements of the specific institution which they plan to attend. Transfer admission eligibility is based on transferable college units. Consult the catalog issued by the individual campus for a complete description of the curricula or with a counselor in the Counseling Office.

Applicants who are California Residents and who have completed 60 to 70 transferable semester units (84-105 quarter units) are eligible for admission if (a) they are in good standing at Los Angeles City College, and (b) have achieved a 2.0 or better grade-point average in all college units attempted (non-residents, 2.4 or better). Any student applying for admission for Fall 1998 or later must complete Area A1. Oral Communication, A2. Written Communication, A3. Critical Thinking, and Area B3. Mathematics/Quantitative Reasoning for admission.

Departmental Majors

In some transfer programs, Los Angeles City College does not offer all courses required by the departmental major. It is essential, therefore, to refer to the appropriate California State University catalog for complete departmental majors. Since many of the Departmental Majors Requirements are revised after a college catalog has been printed, students are also urged to consult with a counselor for current information.

General Education Requirements

The following program meets the needs of the student for essentially all the California State Universities; however, due to the fact that the requirements for general education often change. It is essential for students to consult with a counselor for information about any recent changes.

To be eligible for the Bachelor’s degree from a State University, the candidate must have completed a minimum of 48 semester units of General Education requirements. At least 9 semester units must be upper division and must be earned at the campus granting the degree. The California Administrative Code authorizes Los Angeles City College to certify that the student has completed the lower division portion of the General Education requirements, i.e., 39 semester units, from the pattern listed below.

The CSU General Education-Breadth (GE-Breadth) program allows California community college transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer. This plan is governed by the California State University system.

The 39 semester/58 quarter units required for CSU GE-Breadth are distributed as follows:
California State University General Education (GE) Breadth Requirements 2017 - 2018

(EFFECTIVE FALL 2017)

CSU: Bakersfield, Channel Islands, Chico, Dominguez Hills, East Bay (formerly Hayward), Fresno, Fullerton, Humboldt, Long Beach, Los Angeles, Maritime Academy, Monterey Bay, Northridge, Pomona, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, San Marcos, Sonoma, Stanislaus

IMPORTANT INFORMATION

Courses on this list are approved for a specific academic year, which begins with the Fall 2017 semester and remains valid through Summer 2018.

The general education courses listed for the CSU system are specified within subject areas that satisfy lower division general education requirements for the CSU campuses. Students wishing to use a course to fulfill a CSU General Education requirement must be sure that the course is approved for the academic year in which it is taken. The CSU general education form changes each year. It is advised that students meet with a counselor regularly to review any changes. A course must be on the CSU GE Breadth during the term in which it is taken. If a course is taken before it is approved for inclusion, or after it is removed from the list, it cannot be used to meet the area requirement.

CSU GE Breadth certification is available to community college transfer students who satisfy the general education requirements in each area. “Certification” means that LACC has verified that a student has completed the lower division General Education requirements listed in each area of the CSU GE Breadth. Certification does not guarantee admission or admission eligibility.

Students with full CSU GE Certification will only be responsible for an additional 9 semester units of upper division general education at the CSU campus. CSU Certification is not required and is not automatic; it must be requested by the student at the time the final official transcript is sent. Without certification, the student will be held to the specific general education requirements of the CSU campus of choice.

Students who have taken courses at other colleges can have these courses “passed along” in the certification process. Los Angeles City College will certify courses taken at other California Community Colleges in the areas designated by the offering college. Courses taken at California four-year colleges, or accredited out-of-state two-year, or four-year colleges, will be evaluated by the LACC Admissions Office Evaluators and/or Counseling Faculty. Courses from foreign institutions cannot be used in the certification process. Students requesting CSU GE “pass along” certification must complete at least 12 units in residency at Los Angeles City College.

ADDITIONAL INFORMATION

1. Course cannot satisfy more than one General Education area requirement (even if listed under multiple areas).

2. Courses used to satisfy General Education requirements may also satisfy Major Preparation requirements.

3. LACC recommends that students complete the lower division requirements for the major before transfer. Major preparation requirements can be accessed on www.assist.org, the official source for California articulation and student transfer information. Other lower division courses that are not offered at LACC may be required for the major after transfer.

4. Students who transfer to CSU may also complete an Associate degree at LACC by completing courses in the major (please see a counselor for major-specific information) and the CSU GE Pattern.

5. Completion of the General Education requirements will not guarantee admission into a university but can increase the student’s chances for acceptance.

6. Areas A1, A2, A3 and B4 must be completed with a “C-” or better for admissions eligibility to a CSU campus.

7. All coursework must have a cumulative GPA of 2.0 (“C”) or better.

8. The CSU GE Breadth pattern may not be the best general education preparation pathway for ALL majors (such as Engineering, Computer Science and Liberal Studies – Teacher Prep). Please consult with a counselor to determine the best plan to meet your educational goals.

**General Education Certification For the California State University**
A student planning to transfer to the California State University system should request to have their general education units certified by Los Angeles City College.

General Education Certification is a contractual agreement between Los Angeles City College and the California State University and Colleges. Students meeting the requirements for Full Certification will have met the necessary requirements...
Students eligible to enter the University directly on graduation from high school may transfer at any time provided their grade-point average is 2.0 or better.

As an integral part of the system of public education in California, the University accepts, usually at full unit value, approved transfer courses completed with satisfactory grades in the public community colleges of the State. Such transfer courses are limited, however, to a maximum of 70 semester units or 105 quarter units.

In addition, credit is allowed for having completed with high scores certain tests of the College Board. These include Advanced Placement Examinations and International Baccalaureate Examinations.

Intersegmental General Education Transfer Curriculum (IGETC)

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program which community college transfer students can use to fulfill lower-division general education requirements at either the CSU or UC system without the need, after transfer, to take additional lower-division general education courses. This policy is governed by the Intersegmental Committee of the Academic Senators (ICAS). Completion of IGETC is not an admissions requirement.

Some students may be better served by taking courses which fulfill the CSU General Education Breadth requirements or those specific major requirements of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower-division major preparation such as Engineering or business majors at UC Berkeley may not find the IGETC option to be advantageous.

The IGETC will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus. Please see a counselor for more information.

If you are planning to transfer to any of the California State Universities or University of California systems, you need to have your course work in IGETC certified by Los Angeles City College. You MUST REQUEST certification at the time you order your final transcript. In addition to the course requirements for each Subject area, full certification for the CSU must include completion of the Oral Communication requirement. For the UCs, Oral Communication is not required, but the certification must include satisfaction of the foreign language proficiency requirement.

ALL COURSES MUST BE COMPLETED WITH A GRADE OF “C” OR BETTER

**IGETC FAQs**

**Q** What is the Intersegmental General Education Transfer Curriculum (IGETC)?

**A** IGETC is a general education pattern which community college transfer students can follow to fulfill lower-division general education requirements for either the UC or CSU systems. This pattern is advisable for students who are undecided about their transfer goals because it keeps their options open. Many private/independent colleges/universities also recognize or accept IGETC (check with a counselor for details).

**Q** Is IGETC an admission requirement?

**A** NO. There is no connection between completion of IGETC and eligibility for admission to the CSU or UC system.

**Q** What alternatives to IGETC exist?

**A** Community college students who are CSU-bound have the option to complete the CSU General Education Breadth requirements. Students who are UC-bound have the option of completing the general education requirements of the destination UC campus or the minimum UC transfer admission requirements as listed on ASSIST.org

**Q** Is it advisable for all transfer students to follow IGETC?

**A** NO. Not all majors should follow IGETC. Students pursuing majors that require extensive lower-division major preparation (i.e. Engineering) may not find IGETC advantageous, and the transfer institution may advise following the minimum UC eligibility requirements listed on ASSIST.ORG.

**Q** What are the minimum UC Transfer Eligibility Requirements for junior-level transfer students?

**A** Minimum Admission Requirements:

- 60 UC transferable units
- 2.4 cumulative GPA (impacted campuses and majors may require higher GPAs)
- No more than 14 semester units taken Pass / Not Pass (P/ NP)
- 7 UC transferable GE courses as follows:
  - 2 courses in English composition
  - 1 course in Mathematical Concepts and Quantitative Reasoning
  - 4 courses chosen from at least 2 of the following subject areas:
    - Arts and Humanities
    - Social and Behavioral Sciences
    - Physical and Biological Sciences

**Q** Will all UC and CSU campuses accept IGETC?

**A** UC San Diego’s Eleanor Roosevelt and Revelle Colleges and UC Berkeley’s Haas School of Business will NOT accept IGETC.

**Q** Can I use Advanced Placement (AP) exams for IGETC?

**A** YES. AP exams may be applied to IGETC with passing scores. For details, see the AP Chart in the LACC Catalog.

**Q** What is “IGETC Certification” and how do I request it?

**A** IGETC certification is the process by which the community college verifies that a student has completed all the required coursework for the IGETC pattern (partial completion is possible, if missing up to two courses), which is sent directly to the transfer institution. If IGETC is not certified, students may be subject to the lower-division general education requirements of the campus to which they transfer. Request IGETC Certification when ordering your transcripts in the Admissions & Records at the end of the last semester enrolled before transferring.

**Independent Universities**

Transfer admission requirements of independent colleges and universities vary, as do course transferability and course credit allowed. Students should consult the College Catalog for their intended transfer institution for specific transfer admission requirements, general education and major preparation requirements and course transferability and/or see a counselor for additional transfer information/articulation. Visit the University Transfer Center (Student Services Building) for more information.

**Historically Black Colleges & Universities Transfer Information**

The Historically Black Transfer Project was developed to offer a smooth and seamless student pathway from California Community Colleges to targeted Historically Black Colleges and Universities. Students, by preparing to transfer to the University of California or the California State University systems may also be eligible for admissions to targeted HBCUs.

Students completing California State University General Education breadth requirements or the Intersegmental General Education Transfer Curriculum (IGETC) with full certification, an Associate degree and a 2.5 or higher Grade Point Average are guaranteed admissions at the junior level to the HBCU partners.
Students with 30 or more California State or University of California transferable units and a 2.5 or higher grade point average are also guaranteed admissions with full acceptance of transferable units.

Historically Black Colleges and Universities are typically much smaller in student size than most of the California public institutions. The majority of classes are taught by professors rather than teaching assistants, in a nurturing and supportive environment. There also tends to be more opportunities for student leadership development.

All of the HBCUs that have partnered with California Community Colleges are private except one. The tuition costs for private HBCUs are typically a fraction of the costs of private institutions in California.

The one state university partner, Lincoln University in Missouri, will offer in state tuition for California Community College students.

**Associate Degrees for Transfer (ADT)**

**REQUIREMENTS FOR THE ASSOCIATE IN ARTS FOR TRANSFER (AA-T) OR ASSOCIATE IN SCIENCE FOR TRANSFER (AS-T) DEGREES**

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees priority consideration for admission to a California State University (CSU) campus for any community college student who completes an “Associate Degree for Transfer”, a newly established variation of the Associate Degrees traditionally offered at a California community college.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a Bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed priority consideration for admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a Bachelor’s degree (unless the major is a designated “high unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

**Requirements**

The following is required for all AA-T or AS-T degrees:

1. Minimum of 60 CSU-transferable semester units.

2. Minimum grade-point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.

3. Completion of a minimum of 18 semester units in a “AA-T” or “AS-T” major. All courses in the major must be completed with a grade of “C” or better or a “P” if the course is taken on a “Pass-No-Pass” basis (Title 5, 55063).

4. Completion of the California State University General Education-Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) pattern

**COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)**

The Course Identification Numbering System (C–ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at the college can be assured that it will be accepted in lieu of a course bearing the C–ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org to confirm how each college’s course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualify for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Counselors can always help students interpret or explain this information.

PROGRAMS OFFERED

Associate of Arts

Child Development
program is accredited by the American Dietetic Association and serves as a unique program in the region. To assist students in meeting their academic goals, the Child Development program administers three dynamic support programs that include the Child Development Training Consortium, and the California Early Childhood Mentor Teacher Program.

Program Mission
The mission of the Child Development program is to provide learners with multiple pathways that prepare them to become dynamic, responsive, authentic, and informed early childhood education professionals.

Child Development certificates and degrees provide students with the coursework and the field experience needed for a career in Early Childhood Education. LACC’s Child Development curriculum is aligned with the State’s Child Development Permit Matrix to prepare students for positions in early care and education. Students are trained as educators for a variety of private and public early childhood education programs including Head Start, State Pre-School, and unified school district early care and education programs. Graduates teach or administer in programs for infants, pre-schoolers, children with special needs, and in before and after school-age programs. Many students begin their career as assistant teachers, then with additional coursework and experience, are able to move up the career ladder to become lead teachers or site supervisors.

Program Notes
Students beginning their coursework for certificates and degrees in Child Development must be aware of the following:

- Mantoux test: Some Child Development courses may require students to obtain a Mantoux test for Tuberculosis clearance. The college’s Health Center provides this service. Please call ahead to schedule a Mantoux test and reading at 323-953-4000, Ext. 2485.
- CPR Training: Your employer may require you to take a 15 hour Cardiopulmonary Resuscitation class. This class covers training on basic first aid for infants and children, CPR techniques and information on basic health and sanitation procedures.
- Child Development Training Consortium (CDTC): If you are currently working in a paid position in a licensed Early Childhood Program serving infants to kindergarten, or before and after school-age programs, and are taking Child Development or General Education units towards a Child Development Permit, you may qualify for partial reimbursement of your fees, books, or other expenses at LACC. For more information contact: Mary Skousen Radford, 323-953-4000, Ext. 2297, skouseme@lacitycollege.edu.

PROGRAMS OFFERED

Associate of Science
Dental Technology
Certificate
Dental Technology

Dental Technology (often referred to as Dental Laboratory Technology) is a career in the design and manufacturing of dental prosthetic devices (dentures, partial dentures, crowns and bridges) and orthodontic devices (both passive and active retainers). Dental Technicians and technologists usually work in a commercial dental laboratory which is separate from the dental practice. Salary is based upon knowledge level, experience and speed of manufacture among other aspects. Dental technicians receive dental impressions and prescriptions (work authorizations) from the dentist, apply their expertise and return the prescribed appliance to the dentist for placement in the patient’s mouth.

Entrance into the Dental Technology Program

All candidates for the Dental Technology Program must have a high school diploma or G.E.D. Getting selected into the LACC Dental Technology Program is a two part process. First the candidate must enroll in DEN TEK 100 (Introduction to Dental Laboratory) and DEN TEK 102 (Dental Anatomy and Terminology). Candidates for the Dental Technology Program must complete these (2) two courses with a grade of “C” or better. Students who receive a D, F, W, or Incomplete grade will not be considered for entrance into the Dental Technology Program.

The second part of the process is to take the Dental Technology Dexterity Exam that will be given on the 10th class meeting of the DEN TEK 100 course. This exam is not a pass/fail exam and there is no way to study for it. The Dexterity Exam gives the selection committee an accurate indication of hand/eye coordination and three-dimensional ability of each candidate. These qualities are necessary for a dental technologist to have. The candidates are ranked according to their individual results with all of the other dental technology candidates. The top 18 candidates out of the testing cohort are invited to enter the Dental Technology Program. If a candidate is not selected into the Dental Technology Program, the candidate may request to retake the Dental Technology Dexterity Exam when it is given in the next testing cohort.
The Associate of Science Degree Program and the Certificate Program are identical from a course sequence standpoint. The only difference is the general education requirements taken outside of the Dental Technology Department.

In order to minimize the potential for the spread of infectious diseases amongst patients and dental personnel, Dental Technology students and staff are highly encouraged to be immunized against and/or tested for infectious diseases such as mumps, measles, rubella, hepatitis B, and tuberculosis. If you have any questions regarding your immunization status or recommended immunizations for health care workers, please consult your personal physician. If you would like to learn more about Dental Technology program policies and procedures regarding infection control, you may contact the department at (323) 953-4000 x2500.

Certificate of Achievement
(Program: 124030 State Code: 21626)

This curriculum is specifically designed to provide students with the skills, knowledge and background necessary to become a dental technologist in either a commercial dental laboratory or dental office laboratory. Good eye/hand coordination, communication skills and the ability to follow directions are requisites for successful entrance into this program. Students selected for each new group are admitted into the program based upon their successful completion of DEN TEK 100 course; their dexterity exam score administered during the DEN TEK 100 course; evaluation of the student's level of commitment and determination and the ability to follow
directions. All candidates for the Dental Technology Program must have a high school diploma or G.E.D. Completion of each Dental Technology course in a particular sequence with a grade of “C” or better is required before the student may progress into the next level of courses in the sequence. Successful students who complete all the Dental Technology courses will be eligible to sit for the Recognized Graduate Certified Dental Technologist Exam given by the National Board for Certification of Dental Technologists.

A certificate in Dental Technology will be issued by the College upon successful completion of all Dental Technology courses.

Program Student Learning Outcomes
1. Understand, interpret and follow the instructions provided by the dentist.
2. Incorporate the dental anatomy, morphology, gnathological knowledge and science of dental materials into their constructions.
3. Design and construct basic orthodontic restorations, partial and full removable dental prosthesis.

Paralegal Studies

The Paralegal Studies Program is approved by the American Bar Association. It is offered by the Law Department to students who are interested in working in the legal field. Paralegals assist attorneys in providing legal services in civil and criminal matters. Paralegal training is also valuable to persons seeking employment in fields such as real estate, insurance, banking, or brokerage. Employment of paralegals and legal assistants is projected to grow 8 percent from 2014 to 2024, about as fast as the average for all occupations. This occupation attracts many applicants, and competition for jobs will be strong. Experienced, formally trained paralegals with strong computer and database management skills should have the best job prospects. The paralegal program is designed to provide students with high quality paralegal training, and on-the-job experience through internships. The paralegal program is flexible and accommodates day, evening, and weekend students.

Mathematics

The LACC Mathematics Department offers classes from Pre-Algebra to Advanced Calculus and Differential Equations. Our students successfully transfer to prestigious university programs including Cal State Universities, UCLA, UC Berkley and other UCs, USC and Cal Tech to name a few. And, LACC’s math team has consistently placed in the top 5 out of nearly 200 colleges in the National American Mathematics Association of Two Year Colleges Competition in recent years.

DEGREE PROGRAMS

ALL REQUIRED COURSES FOR THE MAJOR MUST BE COMPLETED WITH A GRADE OF ‘C’ OR BETTER IN ORDER TO GRADUATE.

MATHEMATICS

Associate of Science Degree
(Program: 170100 State Code: 02754)

The curriculum shown below is designed to guide students in the Mathematics major and to encourage students to start courses in this major early in their college career. By completing this curriculum, students will be ready to compete in this major with other students at a four-year college or university. Whether or not students elect to receive the Associate of Science degree, the courses listed below are those that will prepare them to enter their transfer institutions fully prepared to pursue the Mathematics major. Depending on your preparation, you may need additional prerequisite courses before entering this program.

Program Student Learning Outcomes

1. Graph functions using the first and second derivatives and use integration to find areas and volumes bounded by functions.
2. Identify and graph the appropriate (logarithmic or exponential) function to model the situation.
3. Set up a triple integral to find the volume of a given solid bounded by the graphs of equations of surfaces, then evaluate the integral using multivariate change of variables.
4. Find the four fundamental subspaces of the coefficient matrix of an over-determined system of equations and relate these subspaces to the least squares solution. The student will find the least squares solution to the system of equations.
5. Given a higher order, linear differential equation, the student will solve it by three methods: Laplace Transform, method of eigenvalues, and solution by series substitution.

PROGRAMS OFFERED

Courses Only - No Degree/Certificate

Too often when we hear "philosophy" the thought of old statues and ancient writings comes to mind. In fact, philosophy is alive and well and critical to our everyday decision making and the decisions made by business, religious institutions and governments around the world. Additionally, examining the principles of philosophy helps in becoming a more ethical and organized thinker. These skills are critical for future managers. The logic skills gained can benefit anyone and especially aspiring lawyers who will need to present well structured arguments.

The LACC program is nationally recognized as one of the most outstanding of its kind. Students interested in photography as a hobby or because it relates to their career goals (e.g., journalism, public relations, art, real estate, business, cinema, etc.) will also benefit greatly from our class offerings.

HEALTH ADVISORY FOR PHOTOGRAPHY
Because students enrolled in the Photography program are required to precisely mix photographic chemicals, some of which are toxic, it is advisable that a student be able to clearly understand oral instructions and reading materials that are distributed in class and lab. RADIOLOGIC TECHNOLOGY

Associate of Science Degree
(Program: 122500 State Code:02749)

Radiologic Technology is a health care profession whose practitioners work in hospitals, clinics, free standing imaging centers, and private offices. The Radiologic Technologist (Radiographer) is a member of the health care team who works directly with the patient and the physician performing a wide variety of diagnostic X-ray procedures. The Radiographer must be proficient in the knowledge of radiographic exposure, anatomy, patient positioning, the operation of specialized equipment, and in the care and management of the patient. The rapid expansion of medical diagnostic imaging has greatly increased the diversity and utility of medical diagnosis. A career in Radiologic Technology offers vast opportunities for advancement.

The Radiologic Technology curriculum is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the California Department of Public Health (CDPH). The clinical educational centers are accredited by the Joint Commission for the Accreditation of Health Care Organizations (JCAHO). Los Angeles City College is accredited by the Western Association of Schools and Colleges.

Students who complete the curriculum, including the clinical education requirements, will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists and the State of California Department of Public Health (CDPH).

Admissions to the Program:

- Prerequisite courses for entrance into the Radiologic Technology Program are: Anatomy 1, Physiology 1, English 101, Mathematics 125 or higher, and Radiologic Technology 200, 201, and 202. (Effective Fall 2013, all students must complete RT 200 & 202 at Los Angeles City College.)

- All new LACCD students (effective Fall 2013 semester) must complete the general education requirements prior to applying for entry into the Radiologic Technology program (an exception to this rule is if students already possess an Associate or Higher Degree from a Regionally Accredited Program). This change corresponds to the ARRT 2015 Associate Degree requirement. https://www.arrt.org/Certification/Academic-Degree-Requirement

- Five Year Recency Requirement for Science Courses: All completed prerequisites science courses must be completed within a five (5) year time frame. This means the Anatomy (4 units) and Physiology (4 units) must be completed within this time frame. (Students that have taken Anatomy or Physiology in a LACCD campus may audit the courses and provide documentation that they have successfully re-taken the courses.)

- An application form, to be submitted online through the LACC Radiologic Technology Department website at: http://www.lacitycollege.edu/academic/departments/radtech/index.html
Program Student Learning Outcomes
1. Position the student to demonstrate the requested anatomy required by the physician to show the presence or absence of disease.
2. Effectively and efficiently assess the patient’s condition and communicate relative information to doctors, the patient, family members, and other hospital staff.
3. Administer ionizing radiation, ethically and judiciously, to the patient following the principle of “as low as reasonably achievable”.
4. Employ patient care practices based on acceptable ethical behavior and established standards within their scope of practice.
5. Pass the registration and licensing examinations offered by state and national accrediting organizations.
6. The student will be able to pass the American Registry of Radiologic Technology examination in Radiography.
