ACCURACY STATEMENT

The LACC Catalog contains the academic and administrative policies and regulations that govern enrollment of students at Los Angeles City College. Students are responsible for knowing academic and administrative policies and regulations affecting their program of study and for abiding by all such policies and regulations during their period of enrollment at the College.

The Catalog is not an offer to enter into a contract. LACC reserves the right to make changes to degree program requirements, academic and administrative policies and regulations, financial charges, and course offerings published in the Catalog at any time without prior notice. The College strives to assure the accuracy of the information in the Catalog. However, the College and LACCD reserve the right to make modifications and updates as necessary to the Catalog.

Students and members of the public who desire to file a formal complaint related to noncompliance with accreditation standards (https://accjc.org/complaint-process) may contact the Accrediting Commission for Community and Junior Colleges (ACCJC) directly. The commission can be contacted at: Accrediting Commission for Community and Junior Colleges; Western Association of Schools and Colleges; 10 Commercial Boulevard, Suite 204; Novato, CA 94949; Telephone: (415) 506-0234; Fax: (415) 506-0238.

ASSESSMENT OF STUDENT LEARNING OUTCOMES

A student learning outcome (SLO) is a statement that describes specifically what students should be able to do after completing any set of college experiences, a course, an instructional program, or an interaction with a student support service. Students are advised to become familiar with the learning outcomes for each of their courses, their chosen program of study, and for the student services they utilize. Course SLOs can be found on the course syllabus that students receive in each class section. Program SLOs are listed in this catalog.

Students participate in outcomes assessments by completing assignments, portfolios, projects, and exams that are already part of the course requirements. LACC then engages in a systematic assessment process to evaluate how well students are achieving our defined outcomes. Results are used to modify programs and courses to improve student learning. Learn more about outcomes assessment at the SLO Guide for Students website, http://tinyurl.com/laccsloforstudents

About LACC
Set on an attractive 49 acres, Los Angeles City College was the original location for UCLA before it moved to Westwood, CA. The college facilities include more than a dozen multistory classroom buildings including a library, computer labs, fitness centers, theater, and TV/film studios.

Through a $147 million bond award, the college is further enhancing itself with a new and advanced technology/learning facility, increased parking, and expanded athletic/fitness and child development centers. (Note: LACC does not provide campus housing. However, inexpensive rentals are available in the surrounding community.)

Our student body is one of the most diverse in the country. Students range in age from late teens to seniors and come from every ethnic group, culture and country in the world. We are proud to have ranked 35th among all community colleges across the country in awarding 2-year certificates to students; 33rd in awarding Associate Degrees to minority students; and 23rd in awarding Associate Degrees to Hispanic students. (Community College Week, June 24, 2002, Online Edition.)

We also offer distance learning (taking classes via computer and/or video) through Instructional Television and online courses.

History
Los Angeles Junior College was established on September 9, 1929, by the Los Angeles Board of Education. Dr. William H. Snyder served as the institution’s first director. During its first year, we offered only first-semester courses. The “semi-professional courses” were for students who wanted to limit their college education to two years, and the “certificate courses” were for those looking to continue toward university work. There were more than 1,300 students taught by some 54 faculty. The first Associate in Arts degrees were conferred June 19, 1931.

Governance of LACC has changed through the years. Until 1931, it was a division of the Los Angeles Secondary School District. In 1931, the electorate voted to establish a separate Los Angeles Junior College District. In 1938, the Board of Education changed the name to Los Angeles City College. In July 1969, the California State Legislature enacted legislation allowing the separation of the nine-campus Los Angeles Community College District from the Los Angeles Unified School District. A seven member Board of Trustees was elected and formally assumed governance. (The other eight colleges in the LACCD are: East Los Angeles College; Los Angeles Harbor College; Los Angeles Mission College; Pierce College; Los Angeles Trade-Technical College; Los Angeles Valley College; Los Angeles Southwest College; and West Los Angeles College.)

The chief executive officers of Los Angeles City College since its founding have been:

- Dr. William H. Snyder, Director 1929-1934
- Dr. Rosco C. Ingalls, Director 1934-1945
- Dr. Einar W. Jacobsen, President 1946-1948

District Philosophy

The Los Angeles Community College District (LACCD) affirms the principle that individuals should have opportunities to develop to their full potential. To that end, our main responsibility is to students and to providing an education that benefits students and enables them to contribute to society. The LACCD colleges, therefore, should be accessible to all individuals who have the capacity and motivation to profit from higher education. Curricula and services of our colleges should provide means for fulfilling the promise of open access.

We recognize the necessity to adapt to the changing educational needs of the LACCD communities and to the growing diversity among students. The quality of the educational experience is judged by its value to students and communities, not merely by quantitative appeal. We further recognize that academic freedom is essential to excellence in education. Los Angeles City College empowers students from the diverse communities it serves to achieve their educational and career goals by providing learner-centered pathways to success through transfer, career and technical education, and foundational skills programs.

Mission

Los Angeles City College empowers students from the diverse communities it serves to achieve their educational and career goals by providing learner-centered pathways to success through transfer, career and technical education, and foundational skills programs.

Functions of the LACCD Colleges

To accomplish the educational philosophy and mission of the Los Angeles Community College District, Los Angeles City College offers the following types of educational programs.

student records. A student who intends to transfer to another college or university should consult the catalog of that institution. The Transfer Requirements section of this catalog gives general education requirements for the California State University, and breadth requirements for the University of California, as accurately as could be determined at the time of publication of this catalog.

Admission Application

The first step to becoming a college student is to submit a college application. The college application is available online at the college website www.lacitycollege.edu. After the submission of a college application, the applicant will receive a Student ID and instructions on how to login to the Student Information System portal and campus email account.

All new students accepted in FALL 2018 will receive a Student ID number that begins in “90”. Any corrections to the Student ID or merging of multiple Student IDs must be made in the Admissions and Records office.

For assistance in completing the online application, prospective students should visit the campus Welcome Center located in the Student Services Building.

Re-Admission Policy

The college has a policy for readmission of students who missed two or more semesters of attendance. Students who missed two or more consecutive semesters (FALL or SPRING) must file a new application.

Concurrent And Dual Enrollment

Concurrent and dual enrollment pertains to middle and high school students who wish to enroll in a college course. Middle and high school students must submit a “Supplemental Application for Admission of Students in Grades K-12” for every academic term in which they plan to enroll.

Students under the age of 14 must also request an interview with the Dean of Enrollment Services for approval prior to admittance and provide a recommendation letter from a middle or high school official and academic transcripts.

Admissions Eligibility Requirements

Prospective college applicants must possess a high school diploma or its equivalent meet the basic eligibility requirements for admission.

Prospective students who do not possess a high school diploma or its equivalent would be eligible for admission if they meet the following additional eligibility requirements:

- Be at least eighteen (18) years of age, or
- Be an apprentice, as defined by Section 3077 of the California labor Code, or
- Concurrently enrolled in K-12 under concurrent and dual enrollment status

Residency Classification

The residency classification determines the amount of enrollment or tuition fee that a student will be required to pay to enroll in classes. In addition, the residency status is used to determine student eligibility for the California Board of Governor’s Fee Waiver.

California Residency

To be classified as a California resident, a prospective student must have resided in California for at least one year and one day preceding the student’s Residence Determination Date. The Residence Determination Date is the day before the opening day of instruction of any given semester.

A student who does not meet the California residency status requirement is classified as a non-resident. Students with non-resident classification must pay an additional non-resident fee established by the LACCD Board of Trustees.

International students with F1 or M1 Visa status are classified as non-resident and subject to the required non-resident fees.

Appeal of Residency Status

Except for International students, students with an initial determination of non-resident status have the right to appeal their residency status. To do so, the non-resident student must complete and submit a Residency Questionnaire form to Admissions and Records. The Residency Questionnaire Form is available online in the Admissions and Records webpage. The form must be submitted within 30 calendar days of non-resident notification and before the start of the semester in which the student is requesting a reclassification.

This plan basically consists of the educational goal and major which you intend to pursue, the classes you expect to take in order to achieve your goal and major, and the student services you expect to use in order to help you complete your college program.

The Veterans Administration will not pay for courses that do not fit in a veteran’s selected major.

1. 70 Unit Rule - Once a veteran has received an Associate Degree in any major, he/she is eligible for further training at the college only if he/she takes courses required for upper division status at his/her transfer institution, or if he/she changes his/her objective. 5. Transcript Annotation Military credit will be posted on student transcripts in keeping with the provisions of Administrative Regulation E-118.

Add and Drops for Veterans must be reported to the Veterans Clerk in the Admissions Office as soon as possible. To fail to do so may result in an overpayment or underpayment. The Veterans Administration holds the veteran responsible for reimbursement of overpayments.

Attendance Verification: Veterans must sign in with the Veterans Clerk from the 20th to 28th of each month or they will be discontinued from receiving benefits.

Academic Probation
In accordance with Title 38, Code of Federal Regulations, Part 21, 5253 (d) (4), “The school enforces a policy relative to standards of conduct and progress required of the student.” This means that for veterans and/or eligible dependents, if such a student fails to obtain a cumulative grade point average of 2.0 or better after three (3) consecutive semesters, his/her VA educational benefits will be discontinued.

Selective Service
Under Veterans Affairs, according to Duration Code section 66500, all male applicants to undergraduate admissions are obligated to register with the Selective Service.

Elective Credit For Military Service
In accordance with Administrative Regulation E-118, using the general petition process, the college will maintain a written record of previous education and training of the veteran or eligible person which clearly indicates that the student has
received appropriate credit for previous education and training, with the training period shortened proportionally. The student and the VA will also be notified of this process. Students must include a copy of their DD214, school transcripts, and/or course documentation with their petitions, and submit them to the Office of Admissions and Records.

Upon verification of completion of a Basic Training course in any of the armed services, the physical education graduation requirement will be waived. Waiver of the health education graduation requirement is not automatic; petitions will be evaluated on a case-by-case basis.

A veteran may also receive 6 units of elective credit for 181 days or more of active-duty service; such petitions will also be evaluated on a case-by-case basis. See Academic Policies, Credit for Military Service and Elective Credit for Military Training.

Fee Refund Policies

Full-Term Course Fees
A student will receive a full refund of the enrollment fee if they drop by the refund deadline. Thereafter, no refund is authorized, except when college action to cancel or reschedule a class necessitates the drop. After the refund deadline, a student may drop a course and apply the fee previously paid towards meeting the cost of the fee of a course to be added during the same semester. Please note that after the refund deadline there will be absolutely no refunds even when an added course has fewer units than a course that was dropped. For example, a student who enrolls in 3 units, then after the refund deadline drops those 3 units and adds another 3 units, will not be charged an additional fee. A student who enrolls in 3 units, then after the refund deadline drops the 3 units and adds 2 units, will not be charged for the 2 units and will not receive a refund for the difference between 3 and 2 units. SEE SCHEDULE OF CLASSES FOR DATES ON REFUNDS.

Short-Term Course Fee
A student will receive a full refund up to the end of a period of time equal to approximately 10% of the total class time. There will be no refunds after that time, unless a student must drop a class because it was canceled or rescheduled by the college administration.

Non-Resident Tuition Fee
Refunds of non-resident tuition for full-term or short-term courses are governed by the same policies as indicated above. Once the class is dropped prior to the deadline date, the non-resident student must request a refund in writing (a form is provided in the Business Office). All refunds for non-resident tuition will be by check and mailed to the student.

Audited Course Fee
Audited classes are not taken for college credit and cannot be dropped. No refund is given for audit courses no longer attended.

Parking Fee
Parking permits may be returned and refunded within the first four weeks of school at the Business Office.

Student Prerequisite or Co-Requisite Challenge Policy
STUDENTS WITHOUT PREREQUISITES MAY BE DROPPED FROM A COURSE BY THE INSTRUCTOR OR THE DEAN OF ADMISSIONS.
It is the student’s responsibility to know and to meet any and all course prerequisites and co-requisites. These requirements are indicated in the individual course description sections of this catalog or the accompanying catalog update. Students who are currently enrolled in the prerequisite course will be allowed to conditionally enroll in the next sequence-level course. Failure to successfully pass the prerequisite course with a "C" or better may result in exclusion from the sequential course. Students challenging prerequisites or co-requisites will be required to file proof of meeting these course requirements along with an appropriate "Challenge Form".

In keeping with requirements and provisions of Section 55003 of Title 5 and Section I.B. 1-3 of the Los Angeles Community College District Model Policy, Los Angeles City College has an established procedure by which any student who provides satisfactory evidence, may seek entry into a class according to the college’s challenge process.

Dropping Classes and Withdrawing From College
The student is asked to consult with a counselor when considering withdrawing from the College. Clearance of the record in courses where equipment has been issued is required when the student separates from such classes. Individual classes may be dropped by presenting a drop card at the Admissions Office information window. Students who cease attending class or classes officially or unofficially are Subject to the following regulations:

1. Dropping officially from a class or withdrawing from the College by the end of 20% of the term will prevent classes from appearing on the student’s permanent record.

3. Students are not permitted to drop a class or withdraw from the College after 75% of the term. Grades shall be recorded by the instructor based on the grade-point average of the student during the period of attendance. Students may receive a failing grade in any course when they stop attending class and do not officially drop the class.

“W” records count as attempted enrollment. Students are currently limited to three attempt in the same course.
STUDENT SUCCESS AND SUPPORT PROGRAM

Senate Bill 1456 revised and renamed the Matriculation Act of 1986 as the Seymour-Campbell Student Success Act of 2012. Signed by Governor Brown on September 27, 2012, the program began on January 1, 2013 and will be implemented through stages over a five year period.

The Student Success and Support Program (formerly Matriculation) supports the transition of new students into the college by providing services that promote academic achievement and successful completion of degrees, transfer preparation, career technical education certificates, or career advancement.

Effective Fall 2014, based on student responses to the Los Angeles City College application for admission, students will be identified as matriculating or non-matriculating. Students identified as matriculating are referred to core matriculation services: assessment placement, orientation, and counseling. Students must complete the assessment placement, orientation, and counseling (abbreviated student educational plan) prior to their priority registration date and time. The abbreviated student educational plan is provided during the in-person orientations. After registration and sometime during the semester, a comprehensive student educational plan must be completed within a reasonable time period by making an appointment to meet with a counselor. Non-matriculating students are exempt from participating in the core matriculation services, but are advised to access these services if they plan to pursue a degree or certificate.

All new non-exempt students are required to complete the Student Success and Support Program mandated core services:

Admissions

Students can complete an admissions application online at www.lacitycollege.edu. Students can also speak to a staff member at the Welcome Center (located on the 1st floor of the Student Services building) for assistance in completing the admissions application and to receive general campus information.

Assessment

The Assessment Center provides English, English as a Second Language (ESL) and mathematics assessments for placement in an appropriate courses based on the students' skill levels. Assessment is required for all new non-exempt students who have not received a waiver. Assessment is also available for continuing students who are eligible to re-assess and returning students who need to retake the placement test. Students can "drop in" and take the assessment test the same day or make an appointment to take the test when they feel they are prepared to do their best.

Orientation

All new, non-exempt students should complete the LACC college orientation prior to taking the assessment test. Students can complete the orientation online or schedule an appointment to do the orientation in person with a counselor. The Online Orientation is available via the LACC webpage. The Online Orientation introduces students to the campus policies, procedures, resources, support services and college programs which are available to help you make better, more informed educational and career choices. Failure to complete orientation will impact your priority enrollment.

Counseling/Student Educational Planning

Provides academic advisement and assistance in course selection, development of a Student Educational Plan, career planning, referral to appropriate student services, and Counseling Classes which are taught by counseling faculty.

First Semester Student Educational Planning (SEP)

Once students have completed the online orientation and have assessment results, they are required to make a Counseling appointment for an abbreviated student educational plan (SEP).

Comprehensive Student Educational Plan (SEP)

Before completing 15 units, or their third semester, students must declare a course of study and complete a Comprehensive Student Educational Plan (SEP). Students must meet with an academic counselor to develop a Comprehensive SEP. Counselors are also available by appointment for: academic counseling, career assessment and exploration and transfer information. Counselors are also available for Online Chat and Online Advising.

Failure to complete the Abbreviated or Comprehensive Student Educational Plan will impact your priority enrollment.

* EXEMPTION CRITERIA - Students may be exempt from SSSP core services if they:

FINANCIAL AID

Financial Aid Office
Student Services Building
(323) 953-4000 ext. 2010
http://www.lacitycollege.edu/stusvcs/finaid/

For more information, see the Financial Aid section at the beginning of this catalog.

What is Financial Aid?
Financial Aid is monies made available by federal and state governments and by private sources in the form of grants, scholarships, loans, and employment. This assistance makes it possible for students to continue their education beyond high school, even if they and/or their family cannot meet the full cost of the postsecondary school they choose to attend.

Eligibility for Financial Aid
To be considered for financial aid, students must generally meet the following minimum requirements:

• Be a U.S. citizen or an eligible non-citizen. An eligible non-citizen is a U.S. permanent resident who has documentation from the Department of Homeland Security verifying that his/her stay in the U.S. is for other than a temporary purpose.

• Show financial need.

• Be making satisfactory academic progress in a course of study leading to an AA or AS degree, certificate, or transfer to a baccalaureate degree program.

• Not be in default on any loans such as Federal Perkins Loans, Federal Stafford Loans (subsidized and unsubsidized), Federal Direct Loans (subsidized and unsubsidized, or FPLUS Loans (Parental Loans for Undergraduate Students) at any school attended.

• Not owe a refund on a Federal Pell Grant, Federal Supplemental Educational Grant (FSEOG), or Cal Grant programs.

• Be registered with the Selective Service, if male between the ages of 18 and 26 years old.

• Be enrolled as a regular student in an eligible program.

• Have a valid social security number.

• Demonstrate an Ability to Benefit (as defined in this section)

Ability to Benefit (ATB):
Students who meet one of the qualifications listed below have demonstrated the ability to benefit from a college education in accordance with applicable federal regulations.

• Received a certificate of General Education Development (GED); OR

• Successfully completed a two-year program (minimum 48 credit towards a bachelor’s degree)

Education Status
Students requesting a change in education status must submit a general petition with explanation. This is consistent with our office policy that, like residency changes, the burden of proof lies with the student.

The general petition may be evaluated for change by the Dean, registrar, and supervisor. Changes can only be made if the petition supports the claim that the student did not earn the equivalent of an Associate degree or higher in the United States. Acceptable forms of documentation include but are not limited to a college transcript from the institution in question or a student record evaluation from a credential agency. Since the Department of Education and the Financial Aid Office use the information collected on the admissions application to determine a students’ financial aid eligibility, it is important that any changes made must be supported with documentation.

Admissions and Records assistants who process paper applications are responsible for reviewing the application for consistency of information before entering the application into the Student Information System. If the change is being made at the time of application, the student must date and initial to indicate they are making a change to verify they have not completed a college or university degree.

Apply for Financial Aid
US Citizens, and aliens that hold eligible immigration documents apply for all federal and state financial aid programs by completing a Free Application for Federal Student Aid (FAFSA). The application is available online at www.fafsa.gov. Students that are classified AB540 by the college’s Admissions Department may apply for state of California financial aid programs by completing a CA Dream Act Application. It is available online at https://dream.csac.ca.gov. The process is free.

Never pay for federal or state financial aid. You’ll need an FSA User ID and password to “sign” your application, make corrections to the application, and more. If you are a dependent student, your parent will also need an FSA User ID and password. The option to create your FSA User ID and password will be presented to you when you first begin your FAFSA. If you choose not to create your FSA User ID and password at the beginning of the application the option will be presented to you again when you get ready to submit it.

Students applying for Federal Direct Loans, Emergency Loans, or scholarships must complete additional applications and/or forms that may be requested from the Financial Aid Office.

Note: Financial Aid applicants must use their own social security number on all college records.
Priority Dates & Deadlines
In general, the institution must have on file a valid Institutional Student Information Record (ISIR) by the last day of enrollment for a term.

To receive a Pell Grant, financial aid applications and all required documents must be submitted to the Financial Aid Office prior to the end of the enrollment period.

To receive a Cal Grant, the FAFSA must be submitted no later than March 2, 2018 for the 2018-2019 award year. Students planning to attend a community college have a secondary deadline of September 2, 2018 to apply for Cal Grant.

The priority processing date May 1, 2018 for the 2018-2019 academic year. Students who have missed the priority processing date are encouraged to apply as Pell Grant funds may be available.

Consult the LACC Financial Aid Office for more information regarding priority and deadline dates.

Verification
For students selected for verification by the Department of Education, the Financial Aid Office will request additional documents, such as Federal Tax Transcripts, to process the application.

Federal Refund Requirements
Students who receive federal financial aid and withdraw from ALL classes at the institution in the first 60% of the term may have to repay the “unearned” federal funds received prior to withdrawal. The Financial Aid Office will calculate the amount of federal funds earned up to the point of withdrawal and students will be billed and must repay any federal grant funds not earned. Failure to repay these funds will result in the denial of future federal financial aid.

Post-Withdrawal Disbursements
Students who have completed their financial aid files but withdrew from all of their courses before receiving any disbursements form federal aid may be eligible for a post-withdrawal disbursements. Students that are eligible for such a disbursement will be notified by email.

Students are advised to contact the Financial Aid Office before withdrawing from all of their classes.

Federal Recalculation Requirements
Federal Pell Grant and Federal Supplemental Educational Opportunity Grant (FSEOG) awards must be recalculated if the student’s information changes after the initial calculation or disbursement. The three factors that are most likely to change are enrollment status, expected family contribution (EFC), and cost of attendance.

Awards will be calculated during each term, based on the student’s enrollment status for that term. If the student’s enrollment status changes up to the date of the second disbursement run date, the Financial Aid Office will recalculate the student’s federal financial aid grants. A recalculation may result in a decreased or increased award.

To get additional information, please contact the California Chafee Grant Program at 1-888-224-7268 or write to California Student Aid Commission, Specialized Programs, Attn: California Chafee Grant Program P.O. Box 419029 Rancho Cordova, CA 95741-9029.

Law Enforcement Personnel Dependents Scholarship
This grant program provides educational benefits to the dependents of California police and other law enforcement officers (Chief of Police, Police Officers, Sheriffs, Marshals, Deputy Marshals, etc.) who have been killed or totally disabled in the line of duty. For more information and application materials, write directly to: California Student Aid Commission, 1515 S. Street, Suite 500, P.O. Box 510624, Sacramento, California 94245 – Attention: LEPD Program.

Determining Financial Need
The type of financial aid and amount received will be determined by the LACC Financial Aid Office. Financial aid awards are based on demonstrated financial need which is the difference between allowable educational expenses and the expected family contribution (EFC) and/or the student’s resources. Resources may include, but are not limited to employment earnings, veteran benefits, Social Security benefits, TANF/CalWORKS benefits, JTPA benefits, and CARE benefits. Expected family contribution and resources are then measured against the institutional student Cost of Attendance to determine financial need.

Satisfactory Academic Progress Policy

1. GENERAL INFORMATION
Effective July 1, 2011, Los Angeles Community College District has adopted a new Satisfactory Academic Progress (SAP). In accordance with the Higher Education Act of 1965, as amended, the Los Angeles Community College District (hereinafter referred to as LACCD) established the following Standards of Academic Progress. These Standards apply to all students who apply for and receive financial aid from the programs listed below.

FEDERAL PELL GRANT
Federal Supplemental Educational Opportunity Grant (FSEOG)
Federal Work Study (FWS)
Federal Perkins Loan
Federal Nursing Loan
Federal Parent Loan for Undergraduate Students (PLUS) Family Educational Loan (FFEL)
Federal Direct Student Loan (FDSL)
Cal Grant B and C Child Development Grant

Professional Judgment may be exercised in applying these standards in accordance with Section 479A of the Higher Education Act of 1965 As Amended Through June 1994.

Satisfactory Academic Progress Standards are reasonable if they are the same as or stricter than the institution’s standards for a student enrolled in the same educational program who is not receiving assistance under Title IV Federal Financial Aid Programs.

Current and previous coursework earned at any college within the LACCD will be reviewed for compliance with the standards put forth in this policy.

CONSORTIUM CLASSES
All classes throughout the LACCD will be included when reviewing satisfactory academic progress.

For students aided under a consortium agreement with colleges outside the LACCD, consortium classes will be included during satisfactory academic progress review by the home school (the college that processes the student’s aid).

2. GENERAL REQUIREMENTS
Students receiving financial aid must be enrolled in an eligible program. An eligible program is defined as:

- An educational program that leads to an associate degree,
- An educational program which is at least a two-year academic transfer program that is acceptable for full credit toward a bachelor’s degree, or
- An educational program which is at least a one-academic-year training program that leads to a certificate, degree, or other recognized educational credential and that prepares a student for gainful employment in a recognized occupation.

3. SATISFACTORY ACADEMIC PROGRESS STANDARDS
- Maintenance of a 2.0 cumulative GPA.
- Fewer than ninety (90) attempted units for students who indicated AA degree or Transfer as their educational goal.
- ESL and Basic Skills/Remedial classes are excluded from the ninety (90) unit limit when determining units attempted.
- Students who have already earned an Associate or higher degree outside of the LACCD will need to follow the appeal procedure.
- In Progress (IP) grades count as attempted units in the maximum time frame only. It does not affect cumulative grade point average in the qualitative measure nor is it included as completed units in the quantitative measure.
- Completion of 67% cumulative units attempted.
- Entries recorded in the students’ academic record as Incomplete (INC), No Credit (NCR), No Pass (NP), and/or Withdrawal (W) are considered non-grades and must be 33% or less than the cumulative units attempted.

APPLICATION OF STANDARDS
Satisfactory academic progress for financial aid students will be determined at the end of each payment period/semester.

Students who are disqualified from financial aid will be notified by mail and receive the procedure for appeal.

A student who has been disqualified at any college in the LACCD, is disqualified at all colleges within the LACCD.

A change of one (1) educational goal or major course of study will be permitted. Students are eligible to receive financial aid for one educational goal at the institution of attendance.

Disqualification - Students will be disqualified if they have one or more of the following academic deficiencies at the end of Spring semester:

- Total units attempted (excluding ESL and Basic Skill/Remedial classes) are equal to or greater than ninety (90) - Associate or higher degree has been earned.
- Cumulative GPA is less than 2.0;
- Cumulative Non-Grades are more than 33%;
- Warning Probation Letter - Students will receive a Warning Probation Letter at the end of the Fall semester if they have one or more of the following academic deficiencies:
- Cumulative GPA is less than 2.0; Cumulative non-grades are greater than 33%; Advisory Letter Number of units attempted reaches forty-five (45).

4. MAXIMUM TIME LENGTH
Students attending for the purpose of obtaining an Associate of Arts Degree (AA), an Associate of Science Degree (AS), or
completion of requirements for transfer to a four year college, are allowed 90 attempted units in which to complete their objective.

Exceptions will be made only when the requirements of a student’s objective cause the student to exceed the maximum time limit

SHORT LENGTH CERTIFICATE PROGRAMS
Some certificate objectives at the Los Angeles Community Colleges may be completed in less time than that required for the Associate of Arts, Associate of Science and Transfer objectives. The following table shows the normal completion time and maximum time for certificate programs of varying length:

<table>
<thead>

</tr>
<tr>

</tbody>
</table>

To be eligible for financial aid, a program must be at least six (6) months in length with a minimum of sixteen (16) units. Students enrolled in a certificate program may continue to qualify for financial aid up to ninety (90) attempted units, six (6) full-time semesters, or the equivalent, if they are planning to obtain an A.A. or A.S degree or to transfer to a four-year school in addition to obtaining the certificate.

SUMMER AND WINTER FINANCIAL AID
Summer and winter terms are included in the evaluation of Satisfactory Academic Progress standards.

Fraud
Any student who attempts to obtain financial aid by fraud will be suspended from financial aid for unsatisfactory conduct. The college will report such instances to local law enforcement agencies, to the California Student Aid Commission, and/or to the Federal government. Restitution of any financial aid received in such a manner will be required.

Scholarships
Many scholarships are available to Los Angeles City College students. Criteria may include evidence of leadership in various academic departments and/or student activities, citizenship, need, and scholastic ability.

Additional information about scholarships is available through the Financial Aid Office, academic department chairpersons or through the LACC Foundation.

Foundation
LACC Foundation located on the 3rd floor of the Student Union building.

(323) 953-4000 ext. 2490 • www.laccfoundation.org.

Each year, the LACC Foundation provides students with scholarships and awards to allow them to continue to excel in their educational endeavors. These scholarships vary in their fields, award amounts, and application requirements, including evidence of leadership in various academic departments and/or student activities, citizenship, need, and scholastic ability. Scholarships are the result of the generosity of private donors, LACC alumni and the campus community. Students are encouraged to visit individual department websites and the LACC Foundation site for detailed information regarding available scholarships and awards. All award and scholarship applications normally become available during the beginning of the Spring semester, and are awarded to students towards the end of the Spring semester.

Policies: Academic

Attendance

The student is expected to attend every meeting of all classes for which he or she is registered. Attending a class without being registered is contrary to the Los Angeles Community College District rules and cannot be used as the basis for a petition to add a class.

Students who have enrolled for a class and who do not attend or who are late or absent from the first meeting of the class may be excluded by the instructor.

Student Responsibilities

Students will only be able to enroll in or attempt a course three times. Students who stay in a course past the "no penalty" withdrawal date and then drop it or are excluded, will receive a grade of "W" and have used one of their three attempts.

Any student who has three attempts at any given class, with any combination of W, D, or F grades, will not be able to register for the class again, and will need to take the class again at a college outside the Los Angeles Community College District.

Students may petition for one more attempt by citing "extenuating circumstances," however, for the most part the only extenuating circumstances that are allowed are military deployment or natural disaster.

It is the responsibility of the student to notify the instructor of circumstances which will prevent attendance at any meeting of the class. Students may notify instructors by e-mail or by phone using the number listed on the course syllabus. If the number is not listed, use the number for the department chair listed in the class schedule and ask that the message be forwarded.

Whenever absences in hours exceed the number of hours the class meets per week, the student may be excluded from class by the instructor.

IT IS THE STUDENT’S RESPONSIBILITY TO DROP FROM A COURSE. Any drops or exclusions that occur between 20% and 75% of the term will result in a "W" on the student’s record, which will be included in the determination of progress probation. Drops are not permitted beyond 75% of the term. An evaluative grade ("A", "B", "C", "D", "F", "P", or "NP") will be assigned to students who are enrolled past 75% of the term even if they stop attending class, except in cases of extenuating circumstances. After 75% of the time the class is scheduled, the student may petition to the Dean of Admissions to withdraw from class demonstrating extenuating circumstances.

For further details, refer to “W” section of “Grading Symbols and Definitions”.

Tardies

Three tardies will be considered the equivalent of one hour of absence. A tardy is defined as coming in to class after the class officially begins.

Final Examinations

Final examinations are given in all courses according to the schedule which is printed in the Schedule of Classes.

Grading Symbols and Definitions and Conditions For Use

Only the symbols in the grading scale given in this section shall be used to grade all courses.

Grades shall be averaged on the basis of the point equivalences to determine a student’s grade-point average, using the following evaluative symbols:

INC Incomplete

Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an “I” symbol being entered in the student’s record. The condition for removal of the “I” and the grade which is assigned in lieu of shall be stated by the instructor in an Incomplete Grade Record. This record shall be given to the student, with a copy on file in the college Admissions Office until the “I” is made up and a final grade assigned, or when on year has passed. The “I” symbol shall not be used in calculating units attempted nor for grade points. The “I” may be made up no
later than one year following the end of the term in which it was assigned. The student may petition for a time extension due to unusual circumstances.

**IP In Progress**

The “IP” (In Progress) symbol shall be used only in those courses which extend beyond the normal end of an academic term. It indicates that work is “in progress,” but that assignment of a grade must await the course completion. The “IP” symbol shall remain on the student’s permanent record in order to satisfy enrollment documentation. The appropriate evaluative grade and unit credit shall be assigned and appear on the student’s record for the term in which the required work of the course is completed. The “IP” shall not be used in calculating grade point averages.

**RD Report Delayed**

The “RD” symbol may be assigned when there is a delay in reporting the grade beyond the control of the student. The “RD” may be assigned by the Dean of Student Services only. It is a temporary notation to be replaced by a permanent symbol as soon as possible.

**W Withdrawal**

Withdrawal from a class or classes shall be authorized through the last day of the fourteenth week of instruction or 75% of the time the class is scheduled to meet whichever is less.

No notation (“W” or other) shall be made on the record of a student who withdraws before the census date of the course.

Withdrawal between the end of the fourth week (or 30% of the time the class is scheduled to meet, whichever is less) and the last day of the fourteenth week of instruction (or 75% of the time the class is scheduled to meet, whichever is less) shall be authorized after informing the appropriate faculty. A student who remains in class beyond the fourteenth week of 75% of the time the class is scheduled shall be given a grade other than a “W”, except in cases of extenuating circumstances.

After the last day of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) the student may withdraw from class upon petition demonstrating extenuating circumstances and after consultation with the appropriate faculty.

Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student. Withdrawal after the end of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) which has been authorized in extenuating circumstances shall be recorded as a “W”.

For purposes of withdrawal policies, the term “appropriate faculty” means the Instructor of Record for each course in question or, in the event the instructor cannot be contacted, the department chair or equivalent faculty officer.

The “W” shall not be used in calculating units attempted nor for the student’s grade point average.

“W’s” will be used as factors in progress probation and dismissal.

A “W” shall not be assigned, or if assigned shall be removed from a student’s academic record, if a determination is made that the student withdrew from the course due to a discriminatory treatment or due to retaliation for alleging discriminatory treatment or that the student withdrew because he or she reasonably believed that remaining in the course would subject him or her to discriminatory treatment or retaliation for alleging discriminatory treatment.
A student may not withdraw and receive a “W” symbol on his or her record more than three times for enrollment in the same course. A student may enroll again in the same course after having previously received the authorized number of “W” symbols in the same course, if a designated college official approves such enrollment after review of a petition filed by a student.

MW Military Withdrawal

“Military Withdrawal” occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a withdrawal symbol may be assigned at any time after the period established by the governing board during which no notation is made for withdrawals. The withdrawal symbol so assigned shall be a “MW”.

1. Military withdrawals shall not be counted in progress probation and dismissal calculations.
2. MW shall not be counted towards the permitted number of withdrawals.

The District shall refund the entire enrollment fee unless academic credit has been awarded.

RD Report Delayed

A notation of RD shall be entered on a student’s transcript when an instructor fails to turn grades in on time. The notation on the student’s transcript shall be changed to the grade earned by the student following receipt of the grades from the instructor.

Pass/No-Pass Option

The College President may designate courses in the college catalog wherein all students are evaluated on a “pass-no pass” basis or wherein each student may elect on registration or no later than the end of the first 30 percent of the term, whether the basis of evaluation is to be “pass-no pass” or a letter grade. These courses will be noted in the college catalog as being eligible for the “pass-no pass” option.

The pass-no pass grading system shall be used in any course in which there is a single satisfactory standard of performance for which unit credit is assigned. A grade of Pass shall be assigned for meeting that standard (earning 70% or higher), and a grade of No Pass shall be assigned (earning a grade below 70%) for failure to do so.

The student who is enrolled in a course on a “pass-no-pass” basis will be held responsible for all assignments and examinations required in the course and must meet the same standards of evaluation as required for all students.

NOTE THAT UC AND CSU POLICIES ON ACCEPTING P/ NP VERSUS GRADES VARY BY CAMPUS. SEE YOUR COUNSELOR FOR CURRENT INFORMATION.

The College President may designate courses in the College Catalog wherein each student may elect, no later than the end of the first 30 percent of the term, whether the basis of evaluation is to be “Pass/No-Pass” or a letter grade. Pass/No-Pass petition forms listing all approved courses are available in admissions.

Acceptance of Pass Credits

All courses and units (including those units earned on a “Pass/No-Pass” basis) used to satisfy requirements, including graduation requirements, educational program requirements and transfer core curriculum requirements, shall be from accredited institutions, unless otherwise specified in this Board Rule.

“Accredited institution” shall mean a postsecondary institution accredited by an accreditation agency recognized by either the U.S. Department of Education or the Council on Postsecondary Accreditation. It shall not mean an institution “approved” by the California Department of Education or by the California Council for Private Postsecondary and Vocational Education.

Recording of Grade

A student who is enrolled in a course on the “Pass/No-Pass” basis shall receive both course and unit credit upon satisfactory completion of the course. Satisfactory completion (earned 70% or higher) is equivalent to the grade of “C” or better. A student with unsatisfactory performance (earned 70%) will be assigned a “No-Pass” (NP) grade.

Grade Point Calculation

Units earned on a “Pass/No-Pass” basis shall not be used to calculate grade point averages. However, units attempted for which “NP” (No-Pass) symbol is recorded shall be considered in probationary and dismissal procedures.

Standards of Evaluation

The student who is enrolled in a course on a “Pass/No-Pass” basis will be held responsible for all assignments and examinations required in the course and the standards of evaluation are identical for all students in the course.
Conversion to Letter Grade
A student who has received credit for a course taken on a “Pass/No-Pass” basis may not convert this credit to a letter grade.

Grade Changes
Grade Change Petition
The instructor of the course shall determine the grade to be awarded to each student in accordance with Board Rule 6702. The determination of the student’s grade by the instructor is final in the absence of mistake, fraud, bad faith, or incompetence. The removal or change of an incorrect grade from a student’s record shall only be done upon authorization by the instructor of the course, and concurrence of the office of Academic Affairs. The Grade Challenge policy is contained in Administrative Regulation E-55. The Ombudsperson is able to facilitate the process.

The changing of a grade is a serious matter that must be supported with documentation provided by the student of the course. To request a grade change, students may submit a petition for review to the Admissions Office.

NO GRADE MAY BE CHALLENGED BY A STUDENT AFTER ONE YEAR FROM THE END OF THE TERM IN WHICH THE COURSE WAS TAKEN.

Transcripts
Requests for transcripts or verifications may be obtained in the Admissions Office. Transcripts from another institution are not available for copying.

Upon written request of the student, a copy of the student’s academic record shall be forwarded by the Admissions Office to a designated addressee promptly by U.S. mail.

A student or former student shall be entitled to two free copies of the transcript of his or her record or two free verifications of student records. Additional copies shall be made available to the student, or to an addressee designated by the student, at a cost of $3.00. Students may request special processing to expedite their request for an additional fee of $7. This option is Subject to the college’s ability to provide this service.

The student’s transcript may be withheld if there are any unpaid fees or charges due to the College or other restrictive hold.

Academic Renewal
(See an Academic Counselor for advisement)
Students may submit a petition to the Office of Admissions and Records to have their academic record reviewed for Academic Renewal action of substandard academic performance under the following conditions:

1. Students must have achieved a grade-point-average of 2.5 in their last 15 semester units, or 2.0 in their last 30 semester units completed at any accredited college or university, and
2. At least one calendar years must have elapsed from the time the course work to be removed was completed.

If the student meets the above conditions, the College shall grant academic renewal, consisting of:

Academic renewal actions are irreversible. Students should meet with a College Counselor before taking such an action.

Course Repetition
(See an Academic Counselor For Advisement)
Repetition of courses for which substandard work has not been recorded shall be permitted only upon advance petition of the student and with permission of the College President or designee based on a finding that circumstances exist which justify such repetition. In such repetition under special circumstances, the student’s permanent academic record shall be annotated in such a manner that all work remains legible. Grades awarded for repetition under special circumstances shall not be counted in calculating a student’s grade-point-average.

Students may petition for approval to repeat courses up to a total of 15 units in which substandard grades (less than “C”) were awarded. Students may repeat the same course only once for this purpose. Upon completion of a course repetition, the best grade earned will be computed in the cumulative grade-point-average and the student academic record so annotated.

No specific course or categories of courses shall be exempt from course repetition. This policy is adopted for use in the Los Angeles Community College District only. Other institutions may differ. Students planning to transfer to another college or university should contact that institution regarding its policy.

Student may also repeat certain activity, performance, and skills courses as stated below:

Legally mandated training requirement: Courses necessary to meet legally mandated training requirements as a condition of continued paid or volunteer employment may be repeated for credit any number of times.

Content differs each time the course is offered: the course outline of record must clearly differentiate how the content changes each time. Applied courses, such as production and studio courses, may also qualify as activity courses (see below). Courses where students apply theory may also fall under the category of content changing each time. Examples of these types of courses are poetry writing creative writing or conversational Spanish. Other examples of courses where content changes each time are: directed study, field work, special topics, or current events. Theory courses should not be repeatable.

Activity courses: are defined as those where the students meets course objectives by repeating a similar primary educational activity and gains an expanded educational experience each time the course is repeated, provided: (A) skills or proficiencies are enhanced by supervised repetition and practice within class periods; or (B) active participatory experience in individual study or group assignments is the basic means by which learning objectives are attained. Examples of activity courses that qualify as repeatable courses include but are not limited to the following: Kinesiology courses or visual or performing arts courses in music, fine arts, theater, dance, or career technical education courses. Foreign language and ESL courses are not considered “activity courses”.

POLICIES
Granted, Academic Renewal Shall Result In:

a. Eliminating up to 30 semester units of coursework taken within the Los Angeles Community College District from consideration in the student’s cumulative grade-point average, and

b. Annotating the student academic record to note which courses have been removed through academic renewal. Academic renewal actions are irreversible.

Granting of Academic Renewal does not mean the course can be repeated beyond the maximum repeatability listed for the course.

Graduation honors and awards are to be based on the student's cumulative grade-point average for all college work attempted.

This Administrative Regulation, as authorized by Board Rule 6700, Chapter VI, Article VII, is adopted for use in the Los Angeles Community College District only. Other institutions may differ, and students planning to transfer to another college should contact that institution regarding its policy.

Course Repetition to Remove a Substandard Grade

Students may repeat courses in which substandard grades ("D", "F", or "NC", or "NP") were awarded provided they have not already attempted the same course three times in the district.

When course repetition under this section occurs, the student's permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

For the first and second repetitions of a course where a substandard grade was awarded, the highest grade earned shall be used when computing the student’s cumulative grade point average.

a. Students who have received three substandard grades for the same course may repeat it one more time upon approval of a filed petition documenting extenuating circumstances. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student.

Course Repetition: Fourth Attempt or More

FOURTH ATTEMPT

A student may enroll and receive an evaluative symbol of “D, F, NCR and NP” and/or a non-evaluative symbol of “W” in the same credit course a maximum of three times. Title 5 Regulation 55024 allows a district to establish a petition process for students attempting this same course a fourth time due to extenuating circumstances.

According to Board Rule 6701.10, “Extenuating circumstances may include, but are not limited to, verified cases of accidents, illness, military service, significant lapses of time, changes in program or major, or other circumstances beyond the control of the student.”

Repetition of Courses In Which A Satisfactory Grade Was Recorded

a. Repetition of courses for which a satisfactory grade of “A”, “B”, “C”, “CR” or “P” has been recorded shall be permitted only upon an advanced petition of the student and with the written permission from the college president, or designee, based on a understanding that extenuating circumstances exist which justify such repetition or that there has been a significant lapse of time since the student previously took the course. Significant lapse of time is defined as no less than 36 months since the most recent grade was awarded.

b. When course repetition under the section occurs, the student's permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

c. Grades awarded for courses repeated under the provisions of sub-section “a” and “b” of this section shall not be counted in calculating a student’s grade point average.

d. When such repetition is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, such courses may be repeated for credit any number of times, and the grade received each time shall be included for purposes of calculating the student's grade point average. The college shall establish policies and procedures requiring students to certify or document that course repetition is necessary to complete legally mandated training pursuant to this subsection.

THE COLLEGE’S PROCESS FOR CERTIFICATION OR DOCUMENTATION OF LEGAL TRAINING REQUIREMENTS SHALL BE DEVELOPED IN ACCORDANCE WITH THE PROVISIONS OF CHAPTER XVIII OF THE BOARD RULES - - ACADEMIC SENATE AND BOARD OF TRUSTEES SHARED GOVERNANCE POLICY.

e. A student may repeat any course if the college has properly established a recency prerequisite for a course, if there has been “significant lapse of time.” In no instance shall this be less than three years. f. A student with a disability may repeat a class any number of times, if such repetition is required as a disability-related accommodation for that particular student.

Repeatable Courses

Certain courses in the Catalog may be repeated for additional unit credit. These courses, marked “RPT” in the Course Section of the Catalog, allow the student to build on skills and proficiencies by supervised repetition and practice within class periods. Enrollment in these courses is limited in any similar course to a maximum of three repeats for a total of four (4) enrollments, regardless of the repeatability of individual courses.

Duplicative Credit

Duplicative credit in non-repeatable courses should not be used towards the 60 units required for graduation regardless of whether or not the student petitioned to have the transcript annotated.
Awarding Credit
The colleges within the LACCD will accept upper division course-work completed at other colleges for the purpose of fulfilling Associate Degree requirements using the following guidelines:

1. Coursework must be completed at a United States regionally accredited institution.
2. A student must submit official transcripts from the originating institution.
3. Upper division courses may be applied to an LACCD general education area or major and/or elective requirements based on content equivalency to a general education, major or elective course offered at an LACCD campus.
4. Upper division courses in Math or English composition may be used to satisfy competency requirements for the Associate Degree.

Use of Upper Division Courses to Satisfy IGETC or CSU GE Breadth
Policy on the use of upper-division coursework on the IGETC and CSU GE is governed by the University of California and California State University systems. Consult with an academic counselor for complete details.

Previously Earned College Units
College credits earned at any accredited institutions of higher education may be evaluated for credit. Approved credits are posted to LACC transcripts upon completion of all other graduation requirements. Students must request copies of official sealed transcripts be mailed to the Office of Admissions and Records from each college attended.

Acceptance of Course to Meet Associate Degree and General Education Requirements:

Advanced Placement Credit
1. Course Equivalency
   Course equivalency for Advanced Placement exams, for purposes other than meeting General Education and graduation competency requirements for the Associates Degree, shall be determined by the college, using policies developed in consultation with the college's Academic Senate, in accordance with the provisions of LACCD Board Rules, Chapter XVIII, Article I.
   Course equivalency does not award unit credit. For unit credit policy, see Appendix A.
2. USE OF ADVANCED PLACEMENT
Use of Advanced Placement exams for meeting General Education Requirements and graduation competency requirements for the Associate of Arts and Associate of Science Degrees

Advanced Placement (AP) Exams shall be used toward meeting General Education requirements and Graduation Competency for the Associate of Arts and Associate of Science Degrees, as defined in Board Rule Chapter VI, Article II.

Students must receive a passing score (3, 4, or 5) on an AP exam to receive the credit indicated in Appendix A.

3. Advanced Placement Unit Credit

For the purpose of granting unit credit towards meeting General Education and graduation competency requirements, the LACCD shall follow the guidelines for Advanced Placement credit set by the American Council on Education:

In general, the recommended minimum number of semester hours from ACE corresponds to the status of the corresponding high school AP course:

- 3 semester hours are recommended in the case of a half-year course
- 6 semester hours for most full-year courses
- 8 semester hours for some of the mathematics, sciences, and foreign languages

4. CSU GE Breadth and IGETC

The placement of courses in the California State University General Education Breadth (CSU GE-Breadth) and the Intersegmental General Education Transfer Curriculum (IGETC) Plans is determined by the University of California and California State University systems respectively.

College Level Examination Program (CLEP) Credit

1. Course Equivalency

Course equivalency for CLEP (College-Level Examination Program) exams, for purposes other than meeting General Education and Graduation Competency requirements for the Associate Degree, shall be determined by the college, using policies developed in consultation with the college's Academic Senate, in accordance with the provisions of LACCD Board Rules, Chapter XVIII, Article I.

Course equivalency does not award unit credit. For unit credit policy, see Appendix A below.

2. Use of CLEP exams for meeting General Education requirements and Graduation Competency requirements for the Associate in Arts and Associate in Science Degrees, as defined in Board Rule Chapter VI, Article II.

Students must receive a passing score (50) on most CLEP exams, except Foreign Language level 2 exams which require a higher score.

Students who take an Advanced Placement (AP) exam, an International Baccalaureate (IB) exam or College-Level Examination Program (CLEP) exam in the same topic area will receive credit for only one exam (for example, if a student takes both the CLEP exam in Biology and the AP exam in Biology, they will only be awarded credit for one exam because the topics are duplicative). The college should award credit for the exam that most benefits the student.

3. CLEP Unit Credit

For the purpose of granting unit credit towards meeting General Education and Graduation Competency requirements, the LACCD shall follow the guidelines for CLEP credit set by the American Council on Education:

- 3 semester hours are recommended in the case of a half-year course
- 6 semester hours for most full-year courses.
- 12 semester hours for Level 2 Foreign Language exams equivalent to four semesters of college-level foreign language course work.

Probation & Dismissal

The following standards for academic and progress probation shall be applied as required by regulations adopted by the Board of Governors of the California Community Colleges.

A student shall be placed on probation if any one of the following conditions prevail:

Academic Probation: the student has attempted a minimum of 12 semester units of work and has a grade-point-average less than a “C” (2.0).

Progress probation: the student has enrolled in a total of at least 12 semester units and the percentage of all units in which a student has enrolled and for which entries of W (Withdrawal), I (Incomplete), and NP (No Pass) are recorded reaches or exceeds fifty percent (50%).

Units Attempted: “Units Attempted,” for purposes of determining probation status only, means all units of credit in the current community college of attendance in which the student is enrolled.

Students shall be subject to dismissal and subsequently be dismissed under the conditions set forth within this section. Dismissal from Los Angeles City College shall disqualify students from admission to any college in the Los Angeles Community College District (LACCD).
Academic Dismissal: Students who are on academic probation shall be subject to dismissal if they have earned a cumulative grade-point-average of less than 2.0 in all units attempted in each of three consecutive semesters.

Students who are on academic probation and who earn a semester grade-point-average of 2.0 or better shall not be dismissed as long as this minimum semester grade-point-average is maintained.

Progress Dismissal: Students who are on progress probation shall be subject to dismissal if the cumulative percentage of units in which they have been enrolled for which entries of W (Withdrawal), I (Incomplete), and NP (No Pass) are recorded in at least three (3) consecutive semesters reaches or exceeds fifty percent (50%).

Students who are on progress probation shall not be dismissed after a semester in which the percentage of units in which they have been enrolled for which entries of W, I and NP are recorded is less than fifty percent (50%).

Students who are subject to dismissal may appeal to the Vice President of Student Services. Dismissal may be postponed and the student continued on probation if the student shows significant improvement in academic achievement but has not been able to achieve a level that would meet the requirements for removal from probation.

Students who have been dismissed may request reinstatement after two (2) semesters have elapsed. They shall submit a written petition requesting readmission to the College in compliance with College procedures. Readmission may be granted, denied, or postponed subject to fulfillment of conditions prescribed by the College. Students must file a petition to return prior to the day for new and returning students to register in person. Refer to the College Calendar in the current Schedule of Classes for effective dates.

Conditions of Enrollment

Unless specifically exempted by law, every course for which State aid is claimed is fully open to any person who has been admitted to the College and who meets the appropriate academic prerequisites.

Concurrent Enrollment

Concurrent enrollment in more than one section of the same course during a semester is not permitted, except for certain Kinesiology classes on a limited basis. Concurrent enrollment in courses which are cross-referenced to each other is not permitted. Violation of this regulation will result in exclusion from class and denial of course credit in both courses. Enrolling in classes scheduled or conducted during overlapping times is not permitted. In addition to exclusion from both classes and denial of credits, violators will be subject to disciplinary action.

Auditing

Students may be permitted to audit a class under the following conditions:

1. Payment of a fee of $15 per unit. Fees are not refundable and they are not covered by a fee waiver. Students enrolled in classes to receive credit for ten or more semester units shall not be charged a fee to audit three or fewer semester units per semester. This fee structure is subject to change.

2. Students auditing a course shall not be permitted to change their enrollment in that course to receive credit for the course.

3. Priority in class enrollment shall be given to students wanting to take the course for credit.

4. Permission to enroll in a class on an audit basis is at the instructor’s discretion.

5. Participation in class activities by student auditors will be solely at the discretion of the instructor, who may provide a written statement of how much participation is allowed beyond observation.

6. Students must be added as an auditor by the last day of the term to add classes.

Dual Enrollment

The Dual Enrollment Program is an accelerated program that allows qualified students to fulfill high school graduation requirements while simultaneously gaining college or vocational credits toward a certificate, diploma or college degree. Los Angeles City College offers a variety of college courses that are conveniently offered at our local high schools. Students and counselors should note these classes should be taken by students ready for college level work. Our goal is to allow high school students exposure to college level curriculum and prepare them for post secondary education. Research has shown us that Dual Enrollment classes can be used effectively to promote post secondary education and success, expand rigor and breadth of high school curriculum, and provide access to challenging, college preparatory curriculum to students who might otherwise have been shut out of such curriculum through the traditional high school system. Classes are open to LACC students who are willing to travel to the local high school.

Dual Enrollment classes are scheduled through the LACC administration by request of the high school principal or college counselor. Applications are available for high school staff by contacting Harley Hass at haash2@lacitycollege.edu.

Deans’ & President’s Honors

Students with outstanding scholastic achievement are given public recognition through the Los Angeles City College Dean’s List. Full-time students (a student enrolled in 12 or more graded units the qualifying semester) must earn a 3.5 or higher GPA. Part-time students (a student enrolled in 6 through 11 graded units) must have completed 12 units and earn a 3.5 or higher GPA in the qualifying semester. Only the grades from courses completed at LACC, during the qualifying semester, will be used in calculating the grade point average (GPA). Grades of “Credit” will not be counted in meeting the unit requirement for the Dean’s or President’s Honor List.

Students who have appeared on the college’s full-time or part-time Dean’s Honor list for three (3) consecutive semesters will be placed on the President’s Distinguished Honor List. Students who think they qualify for either of these honors can go to the Admissions Office and request an unofficial transcript of their records, or use an electronic kiosk, or access
the college's website and print out their transcript. Bring the unofficial transcript to the Office of Student Life & Leadership Development, located in the Student Union for verification.

The Dean’s Honor Program is held annually each spring semester to acknowledge the students who earned their honors the prior spring and fall semesters.

For graduation with honors (Summa Cum Laude, Magna Cum Laude, Cum Laude), see “Graduation With Honors” in the Graduation Requirements section of this catalog.

Educational Environment Policy
Due to requirements set forth by the Occupational Safety and Health Administration, proper attire, including shoes, eye ware, and other articles, should be worn during all class hours.

Directed Study Courses
Directed Study courses are offered by several academic and vocational departments. They are designed for students who are capable of independent work and who demonstrate the need or desire for additional study beyond the regular curriculum. Enrollment allows students to pursue activities such as directed field experience, research, or the development of skills and competencies under faculty advisement and supervision. Directed Study courses are available in a wide variety of disciplines. Students wishing to enroll in a Directed Study course should contact the appropriate department chair.

Units are awarded depending upon satisfactory performance and the amount of time committed by the student to the course. Allowable units vary according to discipline and are based on the following formula:

Directed Study 185 (1-unit) = 48 hours per semester  
Directed Study 285 (2-unit) = 96 hours per semester  
Directed Study 385 (3-unit) = 144 hours per semester

Students should note that there are limitations as to the allowable maximum number of Directed Study units. For all Directed Study Courses transferring to the University of California, the maximum credit allowed is 3 semester units per term or six units total in any and all appropriate subject areas combined. The granting of transfer credit for Directed Study courses is contingent upon review of the course outline by the appropriate UC campus.

It is recommended that students consult with a College Counselor and with the appropriate instructor and/or department chairperson before enrolling in Directed Study courses. Please refer to the current Schedule of Classes for information regarding specific Directed Study classes being offered.

During the first two weeks of the term, available classes are posted by section number in an area near the Office of Admissions in the Administration building. As with other LACC classes, the available classes listed at the Add Card Center are available to add by telephone.

Distance Education Learning
LACC’s Distance Education (DE) courses include lectures, discussion, assignments, and tests delivered via the Internet with regular opportunities for electronic interaction with instructors and other students. To enroll in DE classes you must have access to a computer, the Internet, and an e-mail account. LACC guarantees instructor initiated contact via the learning management system and email that is commensurate with the type of instruction found in the traditional classroom. Contact with the instructor may include weekly chat rooms, discussion forums, personalized assignments, and digital office hours.

LACC may be required to receive state authorization to enroll students who do not reside in California. Many states have either given the college this authorization or do not require authorization. However, some states require significant fees to receive state authorization. Due to the significant and/or recurring fees for state authorization, LACC no longer permits a student to enroll if he/ she resides in one of the following states: Alabama, Arkansas, Maryland, Minnesota, Utah, or Wisconsin. For more information, including an online learning readiness assessment and a list of current DE courses, visit lacitycollege.edu/offsite/distance-ed/

Policies: Student

Classroom Conduct
Instructors are responsible for presenting appropriate material in courses, and students are responsible for learning this material. Although it is a student’s academic performance that is evaluated in determining grades, student conduct is important in the academic setting. Enrollment in a class may be terminated due to unsatisfactory student conduct, undue disrespect toward an instructor or administrator, or academic dishonesty. Each student is responsible for maintaining standards of academic performance established for each course in which he or she is enrolled.

Student Discipline Procedures
Community college districts are required by law to adopt standards of student conduct along with applicable penalties for violation (Education Code Section 66300). The Los Angeles Community College District has complied with this requirement by adopting Board Rules 9803 and 9804-9806, Standards of Student Conduct.

The LACCD has adopted Board Rule 91101, “Student Discipline Procedures,” to provide uniform procedures to assure due process when a student is charged with a violation of the Standards of Student Conduct. All proceedings held in accordance with these procedures shall relate specifically to an alleged violation of the established Standards of Student Conduct. These provisions do not apply to grievance procedures, student organization councils and courts, or residence determination and other academic and legal requirements for admission and retention. Disciplinary measures may be taken by the College independently of any charges filed through civil or criminal authorities, or both.
Academic Freedom
The Board of Trustees reaffirms its commitment to academic freedom, but recognizes that academic freedom does not allow Prohibited Discrimination. The discussion of ideas, taboos, behavior or language which is an intrinsic part of the course content shall in no event constitute Prohibited Discrimination. It is recognized that an essential function of education is a probing of received opinions and an exploration of ideas which may cause some students discomfort.

It is further recognized that academic freedom.

Student Grievance Procedures (E-55 Regulation)
The purpose of the E-55 regulation is to provide a prompt and equitable means for resolving student(s) grievances. In the pursuit of academic goals, the student should be free of unfair or improper action by any member of the academic community. The grievance procedure may be initiated by one or more students who reasonably believe to have been subject to unjust action or denied rights involving their status or privileges as students.

It is the responsibility of the student(s) to submit proof of alleged unfair or improper action. Grievances pertaining to grades are subject to the California Education Code Section 76224(a) which states: When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith or incompetency, shall be final.

The role of the Ombudsperson is that of a facilitator of the grievance process, and not that of an advocate for either the grievant(s) or respondent(s). During the informal resolution stage of the grievance process, the ombudsperson will facilitate informal meetings and discussions that may lead to a resolution of the grievance.

This grievance procedure does not apply to the challenge process for prerequisites, co-requisites, advisories and limitations on enrollment; alleged violations of sexual harassment; actions involving student discipline; alleged discrimination on the basis of the ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; or an appeal for residency decision; or the eligibility, limitations on enrollment; alleged violations of sexual harassment; actions involving student discipline; alleged discrimination on the basis of the ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; or an appeal for residency decision; or the eligibility, disqualification or reinstatement of Financial Aid.

Information about the grievance procedures and a copy of the regulation are available to grievant(s) and/or respondent(s) upon request from Mr. Edward Bird Song, at (323) 953-4000 ext. 1256 or Dr. Jeremy Villar (323) 953-4000 ext. 2011, both serving as campus ombudspersons.

Smoking Policy
Smoking is not permitted in any classroom or other enclosed facility that any student is required to occupy or which is customarily occupied by students, faculty, staff, and/or administrator.

Workforce Diversity
The policy of the Los Angeles Community College District is to implement affirmatively equal opportunity to all qualified employees and applicants for employment without regard to race, color, national origin, ancestry, religion, creed, sex, age, disability, marital status, sexual orientation, or veteran status. Positive action will be taken to ensure that this policy is followed in all personnel practices, including recruitment, hiring, placement, upgrading, transfer, demotion, treatment during employment, rate of pay or other forms of compensation, selection for training, layoff, or termination. An Affirmative Action Program will be maintained in accordance with Board Rule 101301.

Inquiries regarding Workforce Diversity at Los Angeles City College should be directed to the Associate Vice President, Administrative Services responsible for Human Resources.

http://www.laccd.edu/Board/Pages/Board-Rules.aspx

Students shall respect and obey civil and criminal law, and shall be subject to legal penalties for violation of laws of the City, County, State, and Nation.

http://aso.lacitycollege.edu/

The LACC Associated Student Government (ASG) is the officially designated student organization that represents students’ needs and concerns. The ASG is a significant component of LACC’s shared governance process. The governing body of the ASG is the Student Senate, composed of officers elected annually by the student body at large, following requirements of LACCD Administrative Regulation S-9.

LACC students are encouraged to join the ASG by paying the ASG fee of $7.00 per semester. The membership benefits include participation in student government, preferred parking, book grants (limited number to qualified applicants), free copier services (weekly limit), free scantrons and bluebooks (weekly limit), discounted local faxing, free admission to ASG supported cultural and social events, discount tickets to theaters and local amusement parks, and much more.

The ASG represents students on college, district and state-wide issues. It provides students with leadership opportunities through involvement on the Student Senate and Club Council, and by appointment to various LACC, ASG, regional and state committees. It provides funding support for a variety of campus activities including Dean’s Honor Ceremony, Commencement, Welcome Days, Health Fair, English Writing Contest, Forensics Team, Latino Heritage Festival, Foreign Language Day, African-American History Month, blood drives, social events, speakers, and other events. Student clubs provide a rich and exciting multi-cultural dimension to college life. Any ASG member can start a club—it just takes eight ASG members who share an interest and a faculty advisor—to be chartered by the ASG. Information on joining or starting a club is available in the Office of Student Life. All student clubs must be chartered by the ASO in order to be recognized and officially function on campus.

The Student Senate is composed of the elected, or appointed, student leaders. It meets regularly, with agendas posted in advance in accordance with the Brown Act. The program serves students from Belmont, Fairfax, Hollywood, and Manual Arts High Schools, and provides academic support and career guidance services to students from their tenth grade until they graduate from high school, and enter a post-secondary education program. Students qualify for the program by being from low-income families where the parents have not earned a B.A./B.S. degree.

During the academic year, the Upward Bound Program provides participants with tutoring and advising services at their high schools and conducts Saturday Academy sessions on the LACC campus. Every summer, participants attend an intensive 6-week Summer Academic Program at LACC, where they enroll in courses and earn credits towards high school graduation. Instruction includes courses in Math, English Composition, Laboratory Sciences, Computers, Languages, Social Studies, and various Visual and Performing Arts. Throughout the year, the program provides tutoring services, instruction in college-level study skills, exposure to professional careers, and guidance through the college application and financial aid processes. Veterans Resource Center
Student Union Building, Second Floor
(323) 953-4000 ext. 2024

Veterans, service members, and their survivors and dependents may apply for their VA Educational Benefit Programs through the Veterans Resource Center. To initiate the VA Certification Process, Veteran students must complete a VA Application form and submit it with their DD-214, Verification of Enrollment, and Veteran Educational Plan to the Veterans Resource Office. Veteran students who had previously attended another post-secondary institution must submit a transcript from the institution (civilian and military) for evaluation by an academic counselor prior to certifying for a second enrollment period. Los Angeles City College, as required by the Department of Veterans’ Affairs (DVA) policy, conducts an evaluation of all prior postsecondary education, experience and training (civilian and military) before certifying for a second enrollment period. As required, Los Angeles City College grants the appropriate credit, shortening the training period proportionately, and notifies both the DVA and the student of the amount of credit allowed towards their declared program.

Unless otherwise notified, all programs (majors) in this catalog are approved for VA benefits payment. Transfer programs are approved contingent upon Los Angeles City College having current articulation agreements with the universities offering the transfer programs. Contact the Transfer Center for more information about approved transfer programs. To maintain eligibility, Veteran students must maintain standards of academic progress as indicated in the College Catalog.
Associate Degree Philosophy

The completion of the associate degree is the culmination of a student’s successful completion of learning experiences designed to develop certain capabilities and insights. Among these are the ability to think critically and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student should possess sufficient depth in a field of knowledge to contribute to lifetime academic and career pursuits. Central to all associate degree programs at LACC, general education prepares students to be successful in a dynamic, complex, and multi-cultural world.

Graduates with an associate degree will demonstrate competence in five areas of learning:

1. Broad & Integrative Knowledge. Graduates will be able to consolidate broad knowledge across multiple areas of learning from the arts and humanities, natural sciences, mathematics, and social sciences and to discover and explore concepts and questions that bridge these fields.
2. Intellectual Skills. Graduates will exhibit the skills of aesthetic awareness, communication competency, critical & creative thinking, information competency and quantitative competency.
4. Lifelong & Applied Learning. Graduates will be able to apply their knowledge to address unscripted problems in scholarly inquiry, at work and in other non-academic settings.
5. Specialized Knowledge. Graduates will exhibit the proficiencies identified in their major’s program student learning outcomes (PSLOs).

Associate Degree Graduation Requirements

The Board of Governors of the California Community Colleges has authorized the Los Angeles Community College District Board of Trustees to confer the degrees of Associate in Arts and Associate in Science.

The awarding of an Associate Degree symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences designed to develop certain capabilities and insights. Among these are the ability to think and to communicate clearly and effectively both orally and in writing, to use mathematics, to understand the modes of inquiry of the major disciplines, to be aware of other cultures and times, to achieve insights gained through experience in thinking about ethical problems, and to develop the capacity of self-understanding. In addition of these accomplishments, the student should possess sufficient depth in some field of knowledge to contribute to lifetime interest.

TRANSFER REQUIREMENTS

Transfer Requirements
Students who plan to earn a bachelor's degree should take courses designed to complete the lower-division preparation for their major and the general education subject areas of the college to which they will transfer.

Students also have the option of following the Intersegmental General Education Transfer Curriculum (IGETC) for UC or CSU campuses, or the CSU GE-Breadth requirements which will enable them to complete their lower-division general education courses at Los Angeles City College.

California State University (CSU)
Admission
Students intending to transfer to a California State University campus should plan a program to meet the graduation requirements of the specific institution which they plan to attend. Transfer admission eligibility is based on transferable college units. Consult the catalog issued by the individual campus for a complete description of the curricula or with an academic counselor.

Applicants who are California Residents and who have completed 60 to 70 transferable semester units (84-105 quarter units) are eligible for admission if (a) they are in good standing at Los Angeles City College, and (b) have achieved a minimum 2.0 grade-point average in all transferable college units attempted (non-residents, 2.4 or better). Any student applying for admission must complete Area A1. Oral Communication, A2. Written Communication, A3. Critical Thinking, and Area B3. Mathematics/Quantitative Reasoning with a grade of C- or higher.

Departmental Majors
Los Angeles City College does not offer all courses required by the CSU departmental major. It is necessary to refer to the appropriate California State University catalog for lower division major requirements. Students are also urged to consult with a counselor for current information and to check http://www.assist.org.

General Education Requirements
To be eligible for the Bachelor's degree from a California State University, the candidate must have completed a minimum of 48 semester units of General Education requirements. At least 9 semester units must be upper division and must be earned at the campus granting the degree. The California Administrative Code authorizes Los Angeles City College to certify that the student has completed the lower division portion of the General Education requirements which is a minimum of 39 semester units from the G.E. pattern listed below.

The 39 semester/58 quarter units required for CSU GE-Breadth are distributed as follows:

California State University General Education (GE) Breadth Requirements 2018 - 2019
(EFFECTIVE FALL 2018)
CSU: Bakersfield, Channel Islands, Chico, Dominguez Hills, East Bay (formerly Hayward), Fresno, Fullerton, Humboldt, Long Beach, Los Angeles, Maritime Academy, Monterey Bay, Northridge, Pomona, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, San Marcos, Sonoma, Stanislaus

CERTIFICATION
Courses on this list are approved for a specific academic year, which begin Fall 2018 semester and will remain valid through Summer 2019.

The general education courses listed for the CSU system are specified within subject areas that satisfy lower division general education requirements for the CSU campuses. A course must be on the CSU GE-Breadth pattern during the term in which it is taken: If a course is taken before it is approved for inclusion, or after it is removed from the list, it cannot be used to meet the subject area requirement. We advise that students meet with a counselor regularly to review any changes.

CSU GE-Breadth certification is available to community college transfer students who satisfy the general education requirements in each subject area. To be "Certified" means that LACC has verified that a student has successfully completed the lower division General Education requirements listed in each of the subject areas A-E of the CSU GE-Breadth pattern. Students who are CSU GE certified will only be responsible for an additional 9 semester units of upper division general education requirements at the CSU campus. To request CSU GE-Breadth certification, the student must set up an appointment with a counselor to complete the form request and have the Articulation Office review and sign off for official approval. Note: certification does not guarantee admission or admission eligibility to CSU.

Students who have taken courses at other colleges can have these courses evaluated for appropriate credit in the certification process. Los Angeles City College will certify courses in the subject areas designated at other California Community Colleges. Courses taken at other regionally accredited colleges will be evaluated by the LACC counseling faculty and the Articulation Office to determine appropriate credit. Courses from foreign institutions cannot be used in the certification process. Students requesting CSU GE Certification must complete at least 12 units in residency at Los Angeles City College.

ADDITIONAL INFORMATION
1. Course cannot satisfy more than one General Education area requirement (even if listed under multiple subject areas).
2. Courses used to satisfy General Education requirements may also satisfy Major Preparation requirements.
3. LACC recommends that students complete the lower division requirements for the major before transfer. Major preparation requirements can be accessed on www.assist.org, the official
source for California state college articulation and student transfer information. Other lower division courses that are not offered at LACC may be required for the major after transfer.

4. Students who transfer to CSU may also complete an Associate degree at LACC by completing courses in the major (please see a counselor for major-specific information).

5. Completion of the General Education requirements will not guarantee admission into a university but can increase the student’s chances for acceptance.

6. Areas A1, A2, A3 and B4 must be completed with a “C-” or better for admissions eligibility to a CSU campus.

7. All transferable coursework must have a cumulative GPA of 2.0 (“C”) or better.

8. The CSU GE-Breadth pattern may not be the best general education preparation pathway for ALL majors (such as Engineering, Computer Science and Liberal Studies – Teacher Prep). Please consult with a counselor to determine the best plan to meet your educational goals.

Intersegmental General Education Transfer Curriculum (IGETC)
The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program which community college transfer students can use to fulfill lower-division general education requirements at either the CSU or UC system without the need, after transfer, to take additional lower-division general education courses. This policy is governed by the Intersegmental Committee of the Academic Senators (ICAS). Completion of IGETC is not an admissions requirement.

Some students may be better served by taking courses which fulfill the UC Breadth requirements or those specific major requirements of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower-division major preparation such as Engineering or business majors at UC Berkeley may not find the IGETC option to be advantageous.

IGETC will be most useful for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus. Please see a counselor for more information.

Students planning to transfer to the University of California are required to complete 60 semester or 90 quarter units of transferable work with a minimum 2.4 grade-point average (minimum 2.8 G.P.A. for out of state or international students). In addition, credit is allowed for having completed exams administered by the College Board such as Advanced Placement and International Baccalaureate.

MAY BE USED FOR GENERAL EDUCATION CERTIFICATION FOR UNIVERSITY OF CALIFORNIA AND / OR CALIFORNIA STATE

IGETC FAQs

Q: What is the Intersegmental General Education Transfer Curriculum (IGETC)?
A: IGETC is a general education pattern which community college transfer students can follow to fulfill lower-division general education requirements for either the UC or CSU systems. This pattern is advisable for students who are undecided about their transfer goals because it keeps their options open. Many private/independent colleges/universities also recognize or accept IGETC (check with a counselor for details).

Q: Is IGETC an admission requirement?
A: NO. There is no connection between completion of IGETC and eligibility for admission to the CSU or UC system.

Q: What alternatives to IGETC exist?
Community college students who are CSU-bound have the option to complete the CSU General Education Breadth requirements.

Students who are UC-bound have the option of completing the general education requirements of the destination UC campus or the minimum UC transfer admission requirements as listed on ASSIST.org.

Q: Is it advisable for all transfer students to follow IGETC?
A: NO. Not all majors should follow IGETC. Students pursuing majors that require extensive lower-division major preparation (i.e. Engineering) may not find IGETC advantageous, and the transfer institution may advise following the minimum UC eligibility requirements listed on ASSIST.org.

Q: What are the minimum UC Transfer Eligibility Requirements for junior-level transfer students?
A: Minimum Admission Requirements:
- 60 UC transferable semester units
- 2.4 cumulative GPA (impacted campuses and majors may require higher GPAs)
- No more than 14 semester units taken Pass / Not Pass (P/NP)
- 7 UC transferable GE courses as follows:
  - 2 courses in English composition
  - 1 course in Mathematical Concepts and Quantitative Reasoning
  - 4 courses chosen from at least 2 of the following subject areas:
    - Arts and Humanities
    - Social and Behavioral Sciences
    - Physical and Biological Sciences

Q: Will all UC and CSU campuses accept IGETC?
A: UC San Diego’s Eleanor Roosevelt and Revelle Colleges and UC Berkeley’s Haas School of Business will NOT accept IGETC.

Q: Can I use Advanced Placement (AP) exams for IGETC?
A: YES. AP exams may be applied to IGETC with passing scores. For details, see the AP Chart in the LACC Catalog.

Q: Can I use evaluated foreign college transcripts for IGETC certification?
A: NO. Courses from foreign institutions cannot be used in the certification process; however, approved international courses can be evaluated at and applied to the specific UC campus’ undergraduate GE subject areas.

Q: What is “IGETC Certification” and how do I request it?
IGETC certification is the process by which the community college verifies that a student has completed all the required coursework for the IGETC pattern (partial completion is possible, if missing up to two courses), which is sent directly to the transfer institution. If IGETC is not certified, students will be subject to the lower-division general education requirements at the campus to which they transfer. To request IGETC certification, the student must set up an appointment with a counselor to complete the form request and have the Articulation Office review and sign off for official approval.

Independent Universities

Transfer admission requirements of independent colleges and universities vary, as do course transferability and course credit allowed. Students should consult the College Catalog of their intended transfer institution for specific transfer admission requirements. General education and major preparation requirements as well as course transferability topics should be consulted with and verified by a counselor. Visit the University Transfer Center (Student Services Building, 2nd Floor) for more information.

Historically Black Colleges & Universities Transfer Information

The Historically Black Transfer Project was developed to offer a clear and seamless student pathway from California Community Colleges to targeted Historically Black Colleges and Universities. By preparing to transfer to the University of California or the California State University systems, students may also be eligible for admissions to targeted HBCUs.

Students completing California State University General Education Breadth requirements or the Intersegmental General Education Transfer Curriculum (IGETC) with full certification, an Associate degree and a 2.5 or higher Grade Point Average are guaranteed admissions at the junior level to HBCU partners.

Students with 30 or more CSU or UC transferable units and a 2.5 or higher Grade Point Average are also guaranteed admissions with full acceptance of transferable units.

Historically Black Colleges and Universities are typically much smaller in student size than most of the California public institutions. The majority of classes are taught by professors rather than teaching assistants, in a nurturing and supportive environment. There also tends to be more opportunities for student leadership development.

All of the HBCUs that have partnered with California Community Colleges are private except one (Lincoln University in Missouri). The tuition costs for private HBCUs are typically a fraction of the costs of private institutions in California. Lincoln University will offer in-state tuition for California Community College students.
Associate Degrees for Transfer (ADT)

REQUIREMENTS FOR THE ASSOCIATE IN ARTS FOR TRANSFER (AA-T)
OR ASSOCIATE IN SCIENCE FOR TRANSFER (AS-T) DEGREES

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees priority consideration for admission to a California State University (CSU) campus for any community college student who completes an “Associate Degree for Transfer”, a newly established variation of the Associate Degrees traditionally offered at a California community college.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a Bachelor’s degree in a similar major at a CSU campus. Students completing these degrees are guaranteed priority consideration for admission to the CSU system, but not necessarily to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a Bachelor’s degree (unless the major is a designated as a high unit major. These degrees may not be the best option for students intending to transfer to a particular CSU campus or to university that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Requirements

The following is required for all AA-T or AS-T degrees:

1. Minimum of 60 CSU transferable semester units.

2. Minimum grade-point average (GPA) of a least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors such as impacted majors may require a higher GPA. Please consult with a counselor for more information.

3. Completion of a minimum of 18 semester units in an ADT major. All courses in the major must be completed with a grade of “C” or better or a “P” if the course is taken on a “Pass/No Pass” basis (Title 5, 55063).

4. Completion of the California State University General Education-Breadth (CSU GE-Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) pattern

COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at the college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. Students should refer to www.assist.org to confirm how each college’s course will be credited at a particular CSU or UC for transfer credit.

Highly trained and experienced faculty teach in state-of-the-art facilities including the Child Development Center that provides lab experiences for both programs. The Dietetic Program is approved by the Credentialing Agency for the Association of Nutrition and Foodservice Professionals. To assist students in meeting their academic goals, the Child Development program administers two dynamic support programs that include the Child Development Training Consortium, and the California Early Childhood Mentor Teacher Program.

Program Mission
The mission of the Child Development program is to provide learners with multiple pathways that prepare them to become dynamic, responsive, authentic, and informed early childhood education professionals.

Child Development certificates and degrees provide students with the coursework and the field experience needed for a career in Early Childhood Education. LACC’s Child Development curriculum is aligned with the State’s Child Development Permit Matrix to prepare students for positions in early care and education. Students are trained as educators for a variety of private and public early childhood education programs including Head Start, State Pre-School, and unified school district early care and education programs. Graduates teach or administer in programs for infants, pre-schoolers, children with special needs, and in before and after school-age programs. Many students begin their career as assistant teachers, then with additional coursework and experience, are able to move up the career ladder to become lead teachers or site supervisors.

Program Notes
Students beginning their course work for certificates and degrees in Child Development must be aware of the following:
• Criminal Clearance: In order to fulfill State licensing requirements for employment in private and public programs, students must receive a Criminal Clearance to work with young children. Consult with faculty for additional information.

• Mantoux test: Some Child Development courses may require students to obtain a Mantoux test for Tuberculosis clearance. The college Health Center provides this service. Please call ahead to schedule a Mantoux test and reading at 323-953-4000, Ext. 2485.

• In order to complete CH DEV 22/23 Practicum in Child Development I and II, or to work in the field of early care and education, students must show proof of immunization against measles, pertussis, and the flu.

• CPR Training: Your employer may require you to take a 15 hour Cardiopulmonary Resuscitation class. This class covers training on basic first aid for infants and children, CPR techniques and information on basic health and sanitation procedures.

• Child Development Training Consortium (CDTC): If you are currently working in a paid position in a licensed Early Childhood Program serving infants to kindergarten, or before and after school-age programs, and are taking Child Development or General Education units towards a Child Development Permit, you may qualify for partial reimbursement of your fees, books, or other expenses at LACC. For more information contact: Mary Skousen Radford, 323-953-4000, Ext. 2297, skouseme@lacitycollege.edu.

PROGRAMS OFFERED

Associate of Science
Dental Technology

Certificate of Achievement
Dental Technology

Dental Technology (often referred to as Dental Laboratory Technology) is a career in the design and manufacturing of dental prosthetic devices (dentures, partial dentures, crowns and bridges) and orthodontic devices (both passive and active retainers). Dental Technicians and technologists usually work in a commercial dental laboratory which is separate from the dental practice. Salary is based upon knowledge level, experience and speed of manufacture among other aspects. Dental technicians receive dental impressions and prescriptions (work authorizations) from the dentist, apply their expertise and return the prescribed appliance to the dentist for placement in the patient’s mouth.

Entrance into the Dental Technology Program

All candidates for the Dental Technology Program must have a high school diploma or G.E.D. Getting selected into the LACC Dental Technology Program is a two-part process. First the candidate must enroll in DEN TEK 100 (Introduction to Dental laboratory) and DEN TEK 102 (Dental Anatomy and Terminology). Candidates for the Dental Technology Program must complete these (2) two courses with a grade of “C” or better. Students who receive a D, F, W, or Incomplete grade will not be considered for entrance into the Dental Technology Program.

The second part of the process is to take the Dental Technology Dexterity Exam that will be administered on the 14th Saturday in the Fall Semester. All students that have taken or currently are taking the DEN TEK 100 are eligible to take the Dexterity Exam. This exam is not a pass/fail exam and there is no way to study for it. The Dexterity Exam gives the selection committee an accurate indication of hand/eye coordination and three-dimensional ability of each candidate. These qualities are necessary for a dental technologist to have. The candidates are ranked according to their individual results with all of the other dental technology candidates. The top 18 candidates out of the testing cohort are invited to enter the Dental Technology Program. If a candidate is not selected into the Dental Technology Program, the candidate may request to retake the Dental Technology Dexterity Exam when it is given in the next testing cohort.

The Associate of Science Degree Program and the Certificate Program are identical from a course sequence standpoint. The only difference is the general education requirements taken outside of the Dental Technology Department.

In order to minimize the potential for the spread of infectious diseases amongst patients and dental personnel, Dental Technology students and staff are highly encouraged to be immunized against and/or tested for infectious diseases such as mumps, measles, rubella, hepatitis B, and tuberculosis. If you have any questions regarding your immunization status or recommended immunizations for health care workers, please consult your personal physician. If you would like to learn more about Dental Technology program policies and procedures regarding infection control, you may contact the department at (323) 953-4000 x2500 or 2501.

Paralegal Studies

The Paralegal Studies Program is approved by the American Bar Association. It is offered by the Law Department to students who are interested in working in the legal field. Paralegals assist attorneys in providing legal services in civil and criminal matters. Paralegal training is also valuable to persons seeking employment in fields such as real estate, insurance, banking, or brokerage. This occupation attracts many applicants, and competition for jobs will be strong. Experienced, formally trained paralegals with strong computer and database management skills should have the best job prospects. The paralegal program is designed to provide students with high quality paralegal training, and on-the-job experience through internships. The paralegal program is flexible and accommodates day, evening, and weekend students.

MATHEMATICS

Associate of Science Degree
(Program: 170100 State Code: 02754)

The curriculum shown below is designed to guide students in the Mathematics major and to encourage students to start courses in this major early in their college career. By completing this curriculum, students will be ready to compete in this major with other students at a four-year college or university. Whether or not students elect to receive the Associate of Science degree, the courses listed below are those that will prepare them to enter their transfer institutions fully prepared to pursue the mathematics major. Depending on your preparation, you may need additional prerequisite courses before entering this program.

Program Student Learning Outcomes

1. Graph functions using the first and second derivatives and use integration to find areas and volumes bounded by functions.
2. Identify and graph the appropriate (logarithmic or exponential) function to model the situation.
3. Set up a triple integral to find the volume of a given solid bounded by the graphs of equations of surfaces, then evaluate the integral using multivariate change of variables.
4. Find the four fundamental subspaces of the coefficient matrix of an over-determined system of equations and relate these subspaces to the least squares solution. The student will find the least squares solution to the system of equations.
5. Given a higher order, linear differential equation, the student will solve it by three methods: Laplace Transform, method of eigenvalues, and solution by series substitution.

PROGRAMS OFFERED

Courses Only - No Degree/Certificate

Too often when we hear “philosophy” the thought of old statues and ancient writings comes to mind. In fact, philosophy is alive and well and critical to our everyday decision-making and the decisions made by business, religious institutions and governments around the world. Additionally, examining the principles of philosophy helps in becoming a more ethical and organized thinker. These skills are critical for future managers. The logic skills gained can benefit anyone and especially aspiring lawyers who will need to present well structured arguments.

ALL REQUIRED COURSES FOR THE MAJOR MUST BE COMPLETED WITH A GRADE OF “C” OR BETTER IN ORDER TO GRADUATE.

RADIOLOGIC TECHNOLOGY

Associate of Science Degree
(Program: 122500 State Code: 02749)
Radiologic Technology is a health care profession whose practitioners work in hospitals, clinics, free standing imaging centers, and private offices. The Radiologic Technologist (Radiographer) is a member of the health care team who works directly with the patient and the physician performing a wide variety of diagnostic X-ray procedures. The Radiographer must be proficient in the knowledge of radiographic exposure, anatomy, patient positioning, the operation of specialized equipment, and in the care and management of the patient. The rapid expansion of medical diagnostic imaging has greatly increased the diversity and utility of medical diagnosis. A career in Radiologic Technology offers vast opportunities for advancement.

The Radiologic Technology curriculum is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the California Department of Public Health (CDPH). The clinical educational centers are accredited by the Joint Commission for the Accreditation of Health Care Organizations (JCAHO). Los Angeles City College is accredited by the Western Association of Schools and Colleges.

Students who complete the curriculum, including the clinical education requirements, will be eligible to take the certification examinations prepared by the American Registry of Radiologic Technologists and the State of California Department of Public Health (CDPH).

Admissions to the Program:
- Prerequisite courses for entrance into the Radiologic Technology Program are: Anatomy 1, Physiology 1, English 101, Mathematics 125 or higher, and Radiologic Technology 200, 201, and 202. (Effective Fall 2013, all students must complete RT 200 & 202 at Los Angeles City College.)
• All new LACCD students (effective Fall 2013 semester) must complete the general education requirements prior to applying for entry into the Radiologic Technology program (an exception to this rule is if students already possess an Associate or Higher Degree from a Regionally Accredited Program). This change corresponds to the ARRT 2015 Associate Degree requirement. https://www.arrt.org/Certification/Academic-Degree-Requirement

• Five Year Recency Requirement for Science Courses: All completed prerequisites science courses must be completed within a five (5) year time frame. This means the Anatomy (4 units) and Physiology (4 units) must be completed within this time frame. (Students that have taken Anatomy or Physiology in a LACCD campus may audit the courses and provide documentation that they have successfully re-taken the courses.)

• An application form, to be submitted online through the LACC Radiologic Technology Department website at: http://www.lacitycollege.edu/academic/departments/radtech/index.html

Program Student Learning Outcomes

1. Position the patient to demonstrate the requested anatomy required by the physician to show the presence or absence of disease.

2. Effectively and efficiently assess the patient’s condition and communicate relative information to doctors, the patient, family members, and other hospital staff.

3. Administer ionizing radiation, ethically and judiciously, to the patient following the principle of “as low as reasonably achievable”.

4. Employ patient care practices based on acceptable ethical behavior and established standards within their scope of practice.

5. Pass the registration and licensing examinations offered by state and national accrediting organizations.

6. The student will be able to pass the American Registry of Radiologic Technology examination in Radiography.
