How to Read a Course Description

Units

The number of units is based on the number of hours spent inside and outside-of-class.

Lec and Lab

The **Lec** (lecture) and **Lab** (laboratory) hours indicate the number of hours spent in class each week during a standard 16-week semester. Students are expected to spend two hours on outside-of-class work for every hour of lecture in class. A modest amount of outside-of-class work may be associated with laboratory courses, though the units awarded are based solely on the work done in class.

Transfer Credit

The transfer credit part of the course description indicates whether the course is articulated and will be accepted for transfer credit at a California State University (**CSU**) and/or University of California (**UC**) school. This area also may indicate whether the course satisfies general education requirements for a California State University (**CSUGE**) and/or University of California (**IGETC**) school. This part may also indicate whether the course satisfies a specific general education subject area.

The Course Identification (**C-ID**) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signifies that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Students can be assured that a course with a C-ID number will be accepted in lieu of a course bearing the same designation at another community college.

Students should also refer to *assist.org* to confirm how each course will be credited at a particular CSU or UC for transfer credit.

A **prerequisite** is a course or other condition of enrollment that a student is required to complete prior to enrolling in the primary course. A **corequisite** is a course that a student is required to enroll in simultaneously with (or, in some cases, prior to) the primary or corresponding course. An **advisory** is a course that a student is advised, but not required, to take in conjunction with or prior to the primary course.
